FAMOUS SINCE 1851

A Year of Great Events

It was in this year that the Port Phillip District declared its independence and became the State of Victoria. A few days later gold was discovered and the romantic days of the gold rush began. The third great event was the commencement of a great Australian Industry under the now well-known name of **Guest's** — and to-day **Guest's Famous Biscuits** are first favorites with the entire Victorian public.

WORLD'S PATENTS—TRADE MARKS DESIGNS AND COPYRIGHTS

G. G. TURRI & CO., REGD. PATENT ATTORNEY,
RIALTO, 499 COLLINS STREET, MELBOURNE, C.1.

Mr. GEORGE TURRI, practising as above, is the First Patent Attorney Officially Registered to practice in the Commonwealth of Australia. He acts for many successful Inventors of the World's Chief Countries.

Inventors and Investors are invited to call or write for Information. Valuable Advice will be supplied Free; and, in some cases, printed matter.

SEVEN GOLDEN TIPS.

1. If you begin with a PROVISIONAL PATENT, push on speedily during its nine or ten months' period; produce a first-class embodiment; in suitable cases obtain wide and favourable publicity, and **get right on the market**. Include EXHIBITING at Agricultural Shows, etc. Most steps in Patent matters are important in order to attain success and reduce risk. The whole cost of a PROVISIONAL Patent is £5/5/-, if the invention is simple. See Tip No. 6 as to the field.
2. Secure Patent Rights in full for new and immediately marketable inventions of everyday utility; give simple inventions preference. It is often when on the market profitable to use and Register one or more TRADE MARKS. Some Trade Marks are worth each the best part of a Million Pounds (abroad). As a DESIGN Registration costs little; obtain advice thereon. (Fifteen years for about £10/10/-; or five years for about £5/5/- one class). A DESIGN covers a newly-invented, useful or ornamental shape or pattern of an article or articles. According to the materials used, the Designs are classified. In some classes the cost is less than above. It is wise to Register COPYRIGHT (and costs almost nothing—except sometimes in U.S. America). Copyrights remain in force in some cases nearly 100 years.
3. DON'T agree to part with **any** share in your Invention before settling the terms (which should be written). Have the Agreement prepared by a competent Patent Attorney or Solicitor. Don't sell "for a song." Do not hold out for an immense sum.
4. SCRAP, modify, or remake your models or samples so long as you can improve. Extra expense and extra patience in that direction will yield larger or speedier profit in the end. Defer Patenting, if advisable.
5. Take care to obtain further Patents (in addition to the first) if that will cover improvements produced, which are valuable enough to be monopolised. As two farms are worth more than one, so, frequently, are two Patents.
6. PATENTS abroad should only in some cases be obtained. If wisely marketed, they may pay. They may be applied for in the UNITED STATES, CANADA, BRITAIN, IRELAND, NEW ZEALAND, INDIA, SOUTH AFRICAN UNION, FRANCE, GERMANY, the Argentine, Japan, Belgium, Italy, Mexico, Sweden, Russia, Poland, Czecho-Slovakia, etc. It is easy to waste money in Patenting abroad. A help to obtaining Patents is the INTERNATIONAL CONVENTION. It allows twelve months in which to apply for a Complete Patent for an Invention on which Patent has been applied for in (say) AUSTRALIA. There are forty countries granting that privilege. A free list of these countries is available on application to G. G. TURRI & CO. The twelve months begins when the Patent Application is lodged in the first country (say Australia), even if Provisionally. Only a few countries allow Provisional Patents as such. But in effect, the Convention means they all grant a Provisional, without formality, free for a year, based on the Australian. If the full Patent is not applied for abroad within the year then Convention rights abroad cease to be available.
7. In most cases instruct the Patent Attorneys to search records, and advise as to Prior Patents, etc.; search should at least cover Commonwealth Patents (from 1904). The right time to search is before or after applying Provisionally, before applying for COMPLETE Patent.

FOR
HEALTHY
HERDS

AVOID BAD CLEANSING AT CALVING TIME

Bad cleansing is a source of great trouble and is caused by membranes remaining in the uterus and decomposing, causing inflammation ; often blood poisoning.

This condition leads to a diminished milk supply, ill health and even loss of the cow—all because proper attention was not paid to the cow at calving time. Avoid this risk by spending a few shillings on

SYKES'S DRENCH

Profit by the experience of the successful ones. Start this season drenching your whole herd with Sykes's Drench after calving. It keeps the milk yield up, the blood pure.

build up his Securities

Show Time is a Good Time to DO IT!

When a man builds up his Life Assurance through the years he establishes a double-barrelled asset. His A.M.P. Policies ensure his family's security after his death, and they give him security while he lives.

Show Time is a good time for a countryman to drop into the A.M.P. Office and talk his plans over with an experienced officer of the Society. An interview will cost nothing, and may show a way of establishing a new financial outlook.

What is a Trustee Company?

We spend the greater part of our lives striving so that we and those we love may enjoy as many of the comforts of life as possible. We build up assets and make careful provision for our dependants when we die. . . . *But of what use is our planning if the result of our labour is afterwards lost or frittered away? Inexperienced trusteeship leads to loss . . . because no one person can be expected to have all the diversified knowledge necessary to administer an estate.* ¶ National Trustees have specialised in trusteeship for 50 years; they will manage your estate as carefully as you would yourself; the supervision of experts in every branch of trusteeship guarantees absolute security. Charges are small and easily understood. *Call or write for further information about this important service. You will incur no obligation at all.*

LIAMS.

Stewards:

Saddle Horses, E. C. ROUCH, Esq.
Saddle Ponies, R. V. GREGG, Esq.

Entries are accepted on the distinct understanding that stock may not be removed from the Show Grounds until after 5 p.m. on Friday, 1st October.

(Stallions are not eligible to compete in this Section.)

Horses exhibited in Classes 77 and 78 must be geldings or mares, not under four years or over six years of age, and in colour bay, brown, black, chestnut or dark roan, and they will be judged for conformation, soundness, action and general suitability for Army purposes.

Where height is stipulated, horses must be measured, and an exhibit over or under the specified measurement may be transferred to its correct Class. Where a definite weight is specified, the horse must, in the opinion of the judge, be suitable for carrying such weight.

All horses in the 14-st., 12-st. and 10-st. Hack Classes must be paraded before judging, when the Judge will class them into their various classes in the following way:—The horses entered for 14-st. Hack shall be paraded, when any horse too light, in the opinion of the Judge, shall be transferred to the 12-st. Class. Those entered in the 12-st. Class shall be next paraded, when the Judge shall class out any he considers too heavy or too light, and shall transfer the heavy to 14-st. and the light to 10-st. Class. Those entered for the 10-st. Class shall be paraded, and the Judge shall class out all considered too heavy, and transfer to 14-st. or 12-st. Class, as the case may be. Judging will then commence with the 14-st. Class.

Please state on entry form name, colour and correct age of exhibit; also pedigree (if known).

CATTLE

Stewards in Chief—Beef Cattle: J. E. ROBERTSON, Esq.
Dairy Cattle: G. L. WILSON, Esq.

Entries are accepted on the distinct understanding that stock may not be removed from the Show Grounds until after 5 p.m. on Friday, 1st October.

The breeding year for all Cattle (including Fats) dates from 1st July in each year.

Nurse Cows are not to be entered for competition, but pens will be provided, at 2/6 each, if application is made at time of entry.

Cow or Heifer entered as "in milk" can be transferred to the "in calf" class, if she has not calved prior to judging day, or vice versa.

Cows or Heifers entered in the "in calf" classes must be stripped out prior to entering the judging ring.

Judges have the right to order any cow competing for Championships to be milked dry before finally awarding the prizes.

In all sections feed sheds are available for exhibitors. Charge, 12/6 during the currency of the Show. Feed-mixing bins may be hired for 2/6 each. Exhibitors are not permitted to stack feed in the Cattle Pavillons.

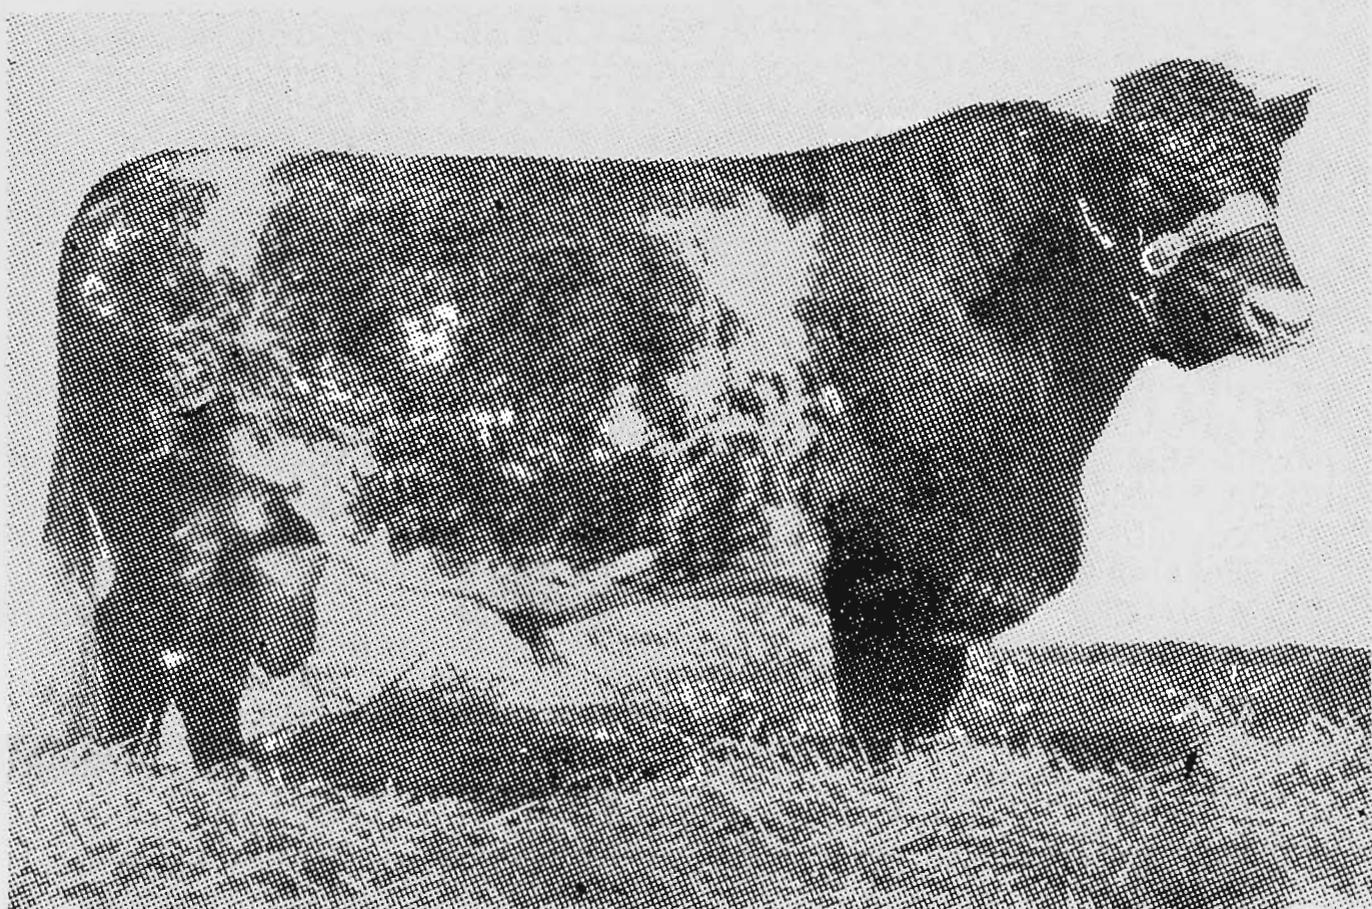

Cows and Heifers in Milk must be in the yards on Wednesday, 22nd September, and be fully milked out prior to 5 p.m. (except Friesians, Section 21, which will be stripped out at 9 p.m.), at which hour they will be stripped out in the presence of the Stewards, or whom they may appoint. They will be judged first on Thursday morning. The owner or his representative must be in attendance when females are being stripped out.

Entries of milking stock (Sections 16 to 23 inclusive) will only be accepted subject to the following regulations regarding the disposal of milk.

In order that the Society can comply with the provisions of the Dairy Supervision Act, exhibitors are not permitted to dispose of milk prior to and during the currency of the Show, either by sale or gift, other than to the Society's agent, who is situated at the Milk Room (beside the No. 1 Cattle Pavilion). All milk will be purchased according to butter fat value, based upon a complete test of the bulked milk, and returns forwarded to exhibitors after the Show. No milk will be paid for unless approved milk utensils are used and hygienic methods are adopted.

JUDGING ARRANGEMENTS (CLASS 167).

The steers are to be weighed alive on the day previous to judging and the live weights handed to the Judge. In the first place, the steers are to be judged alive (by the Shorthorn Judge in the Shorthorn ring) on the lines of breed characteristics and suitability for the beef trade. A maximum number of 40 points can be awarded to exhibits when alive.

The steers are to be sold by auction at the Show Grounds on behalf of the exhibitor, and on Tuesday, 28th September, they will be slaughtered in the presence of the Judge (a butcher), weighed for dead weight, and judged on appearance when dressed, for color, quality and value of meat, hide and offal. The maximum number of points which can be awarded for the dead carcass, hide and offal is 60. The live weight is also to be furnished to the carcass judge, who has power to have the carcass cut as he wishes in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, the meat must be placed on exhibition for two days at butchers' shops within a radius of six miles from Melbourne G.P.O., due notice of days and place to be given to the public. The judges are to be asked to furnish reports on this competition to the Shorthorn Society of Australia (Victorian Branch), Temple Court, 422 Collins Street, Melbourne.

IVANHOE A.A. RED POLL STUD

The property of Mr. DAVID MEREDITH, IVANHOE,
PLENTY, TASMANIA.

THIS stud was founded in 1932, and included as its foundation stock seven A.A. cows bred by the Hon. T. H. Payne, Woodburn, Vic., three bred by Mr. A. G. Hunter, Northwood Park, Vic., and two from Dr. Arnold Caddy's Chandpara Stud, Vic. Several of these cows were prize-winners at the Melbourne Royal Show, and the three studs from which they came were at that time well in the lead of A.A. Red Poll breeders in Victoria.

The first bull used was Woodburn Wiseboy 1515 A.A., by Whiteway Wiseman (imp.) 619 A.A. out of Knepp Prudence 3rd (imp.) 1104 A.A. Both Woodburn Wiseboy's grand-sires and grand-dams had an important prize-winning record in England.

Woodburn Wiseboy's first heifer, Ivanhoe Lotus, has been a prize-winner at the last three R.A.S. of Tasmania shows, taking first as a yearling 1934, first as a two-year-old 1935, and first as a three-year-old 1936. Another stud bull now in use at Ivanhoe is Woodburn Merlin 1501 A.A., by Gresham Mohawk (imp.) 1389 A.A.

A.A. Red Poll Matrons at Ivanhoe Stud, Plenty, Tasmania.

Show exhibiting commenced at R.A.S. of Tasmania in October, 1932, with increasing success each year until 1936, when awards included first prize in all of the four bull classes and the four cow and heifer classes, the group prize and championships for both bull and cow. Over these four years cow championships on three occasions and reserve championship on the fourth were won with three different cows.

So far, young A.A. stock from Ivanhoe Stud has only been disposed of in Tasmania and New Zealand. The yearling bull, Ivanhoe Ladas, sold after winning first prize as a yearling at R.A.S. of Tasmania, 1936, to Sir Heaton Rhodes for his Otahuna Stud at Wellington, N.Z., was the subject of particularly favourable comment by competent critics.

Special prizes of £15 guineas, donated by THE RED POLL CATTLE BREEDERS' ASSOCIATION OF AUSTRALASIA (Special). First prize, £10/10/-; second prize, £5/5/-. Entry fee 10/-.

JUDGING ARRANGEMENTS.

The steers are to be weighed alive on the day previous to judging and the live weights handed to the judge. In the first place, the steers are to be judged alive (by the Red Poll judge, in the Red Poll ring) on the lines of breed characteristics and suitability for the beef trade. A maximum number of 40 points can be awarded to exhibits when alive.

The steers are to be sold by auction at the Show Grounds on behalf of exhibitor, and on Tuesday, 28th September, they will be slaughtered in the presence of the judge (a butcher), weighed for dead weight, and judged on appearance, when dressed, for color, quality and value of meat, hide and offal. The maximum number of points which can be awarded for the dead carcass, hide and offal is 60. The live weight is also to be furnished to the carcass judge, who has power to have the carcass cut as he wishes, in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, the meat must be placed on exhibition for two days at butchers' shops within a radius of six miles from Melbourne G.P.O., due notice of days and place to be given to the public. The judges are to be asked to furnish reports on this competition to the Red Poll Cattle Breeders' Association of Australasia, Temple Court, 422 Collins Street, Melbourne.

Note.—Exhibits in the above Class are eligible to compete in Classes 350, 351 and 357.

Cows competing in these Classes must have gained a Government Herd Testing Certificate during the year ending 31st July, 1937.

JUDGING ARRANGEMENTS.

The steers are to be weighed alive on the day previous to judging and the live weights handed to the judge. In the first place, the steers are to be judged alive (by the Dairy Shorthorn judge, in the Dairy Shorthorn ring), on the lines of breed characteristics and suitability for the beef trade. A maximum number of 40 points can be awarded to exhibits when alive.

The steers are to be sold by auction at the Show Grounds on behalf of exhibitor, and on Tuesday, 28th September, they will be slaughtered in the presence of the judge (a butcher), weighed for dead weight, and judged on appearance, when dressed, for color, quality and value of meat, hide and offal. The maximum number of points which can be awarded for the dead carcass, hide and offal is 60. The live weight is also to be furnished to the carcass judge, who has power to have the carcass cut as he wishes, in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, the meat must be placed on exhibition for two days at butchers' shops within a radius of six miles from Melbourne G.P.O., due notice of days and place to be given to the public. The judges are to be asked to furnish reports on this competition to the Dairy Shorthorn Association of Australia, Temple Court, 422 Collins Street, Melbourne.

Note.—Exhibits in the above Class are eligible to compete in Classes 350, 351 and 357.

SPECIAL NOTIFICATION.

It is the intention of the Dairy Shorthorn Association of Australia to offer for competition at the 1938 Show prizes of:—First, £5; second, £2; third, £1; under the same conditions as those specified above.

CELEBRATED FOR HIGH TEST
AND GOLDEN COLOUR

27 YEARS OF CAREFUL BREEDING

Founded in 1910 by the importation of the noted bull, Trengwainton Acorn, and seven selected females. Acorn's dam Hayes Olive, was Champion Cow of England and winner of three butter-fat competitions. Since then several importations of males and females have been made from Guernsey and England, among the latter being Camilla's Majestic of Maple Lodge, who is sire of Majestic of Kings Mills, who won the King's Cup for the best Bull on Guernsey Island, and many other important trophies. Camilla's Majestic of Maple Lodge's dam, Camilla of Maple Lodge, produced 11,615 lb. of milk and 639.44 lb. of butter-fat. With Camilla's Majestic three specially selected females were also imported, and more recently the herd was strengthened by the importation from Guernsey Island of the three excellently-bred heifers, Clara's Fashion 8th, Marose of Kings Mills and Pearl 2nd of Kings Mills.

Imported Sires used in Herd:

Trengwainton Acorn, Royal Sequel II., Gem of Meadow View, Camilla's Majestic of Maple Lodge, Woodland's Fleur-de-Lys, Honoria's Benefactor (imp.).

TYPE AND UTILITY DIVISION.

Prizes in the three following Classes are presented by the **Government of Victoria.**

Judges will award numerical estimate, not exceeding 100 points, to all competitors in each Class for type and conformation.

**“Guernseys must bring
higher prices
Buyers now, will reap
the benefit”**

The retailer of GUERNSEY milk gets his rival's customers—(its rich golden colour does that for him)—and so another Guernsey buyer comes into the market. He can't compete otherwise, especially when his former customers find Guernsey milk's as rich in nutritive qualities as it looks. His costs don't go up, either—Guernseys are so economical to feed.

Guernsey Prices Will Swing Up

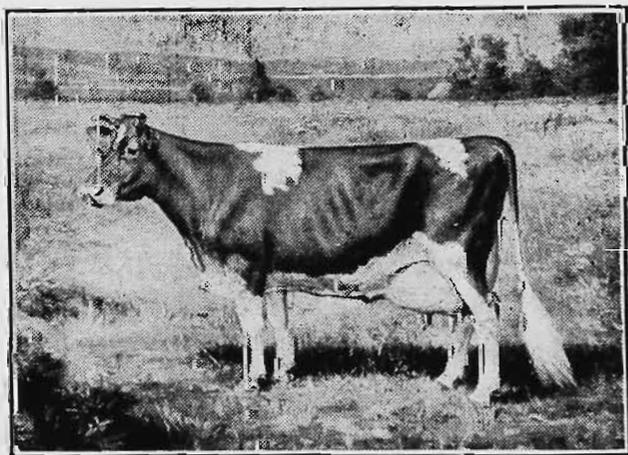

But it's not too late. Get a Guernsey bull to-day. He'll build up the butterfat yield of your herd and put the exclusive Guernsey colour in the milk.

See and taste this Guernsey milk for yourself at the Society's Milk Bar (end of No. 2 Cattle Pavilion, near rear of Members' Grand Stand).

SUPREMACY OF FRIESIANS

Whether it's a 600, 700 or even 800 lb. butterfat record, you may be sure that it was done with the Friesian characteristic of economy in feed costs.

Friesians are "good feeders" because they have large, healthy, hard-working bodies, but they don't waste food.

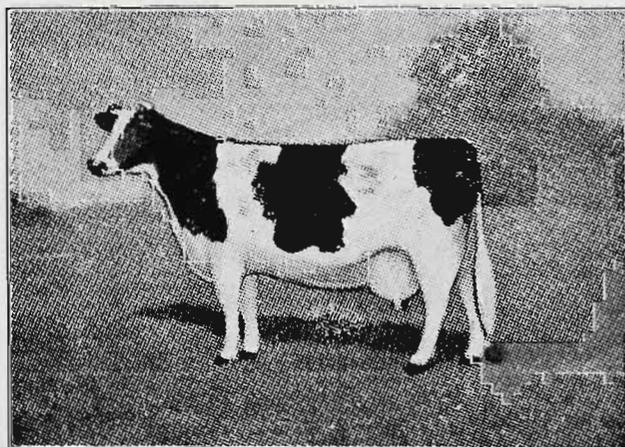

And

Their butterfat production is regularly high, and their milk yield enormous—often under climatic and feed conditions which would be hopeless to others.

Visit the Friesian Club's Kiosk (McNab Street, opposite the No. 1 Cattle Pavilion) and see for yourself.

From every corner of the Commonwealth letters are continually being received from Case Tractor owners expressing their appreciation of the Long-lasting Qualities, Low Upkeep Cost and the Greater Adaptability of Case to do all jobs faster and better.

These owners, almost without exception, have been running their Case Tractors consistently for more than seven years without any costly mechanical replacements, and confidently expect another eight or nine years of this same trouble-free performance . . . convincing evidence, surely, that the Case does "carry on" long beyond the average tractor.

It will be to YOUR advantage to fully investigate the big working capacity of the Case, the very reasonable first cost . . . plus the long years of profitable service that YOU, too, can definitely expect. Call at our Melbourne Machinery Showfloor, or at the V.P.C. Show-ground Pavilion.

SHEEP

Entries are accepted on the distinct understanding that stock may not be removed from the Show Grounds until after 5 p.m. on Friday, 1st October.

All British Breeds Sheep exhibited (except imported sheep, which must be tattooed in accordance with the regulations of the recognised Flock Book of the country of origin) must be tattooed with their breeder's registered flock number and the trade mark of the Australian Society of Breeders of British Sheep in accordance with the Rules of that Society.

Inspectors will examine all registered British Breeds Sheep exhibited, and any found to be not tattooed will be disqualified, and all prizes won by such sheep will be cancelled.

Sheep in Sections 25 to 35 inclusive are only required in the yards from 10 a.m. on Monday, 27th September (when judging commences), until 5 p.m. on Friday, 1st October.

FEEDING SHEEP — CAUTION !

As RIVERINA SHEEP NUTS are made from the richest foods only in a very concentrated form, it is not advisable in the early stages to overfeed starving sheep, but to give them a gradually increasing ration, 1½ to 2 ozs. per day (say one bag of 125 lbs. per 1000 sheep per day) for the first couple of days, gradually increasing to a full ration of 4 ozs. per day (two bags per 1000 sheep per day), on which they will thrive, improve in strength, and show a marked improvement in condition and growth of the wool.

LAMBING EWES.

If you could experiment by feeding some of your Lambing Ewes a few weeks before and after lambing, you would become an annual customer, whether the season is good or bad. Have you ever considered this seriously?

Two tons will feed 200 well for 80 days. It is worth that much to notice the difference in the growth of the lambs, without considering the benefit to the mothers and the wool.

Stocks are kept at Sydney, Narrandera, Tocumwal and Wagga, and can be sent to any part of the Commonwealth.

"I SUBDIVIDED —

I couldn't afford NOT to!"

"THE land wasn't yielding me enough. I was late in the day realising the absolute necessity of grazing in rotation — but once I'd seen where I was wrong I did the job properly. I used 'Cyclone' fencing. In the years the fence has been up no stock has ever escaped from its paddock. And it was actually an economy to use 'Cyclone.' The total cost was less, the time for erection being about a quarter of what a plain wire fence would have required."
