Dairy Cattle—A. H. MOORE, Esq.

Deputy, KEITH McGARVIE, Esq.

The breeding year for Beef Cattle and Fat Cattle dates from 1st September and for Dual Purpose and Dairy Cattle from 1st July in each year.

Cow or Heifer entered as "in milk" can be transferred to the "in calf" class, if she has not calved prior to judging day, or vice versa.

Cows or Heifers entered in the "in calf" classes must be stripped out prior to entering the judging ring.

Judges have the right to order any Cow competing for Championships to be milked dry before finally awarding the prizes.

In all Sections feed sheds are available for exhibitors. Charge, 12/6 during the currency of the Show. Feed-mixing bins may be hired for 2/6 each. Exhibitors are not permitted to stack feed in the Cattle Pavilions.

Cows and Heifers in milk must be at the grounds on Wednesday, 20th September, and be fully milked out between 4 p.m. and 5 p.m., at which hour they will be stripped out in the presence of the Stewards, or whom they may appoint. They will be judged first on Thursday morning. The owner or his representative must be in attendance when females are being stripped out. All other cattle must be at the grounds before 9 a.m. on Thursday, 21st September.

Entries are accepted on the distinct understanding that stock may not be removed from the Show Grounds until after 1 p.m. on Friday, 29th September.

Entries of milking stock (Sections 19 to 26 inclusive) will only be accepted subject to the following regulations regarding the disposal of milk.

In order that the Society can comply with the provisions of the Dairy Supervision Act, exhibitors are not permitted to dispose of milk prior to and during the currency of the Show, either by sale or gift, other than to the Society's agent, who is situated at the Milk Room (beside the No. 1 Cattle Pavilion). All milk will be purchased according to butter-fat value, based upon a complete test of the bulked milk, and returns forwarded to exhibitors after the Show. No milk will be paid for unless approved milk utensils are used and hygienic methods are adopted.

In Dual Purpose Sections no animal born after 30th November, and in Dairy Sections no animal born after 31st October, may be exhibited.

In classes where entries are limited to one from each exhibitor two animals may be nominated, but only one may be exhibited. In such case no refund will be made of the entry fee paid on the cancelled entry.

Any exhibitor who shall, without due cause, fail to parade any animal before the Judge, when required so to do by the Steward of the Section, shall be liable to a fine of £1.

Parades.—Prize-winning horses and cattle only will be permitted to take part in parades. All prize-winning horses and cattle must be taken out on parade, in accordance with the printed programme. Exhibitors shall be subject to a fine of ten shillings in each case in which this regulation is not complied with, and shall also be liable to forfeit the prize or prizes awarded to their exhibit or exhibits. All horses and cattle parading must wear exhibit numbers. No ribbons will be permitted on exhibits except those won during the Show.

If, in the opinion of the Secretary, any exhibit or exhibits of stock be deemed to be dangerous, the owner of such exhibit or exhibits shall immediately, upon notice to that effect, remove such exhibit or exhibits from the Society's Grounds.

All male exhibits of Cattle over the age of 12 months shall be rung through the nose, and when on parade or going to and from the parade shall be led by such ring. Exhibitors will be liable to a fine of £2 for every infringement of this regulation.

Each exhibitor is required to see that each of his exhibits is securely tethered in its stall, and in the case of polled breeds it is compulsory that they be tethered by the nose ring in addition to the head stall or neck rope.

If, in the opinion of the Secretary, exhibits in this Section be deemed to be deformed, the owner or owners of such exhibit or exhibits shall, upon notice to that effect, remove such exhibit or exhibits from the Show Grounds.

Exhibits of Cattle which, in the opinion of the Society, are not in reasonable Show condition, shall be removed from the grounds and shall not be eligible to be offered for sale on the Show Grounds.

Any animal offered for sale may wear, in the sale ring, only those ribbons won in single competition.

In Classes where, to be eligible, animals are to be born between certain dates, which are shown, neither date is inclusive.

Except where otherwise determined by Council all cattle must be certified T.B. free. An animal need not be individually tested for T.B. if from a Government-certified T.B.-free herd. Individual tests must be completed not earlier than 90 days prior to the opening date of the Show. Certificates for individual tests must accompany entry forms.

JUDGING ARRANGEMENTS (CLASS 289).

The steers are to be at the Show Grounds by 9 a.m. on Wednesday, 20th September.

They will be weighed alive on that day, commencing at 9 a.m., and the live weights will be handed to the Judge. In the first place, the steers are to be judged alive (by the Shorthorn Judge) on the lines of breed characteristics and suitability for the beef trade. A maximum number of 70 points can be awarded to exhibits when alive.

The steers will be slaughtered in the presence of the Judge on Thursday, 21st September, weighed for dead weight, and judged by the appraisal system. The value of meat, hide and offal will be taken into consideration. The maximum number of points which can be awarded for the dead carcass, hide and offal is 130. The live weight is also to be furnished to the carcass judge, who has power to have the carcass cut as he wishes in order to arrive at correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, the meat must be placed on exhibition for two days at butchers' shops within a radius of six miles from Melbourne G.P.O., due notice of days and place to be given to the public. The judges are to be asked to furnish reports on the competition to the Shorthorn Society of Australia (Victorian Branch), Temple Court, 422 Collins Street, Melbourne, C.1.

Concentrated Harmonies

The Home of Good Heads—

DANANBILLA Poll Hereford Stud

The Stud was founded in 1941 by a selection of females from "Wantabadgery" of the Minerva, Last Day, Jessie and Fancy families. Since then, Golf Hill females of the Novelty, Princess Christian and Virginia families have been introduced, bringing in the blood of Hobartville Wonderlute and Freetown Director. Females from "Herbert Park" were purchased, these being by Windsor David and Freetown Eclipse. From "Milton Park" were secured females of the Harmony, Novelty and Golden Vanity families. These were outstanding individuals, and possibly four of the best ever to leave "Milton Park." Sires used have been Milton Sanak (Harmony family), Milton Joe 5th, by Emblem by Duntroon (Harmony family) and Invernisk Trooper (Harmony family). Trooper is being used on the pick of Sanak's females, thereby bringing in a DOUBLE CROSS OF HARMONY'S blood.

DANANBILLA POLL HEREFORDS will greatly help you to retain the true breed characteristics.

For well-bred Stock, bred from successful breeding families, apply:

J. H. CHEW, DANANBILLA, YOUNG, N.S.W.

For particulars of registration in the Poll Hereford Herd Book of Australia, apply to the Secretary, The Australian Poll Hereford Society, Primary Building, Creek Street, Brisbane, Queensland.

Dual Purpose

RED POLLS

An experienced Stock-breeder's advice :

"If you turn your attention to breeding a good dual-purpose cow, you will breed a cow that will be of more use in years to come. The heifers can be retained for milk and breeding and the steers for beef. Those who breed dual-purpose cattle will be best off."

A Sound investment

for this purpose is to keep and breed the "milk and meat" Red Polls or use a Red Poll bull for cross breeding.

Bulls of this Breed

are being most successfully used for crossing with all breeds of dairy cattle to obtain the results above mentioned.

The steers will be slaughtered in the presence of the Judge, weighed for dead weight, and judged by the appraisal system. The value of meat, hide and offal will be taken into consideration. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

JUDGING ARRANGEMENTS.

The steers are to be at the Show Grounds by 9 a.m. on Wednesday, 20th September.

They will be weighed alive on that day, commencing at 9 a.m., and the live weights will be handed to the Judge. In the first place the steers are to be judged alive, by the Dairy Shorthorn Judge) on the lines of breed characteristics and suitability for the beef trade. A maximum number of 70 points can be awarded to exhibits when alive.

The steers will be slaughtered in the presence of the Judge, weighed for dead weight, and judged by the appraisal system. The value of meat, hide and offal will be taken into consideration. The maximum number of points which can be awarded for the dead carcass, hide and offal, is 130. The live weight is also to be furnished to the carcass Judge, who has power to have the carcass cut as he wishes, in order to arrive at a correct judgment. The prizes are to be awarded to the exhibits that gain most points in the two judgings, and are the property of the exhibitors who enter the steers, and not of the purchasers.

After the final awards are made, the meat must be placed on exhibition for two days at butchers' shops within a radius of six miles from Melbourne G.P.O., due notice of days and place to be given to the public. The judges are to be asked to furnish reports on this competition to the Dairy Shorthorn Association of Australia, Temple Court, 422 Collins Street, Melbourne, C.I.

A SPECIAL RIBBON will be awarded to the most successful exhibitor in this Section. Three points will be awarded for a first prize in each numbered class, two points for a second prize, and one point for a third prize. In the event of a tie, two points will be allotted for a Championship and one point for Reserve Champion awards.

KEROSENE TRACTORS

"CATERPILLAR" Track-type Diesel Tractors and "JOHN DEERE" Wheel-type Tractors have earned world-wide reputation and endorsement for outstanding, reliable performance.

Compare these two famous profit-winners with any other comparable types and makes and base your judgment on these six points:—

1. What is the Drawbar Horsepower and PULL IN POUNDS?
2. What does the Tractor WEIGH?
3. What is the PRICE of the Tractor?
4. Has it a PERFORMANCE RECORD that can be OWNER-CHECKED?
5. Is it a Tractor that can be EASILY SERVICED when necessary?
6. Can the expected period of EFFICIENT OPERATION be OWNER-CHECKED?

REMEMBER! "Caterpillar" Track-type Tractors and "John Deere" Wheel-type Tractors purchased 15 and 20 years ago ARE STILL AT WORK! YOU CAN MEET THEIR OWNERS AND CHECK FOR YOURSELF!

AN ANALYSIS of the Test Figures given in current Jersey Test Booklet shows that a number of . . .

Greenwood-bred Cows

by

Greenwood-bred Bulls

have contributed to high production averages in the herds of their new owners . . .

In one herd of 20 cows, where the actual average is 460 lbs. B.F., the 7 Greenwood-bred cows in that herd actually averaged 490 lbs. B.F.

We are not now dairying, so place an order now for a young GREENWOOD BULL while some still remain . . .

SHEEP

Entries are accepted on the distinct understanding that stock may not be removed from the Show Grounds until after 12 noon on Friday, 29th September.

All British Breeds Sheep exhibited (except imported sheep, which must be tattooed in accordance with the regulations of the recognised Flock Book of the country of origin) must be visibly and legibly tattooed with their breeder's registered flock number and the trade mark of the Australian Society of Breeders of British Sheep in accordance with the Rules of that Society.

All Corriedale Sheep exhibited (except imported sheep, which must be visibly and legibly tattooed in accordance with the regulations of the recognised Flock Book of the country of origin) must be tattooed with their breeder's registered flock number and the trade mark of the Australian Corriedale Association in accordance with the Rules of that Association.

Inspectors will examine all registered British Breeds, Corriedale, Polwarth and Fat Sheep exhibited prior to judging and discard all not up to standard and not fairly and evenly shorn. Any found to be not visibly and legibly tattooed will be disqualified.

Disqualified sheep may not be offered for sale on the Show Grounds. Exhibitors of disqualified sheep may remove them from the Show Grounds or leave them in their pens. If sheep are left in the pens a notice carrying the words, "Rejected by Inspectors and not permitted to be offered for sale," must be erected over them.

Sheep in Sections 29 to 42 inclusive, are only required in the yards from 10 a.m. on Monday, 25th September (when judging commences), until 12 noon on Friday, 29th September.

Sheep must not be rugged during the hours the Show is open to the public. The exhibitor will be liable to a fine of ten shillings for every infringement of this regulation.

A ewe entered as "with her own lamb at foot" may be transferred to the Class provided for ewe of her age if she has not lambed prior to judging day, or vice versa.

All sheep entered in Sections 29 to 42 (inclusive) must be registered in the exhibitor's name and be the property of exhibitors registered in an approved public Flock Book. Only one exhibitor will be recognised as the owner from any one holding.

All sheep in the British Breeds Classes (except shorn sheep) must have been fairly and evenly shorn between 1st August and 31st December, 1949. Date of shearing to be given on entry form. Corriedales must be shorn on or after 1st July, 1949.

Exhibits in the wool are not eligible to be entered in the classes provided for shorn sheep, and if found to be so entered shall be removed from the yards.

Exhibits of shorn sheep must be closely and evenly shorn on or before 1st September, 1950. No Longwool sheep entered in a shorn class may have more than one and a half inches of wool on any part of its body on judging day, and no shortwool sheep may have more than three-quarters of an inch of wool on any part of its body on judging day.

In shorn sheep classes the carcass will be taken into consideration as well as the type.

Sheep that have been unfairly shorn or unfairly trimmed will be disqualified.

Sheep need not be entered by name or tag number, and no particulars other than the breeder's name and date of shearing will be published in the Show Catalogue.

For particulars of registration in the Flock Book for British Breeds of Sheep in Australia, apply to the Secretary, Australian Society of Breeders of British Sheep, Temple Court, 422 Collins Street, Melbourne, C.1.

At the head of the parade each year, the champions earn for their owners the praise and admiration they richly deserve, but the greatest exhibitor at the Royal Show is the man who having won no award, despite the intense preparation, goes cheerfully home to try again next year.

Goldsbrough's too, have earned the coveted Blue Ribbon of Service for they know the achievements and disappointments which are the experience of every stud breeder. They are mindful of the weeks of preparation for a fixture, which although may bring no immediate reward, will undoubtedly achieve success in the future. Goldsbrough's are proud that today throughout the length and breadth of Australia they are leading the parade with their unparalleled service to the stud stock breeder.

*"Gamalene" is a solution in oil, of the gamma isomer of Benzene Hexachloride, which has been emulsified for easy use. It's a practical solution to the important need of an effective, economical sheep dip and the answer to your dipping problems.

How effective is "Gamalene?"

If used according to instructions, "Gamalene" has a marked advantage over arsenical and phenolic dips in the control of ticks, lice and blowflies. Failure to observe directions may result in less satisfactory dipping.

Is "Gamalene" poisonous?

No!—"Gamalene" may be used at much greater strength than that recommended without harmful effects to sheep. At twenty to forty times dipping strength, it makes a safe and effective preventative of blowfly strike.

Can "Gamalene" be used for "off shears" dipping?

Yes!—but it is desirable to wait a few days, so that shear cuts may heal, and thus lessen the chance of bacterial infections. "Off Shears" dipping is the most economical method of using "Gamalene" as the wool is short, and each sheep removes a minimum amount of dip from the bath.

Will the use of "Gamalene" cause lameness after dipping?

No!—because "Gamalene" contains a power-

ful antiseptic which controls bacterial infections of this nature. However, it is advisable to thoroughly clean the bath, before dipping commences, irrespective of the type of Dip previously used.

Can bluestone be added to "Gamalene" to control dermatitis?

Yes!—but only in plunge baths . . . With power spray installations, Zinc Sulphate is recommended, as bluestone will corrode the pipes and galvanised iron. Always add each item separately—never pre-mix them.

You'll find the answer to your particular dipping problem in the free folder obtainable at all "Gamalene" agents.

TAILING STUD LAMBS

Leading breeder recommends

ELASTRATOR

Mr. Ivor Manton of Monegeeta, Vict., who bred the champion Romney Marsh Rams at the R.A.S. Melbourne in 1948 and 1949, also champion Ram A.S.B. Melbourne 1949, has no doubt about the value of Elastrator for stud tailing. He says:

"I BELIEVE we were one of the first Studs to adopt the Elastrator for tailing lambs. This is effected when the lamb is from one to three days old—at tagging time. In a flock of 550 registered breeding ewes, we have never lost a lamb, even though the property's altitude is between 1500 ft. and 2000 ft., and the winters bitterly cold. Most tagging is done in July and August, and on two occasions it was snowing. I am sure the Elastrator results in a shorter and better-finished tail."
