BANYULE JERSEYS

COMBINE TRUE TYPE WITH
CONSISTENTLY GOOD PRODUCTION

*"Leader" photo.
Banyule Silvermine S61st, which produced 694 lbs. butter fat.*

The Banyule Jersey Stud has been established for over thirty years. It has been under the Victorian Government Herd Test Scheme for over twenty years, during the whole of which time it has held a prominent position. It has won the Special Ribbon for the most successful Exhibitor at the Melbourne Royal Show on ten occasions. Line bred with the occasional introduction of high class imported bulls.

Banyule bred bulls have proved their capacity to pass on this concentration of type and production.

If you require a high class bull to head your Stud or one to grade up your Dairy Herd, you need a Banyule-bred Bull.

The Guernsey Incomparable!

GUERNSEY Milk contains not only more butter fat and other nutritive solids but a distinct golden colour—it's an exclusive Guernsey feature. There are other rich milks but Guernsey sells itself because it also *looks* rich. See and taste it at the Society's Milk Bar (end of No 2 Cattle Pavilion, near back of Members' Grand Stand.

TEN centuries of selective breeding have evolved and fixed the high-producing disease-resisting characteristics of this great breed. Guernseys thrive, yield and multiply in any climate.

ONE cross of registered Guernsey bull will increase the yield of *your* herd and put that sales-promoting golden colour in the milk.

FEEDING SHEEP

CAUTION!

As RIVERINA SHEEP NUTS are made from the richest foods only in a very concentrated form, it is not advisable in the early stages to overfeed starving sheep, but to give them a gradually increasing ration, $1\frac{1}{2}$ to 2 ozs. per day (say one bag of 125 lbs. per 1000 sheep per day) for the first couple of days, gradually increasing to a full ration of 4 ozs. per day (two bags per 1000 sheep per day), on which they will thrive, improve in strength, and show a marked improvement in condition and growth of the wool.

LAMBING EWES

If you could experiment by feeding some of your Lambing Ewes a few weeks before and after lambing, you would become an annual customer, whether the season is good or bad. Have you ever considered this seriously?

Two tons will feed 200 well for 80 days. It is worth that much to notice the difference in the growth of the lambs, without considering the benefit to the mothers and the wool.

Stocks are kept at Sydney, Narrandera, Tocumwal and Wagga, and can be sent to any part of the Commonwealth.

Only one Exhibitor will be recognised as the owner from any one holding.

Sheep over 18 months old must have been fairly and evenly shorn since 1st August, 1934, except where otherwise specified, and judges are empowered to disqualify exhibits that, in their opinion, do not conform to this regulation. Date of shearing to be given on entry form.

Hamel Corriedale Stud Farm

The Largest Registered Corriedale Flock in Western Australia
(Flock No. 264 in the Australian Corriedale Sheepbreeders' Association)

Founded in 1914 by the purchase of 50 Ewes from Mr. H. Ensor, New Zealand (F.7, N.Z.C.S.S.) and 20 Ewes from the New Zealand & Australian Land Co., Moeraki Estate, New Zealand. The only sheep used in the Stud have been bought from Senator J. F. Guthrie, "Bulgandra" Stud (F.1), and include 80 stud ewes and several rams sired by "Bulgandra Topnotch." In 1932, 40 specially selected stud ewes and lambs were purchased from Mr. A. C. Head (F.120).

"Bulgandra Top Notch" (Bred by Senator J. F. Guthrie) (F.1), Champion Corriedale Ram of Australia 1930 and 1931, and sire of Rams used in Hamel Flock.

This great dual purpose breed has proved its worth in this country, and the Hamel Stud is noted for its excellence of type and conformation. 33 Bales of the 1934 Clip Hamel Wool were sold in London at the Public Sale held on the 14th May, 1935, and the Brokers report:—

"It consisted of well-bred, light-conditioned wool, ranging from 58/60s in the AAAs to 56s. They showed a good length of staple throughout, and were sound and free from fault. It met with keen competition, and was taken mainly by Home Trade Buyers.—(Sgd.) Schwartz, Buchanan & Co."

RAMS AND EWES CAN BE SUPPLIED AT REASONABLE PRICES.

STONY PARK EAST POLWARTHS

STONY PARK EAST POLWARTHS are the original Dennis Strain, established 50 years ago — $\frac{3}{4}$ Merino, $\frac{1}{4}$ Lincoln — carrying bulky, lustrous fleeces of high-priced wool. Consistent winners at District Shows and at the A.S.B., Royal Sheep Shows, Melbourne and Sydney. Polwarth Wool from this Stud topped Albury Market, Nov., 1933, in offering of 13,000 bales, whilst Polwarth-Merino Cross Wool has invariably been amongst the top lines.

Stony Park East Stud is No. 6 in the Stud Book and the Pioneer Stud of N.S.W.

Grand Champion Polwarth Ram,
Sydney Sheep Show, 1934. Photo. by Hall.

POLWARTHS—a definitely Australian breed—were exhibited at the Sydney Show for the first time last year, and the winning of the Grand Championship will associate STONY PARK EAST STUD with the initial development of the breed.

POLWARTHS were established in Australia to suit Australian conditions, and have proved themselves to be WITHOUT A SUPERIOR for returning VALUE PER ACRE.

POLWARTHS are comparatively immune from Foot-Rot, Fly and Grass Seed Troubles, and are consequently thriving when other Sheep are distressed.

SUNSHINE AUTO-HEADER

DOES A
WONDERFUL
JOB!

Read the Experience of Mr. R. R. Wilson, Yeelanna, S.A.

Yeelanna, S.A., 11th July, 1935.

Dear Sirs,

I have now had my Auto-Header for seven harvests, and during that time have put up some wonderful performances with the machine. My average acreage for the seven harvests is 650 acres each year, but in 1932 I took off 850 acres. My best day's reaping was 428 bags, and in 1929-30 season for six days I took off an average of 350 bags per day. There is no doubt the Auto-Header does a wonderful job, and, just to give you some indication of its work, the following is a list of prizes won by me:—

1st, Power Farming Cup for S.A., 1929-30, with a crop of "Bena" wheat, which went 40 bushels; 2nd, State Championship Crop, 1932-33; 1st, Flinders Crop Competition, 1932-33; 2nd, Flinders Crop Competition, 1933-34; 1st, Melbourne Centenary Show, 1934, Sunshine Wheat Competition, presented by Messrs. H. V. McKay-Massey Harris Pty. Ltd., Sunshine Harvester Works, Sunshine, for best bag (3 bushels) of wheat; 1st, Adelaide Royal Show, 1932, for Milling Wheat; 1st, Adelaide Royal Show, 1932, for Malting Barley; 1st, Adelaide Royal Show, 1933, Milling Wheat, Roseworthy origin, best bag in competition, and three other prizes; four 1st prizes, two 2nd prizes and one 3rd prize, Adelaide Royal Show, 1934; and during the last three years I have secured 60 prizes at Eyre Peninsula Agricultural Shows for samples of grain. These have all been harvested by the Auto, which speaks volumes for its thoroughness.

For a local competition to be approved, the controlling body of such competition must submit to the Royal Agricultural Society of Victoria its method of choosing the exhibits so as to ensure uniformity of conditions as far as is necessary. For the guidance of local committees, the method suggested by the Farm Competitions Association (Vic.) and approved by the donors and the Royal Agricultural Society of Victoria is set out hereunder:—

"Two members of the Committee to visit the farm during harvesting operations and to select from the stock of wheat in the paddock, provided they are satisfied it has been taken direct from the harvester, three open bags from which the bag for competition will be selected by the competitor or his agent. The competition bag to be then sewn with special twine, sealed and numbered. Where practicable, it is urged that the Committee-men take immediate delivery of the bag and transport it direct to the Society's store; failing that, it is recommended that they take from the open bag before it is sewn, sealed, etc., a representative sample of its contents, and lodge the sample with the Secretary, the bag to be delivered by the competitor before a fixed date. Any sample so taken to be considered part of the exhibit and placed alongside its respective bag during judging."

CONDITIONS OF COMPETITION.

1. Collections may consist of the following:—Farm, Dairy, Horticultural and Pastoral Produce, including Wool, Wine, Vegetables, Roots, etc., and Wood.

Woods and wines may be of any age, but the latter must be from a vineyard that is producing at time of exhibition. Exhibits may be manufactured from produce secured beyond the 30-mile radius and wool grown in the district may be scoured beyond the 30-mile radius. No exhibits produced or manufactured in the capital cities of Australia or within a five-mile radius of the General Post Office of same will be allowed to compete.

NOTE.—Exhibitors must make a statutory declaration when lodging their entries that their exhibits comply with Condition 7.

8. Exhibitors are required, in arranging their exhibits, to place them in such a manner as to facilitate judging. The Judges shall have the right to sample all foods and preserves.

9. SCALE OF POINTS FOR JUDGING.

NOTE.—Provided the quality of exhibits in any section is equal, a greater number of points will be awarded to the collection in which the greater number of varieties is shown. Wheat and potatoes are limited to twenty varieties in each case.
