There's nothing to match a genuine Cyclone gate

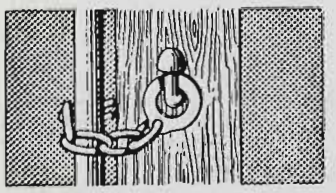

FOR strength, long life and smooth-swinging service, you can't beat the "Cyclone" farm gate. For over 50 years "Cyclone" have concentrated on making better gates — all joints are electrically welded — the heavy top and bottom hinges cannot pull or work loose — the special chain and knob fastening cannot be knocked or lifted off by stock — the "Ringlock" covering makes the gate sheep-proof.

Frame and cross members are welded into one solid unit.

Rugged coach screws hold the hinge straps firmly to the post.

Cyclone chain and knob catch cannot be operated by stock.

Look for the "Cyclone" RED TAG

Every genuine "Cyclone" gate carries the red tag illustrated at left. Demand the genuine, and make sure of a lifetime of trouble-free gate service.

Young Farmer Scholarship winner, Neil McNeil, on his return from England, says: "The equipment that I feel has done more than any other to raise Britain's production to a level unequalised in the world, is the hydraulic gear and coupled with that, the use of power driven machines. Of all the hundreds of tractors I saw in use, I can only remember one which had no hydraulic attachment."

Every man on the land should make a point of inspecting the David Brown Hydraulic gear, simply explained on the "Cutaway" Cropmaster.

ROSEVALE

STUD OF

PEDIGREE FRIESIANS

BACKED BY 39 YEARS OF PLANNED BREEDING

BLOOD TELLS

Has it ever struck you the number of high record Friesian cows in N.Z. and Australia that have . . .

ROSEVALE

blood in their veins.

If you look up their breeding you will find that more than 90% of the Friesian cows to make high records during the past 20 years have some "ROSEVALE" backing.

You will therefore be able to trace them back to that great producer and reproducer . . .

BURKEYJE SYLVIA POSCH

This capacity to produce and reproduce has been passed on by her in the ROSEVALE herd right through the years.

Breeders should play safe by following on with Rosevale bulls.

We also have a few specially selected Heifers to offer

Rising to Magical Heights

Increasing demand for beef has lifted Australia's Beef Cattle Industry as if by a magic carpet. But it takes more than a few magic words and the hearth rug to win a blue ribbon — a lifetime of patient breeding with specially planned and careful selection of sires and dams is the only recipe for success.

Goldsbrough Mort & Co. Ltd. invite you to discuss your plans and ideas to improve your stock with the men who are specialists in all types and breeds.

Call at Stand 39, Lennon Avenue, at the R.A.S. Showgrounds, where Goldsbrough's Stud Stock Experts will assist you in every way.

POWER FARMING EQUIPMENT

will greet you in Plummer Avenue.

It's a new age in labor-saving machines and equipment to modernise all types of farming. Power Farming Equipment Pty. Ltd., producers and distributors of this advanced equipment invite you to keep abreast of these latest methods which will increase your production *and* your profits. The display is in Plummer Avenue.

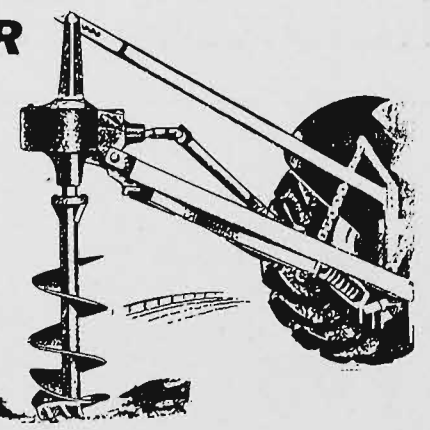

Here are three of more than fifty machines specially designed for the Power Farmer.

STEVENS RIPPER & PASTURE FURROWER

Why lose 75% of your rainfall when every drop is needed? With the Stevens Ripper and Pasture Furrower you can hold the rain with Pasture Furrows, thus doubling your carrying capacity and preventing soil erosion and loss of vital plant nitrogens.

"MOLE" POST-HOLE AUGER

Of special interest to farmers and construction men is the "MOLE" Post-Hole Auger attachment for Fordson Major Tractors. In just 10 seconds, the "MOLE" digs a hole 12 ins. in diameter and 3 ft. deep.

CUBDOZER ATTACHMENT

The quick, profitable way to mechanise your earth-moving is to attach a Cubdozer to your Fordson Major. Its sturdy, hydraulically operated blade can be slewed for angle dozing or tilted for channel work. Scoop and scrub demolisher attachments also available.

New Sheep Brand Fluid Test

The Commonwealth Scientific and Industrial Research Organisation's new sheep-branding fluid, LBE, was successfully demonsrtated to trade representatives at Geelong last week.

Commercial scouring satisfactorily removed the brand from a batch composed entirely of brand pieces from fleeces marked with the new fluid. The brands had remained on the sheep for 12 months, and were perfectly clear.

The clean wool recovered from the LBE branded pieces is now being converted into fine fabrics, which will shortly be made available for display. This would not be possible if the wool had been marked with the old style of brand.

GRAZCOS LBE

Gummed labels to be affixed thereto will be supplied by the Society, and no addition must be made to these labels by exhibitors. In the event of an exhibitor adding to the information included on the label by the Society, the bird to whose cage this label is attached will be disqualified.

No bird suffering from any disease will be allowed to be exhibited.

The Society will arrange for a competent person to feed and otherwise attend to the birds, and caretakers will be on duty in the Pavilion night and day during the currency of the Show.

The greatest care will be taken of the exhibits, but the Society will not be responsible for any accident, mistake, loss or damage, from whatever cause arising, the exhibits being at the sole risk of the exhibitor. In case of the death of any exhibit, the same shall be certified by the Veterinary Surgeon or his deputy.

Exhibitors of birds which are protected or kept under permit, must produce their permit when called upon to do so. The Society does not accept any responsibility in this matter. Entries can only be accepted on this condition.

Birds that have been tampered with or improperly dealt with in any way shall be disqualified, and entry fees paid therefor shall be forfeited. The exhibitor shall also be liable to disqualification, and, if a member, to expulsion from the Society.

No advertisement or notice can be displayed on exhibits entered in this Section.

Exhibits in this Section, with the exception of Wheat, must be staged before 9 a.m. on Thursday, September 18th. Wheat must be lodged by Saturday, 26th July, but in order to avoid disappointment, exhibitors are advised to forward their produce earlier in the week.

Exhibitors will not be permitted to remove their exhibits until after 5 p.m., on Saturday, 27th September.

Exhibitors must lodge a statutory declaration when making their entries that exhibits of Wheat, Oats and Barley represent a quantity of not less than 150 bushels, that exhibits of Chaff and Hay represent a quantity of not less than 10 tons, and that they were produced by the exhibitor during the preceding twelve months.

Exhibitors in this Section will not be allowed to take more than one prize with the same variety of produce in any one Class.

NOTE.—Exhibits of Wheat, Oats, and Barley will not be eligible for competition unless exhibitors state on their entry forms the name of the variety, locality where grown, character of soil, quantity of seed sown per acre, source of supply of seed, yield per acre, acreage cultivated of variety exhibited, and, if manured, state kind and quantity used per acre; also annual rainfall of district, and rainfall from 1st May, 1951, to 1st November, 1951, in the case of Wheat, Oats and Barley. Form will be forwarded to exhibitors, who are requested to fill in all particulars as above regarding the growing of their produce, and cards giving this information will be displayed on the exhibit stand.

It is particularly requested that all farm produce exhibits are distinctly labelled with removable cards. Such labels to indicate name and address of exhibitor, together with class and exhibit numbers.

WHEAT.

Wheat exhibits addressed to **The Secretary, Royal Agricultural Society of Victoria, Spencer Street Railway Station, Melbourne,** will be received until Saturday, 26th July, 1952. The railage must be prepaid by the exhibitor, but the Society will take delivery from the railway station and convey same to the Show Grounds free of charge. It is particularly requested that exhibitors will write their names and addresses on the reverse side of the address label, and also mention Class number, names of the variety of the wheat in each bag, so that their exhibits may be identified.

Wheat which, in the opinion of the judge, has been "mill dressed" or polished, or from which the brush is absent, will be disqualified.

In classes where the varieties are specified such varieties only are eligible for competition.

Red-grained wheats are not eligible to compete in the following Classes.

The whole of the prize money in these classes, totalling £100, is presented by Messrs. **H. V. McKAY, MASSEY HARRIS PTY. LTD.**

THE ALL-NEW

Sunshine STEEL TRACTOR DRILLS

500 SERIES

500 SERIES DRILLS—Suntynes, Sundelves and Disc Drills in 12, 16, 20 and 24 row sizes—are new right through, built for tractor work, with features that will ensure preference by practical grain farmers everywhere, Many hundreds of them operated for the first time in the difficult sowing season just passed and came through with flying colours.

STEEL HOPPER has enormous strength, greater capacity than ever. Easier loading, too, with new, higher footboard and hinged steps.

NEW FRAME, reinforced by rigidity of new hopper, triangulated by welded fetchels, is far stronger and also much lighter, with definitely easier draught.

DIFFERENTIAL DRIVE gives most even power transmission—most regular sowing yet achieved.

EASY POINT CHANGING—Whole float assembly is quickly released, rest of machine driven forward, and hinged floats turned over on to the footboard.

TRACTOR HITCH is stronger, takes draught direct from float drawbar, not through frame. Built in jack and large skid plate for easy hitching.

MECHANICAL LIFT, constant height type, is simple, sturdy, reliable.

DEPTH CONTROL by forward screw, convenient to driver.

SEE THE NEW DRILLS at the Sunshine Stand near the railway entrance at the Show—ask for the new illustrated catalogue—lodge your order early.

Royal Show STAND 96

Cr. McCracken Av. and McGregor St.

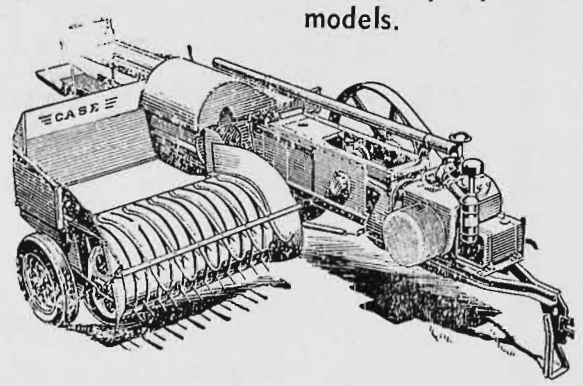

THE MORE YOU LOOK THE BETTER YOU'LL LIKE A *CASE* TRACTOR.

Compare these outstanding features:

POWER—Ample for the tough jobs, plus generous reserve for sudden overloads.
SPEED—Case tractors don't dawdle on the job—they are fast-stepping, willing workers.
ECONOMY—They are easy on fuel and work many long years with amazingly low upkeep costs.
COMFORT—Big, comfortable tilt-back seat with plenty of room to stand when you wish.
CONVENIENCE—Easy to handle, easy to service.
LONG LIFE—Superior engineering for the longest possible life, the greatest possible value.

CASE SLICER HAY BALER

For new ease, speed and economy in baling, simple construction, strength with light weight, the Case Slicer Baler surpasses all other makes. It puts up firm, neat, full-weight bales ready sliced for easy feeding, and ventilated for fast, even curing. Don't commit yourself to the purchase of any baler until you fully investigate the Case. Available in automatic tying or manually operated models.

According to farmers with a wide experience the new Model "A" Case Combine is the most capable machine of its kind ever built. It harvests more kinds of crops, and saves them more completely, under more difficult conditions. Its cylinder is proportioned just right for full-width feeding, and it's a cylinder that puts teeth into threshing of tough, tangled crops. Full-length rack and air-lift cleaning provide extra capacity for finishing the job. Learn more about the features and construction that make for the remarkable performance of the Model "A" Case Combine.

. . CASE MAIZE PICKER . .

This new and sturdily built machine provides a real short-cut in the making of corn or sorghum silage. In one power operation it cuts the standing row crop, chops it into short uniform lengths, and loads the material into truck or waggon driven alongside or trailed behind. Its heavy knife-wheel type of cutter has a powerful shearing action which gives large capacity with a minimum of tractor power.

CASE FIELD FORAGE HARVESTER

Here's a really modern maize picker—lighter in weight, simpler in construction, yet with a surprising capacity to handle two or more acres of corn per hour. It moves right along the heaviest yields, whether stalks are short or tall, straight or storm-tangled. Easy power take-off for average tractor. Available in single and double-row models.

Exhibits of Butter and Cheese must be delivered to the Government Cool Stores, Melbourne, before 9 a.m. on Thursday, 4th September, 1952. They will be judged at the Cool Stores.

The Society reserves the right to exhibit in the Centenary Hall only those exhibits which are awarded prizes, or in the opinion of the judges are of such merit that exhibition is desirable.

Exhibitors must state on their entry forms whether their exhibits will be collected or if they are to be returned by the Society. If they are to be returned by the Society, full directions and addresses must be given. No exhibit which is exhibited in the Centenary Hall may be removed until after 5 p.m. on Saturday, 27th September.

No advertisement or notice can be displayed on exhibits entered in this Section.

It is particularly requested that all dairy produce exhibits are distinctly labelled with removable cards, such labels to indicate name and address of exhibitor, together with class and exhibit numbers.
