Phone: (03) 63 0221

★ **426 Rooms — Fully Air Conditioned**

★ **9 Function Rooms — catering for between 10 and 1000 people**

★ **All rooms including Function Rooms, currently being completely refurbished**

★ **The 1980 SUN COUNTRY SHOW GIRL will be accommodated at THE SOUTHERN CROSS during her stay for the Royal Melbourne Show**

When the bands come marching in, it'll be with a little help from us.

Our founder, James Hardie, was a Scotsman; so it's perhaps not surprising that our involvement in this year's Royal Show has a definite Scottish flavour. It is with great pleasure that the James Hardie Group is sponsoring the performances of 18 Highland Bands from all over Australia. They will be playing a wide range of music that includes traditional Scottish airs and even some Jazz.

The James Hardie Group helps the Highland Bands play the pipes for you on the 20th and 27th at 8.00 pm.

for around $300

The Nikon EM is totally new in concept, design and engineering.

The challenge to the Nikon craftsmen was an ultra compact, aperture priority, automatic 35mm SLR camera, at a price that would bring Nikon quality to everyone. What they did not do was to water down any existing or previous Nikon camera. The challenge of a totally new camera has been met: The Nikon EM.

This is what makes the EM a sensation:

Listen to your Nikon
Space-age electronic circuitry "beeps" if you're not in "best exposure" range. Shutter speed is automatically chosen: simply move the aperture setting until the EM stops "beeping". All exposure information appears in the big brilliant viewfinder and there is manual override at 1/90th of a second.

The Nikon features you expect
"Battery miser" control of electronic circuitry - power is switched on and off automatically; backlight button to control dramatic exposures; black body; battery check button; ultra fast film advance lever; self timer; rugged all metal *vertical* focal plan shutter; film memo holder and more — much more.

New 'Series E' lenses
For a new concept in camera, naturally a new concept in lenses. The accent is on light weight and economy. Nikon has produced three: 35mm f2.5 wide angle, 50mm f1.8 standard and 100mm f2.8 telephoto. Of course the EM also accepts dozens of the matchless Ai-Nikkor lenses.

Accessories you can add later
A special flash unit - the SBE - automatically sets speed, and LED shows if the aperture is not correct. More: the Nikon MD-E motor drive is amazingly light, simple to attach and shoots at two frames per second.

Nikon EM: you automatically join the Nikon system.

Fly the Friendly Way

TO IMPROVE NATURE YOU DON'T ALWAYS HAVE TO CHANGE IT.

While a lot of landscaping makes a garden more functional, it can destroy the natural look.

A problem you won't strike when you use Koppers Logs.

These round pine logs blend naturally with the landscape creating unobtrusive garden boxes, seats, retaining walls and terracing.

The logs are impregnated with 'Tanalith' so they are both rot and white ant resistant, and will last a lifetime.

And better still, they are light and easy to handle, and priced very competitively.

Koppers Logs. Improving the landscape without detracting from the natural look.

KOPPERS

Improving nature naturally.

Bills don't stop coming in every month when you retire. Neither should your income.

Once you're retired, you need something more than money in the bank.

You also need money in the hand.

A set income that turns up as regularly as bills.

This is exactly what the CBA offers with a Monthly Income Account, for people who rely on a regular income.

We appreciate you don't want to take chances with your nest egg.

But without risking your capital, a Monthly Income Account gives you a bank-solid 9%* interest rate, fixed for twelve months.

You start with a minimum investment of $3,000, and receive your first interest payment exactly one month later, then on the same day of each month thereafter.

Rather than every six or twelve months, like other banks usually do.

You can have the cheque sent to you directly, or paid into a cheque or savings account.

Either at the CBA, or any other bank. (You're not obliged to change established banking habits.)

If you'd like more information on a Monthly Income Account contact your local CBA Bank Manager at the address below.

C.B.A BANK

*Current per annum rate as at July 1980. Interest rate for the fixed twelve month term may vary according to the rate current at time of deposit.

PICK UP A NIKON

for around $300

The Nikon EM is totally new in concept, design and engineering.

The challenge to the Nikon craftsmen was an ultra compact, aperture priority, automatic 35mm SLR camera, at a price that would bring Nikon quality to everyone. What they did not do was to water down any existing or previous Nikon camera. The challenge of a totally new camera has been met: The Nikon EM.

This is what makes the EM a sensation:

Listen to your Nikon
Space-age electronic circuitry "beeps" if you're not in "best exposure" range. Shutter speed is automatically chosen: simply move the aperture setting until the EM stops "beeping". All exposure information appears in the big brilliant viewfinder and there is manual override at 1/90th of a second.

The Nikon features you expect
"Battery miser" control of electronic circuitry - power is switched on and off automatically; backlight button to control dramatic exposures; black body; battery check button; ultra fast film advance lever; self timer; rugged all metal *vertical* focal plan shutter; film memo holder and more — much more.

New 'Series E' lenses
For a new concept in camera, naturally a new concept in lenses. The accent is on light weight and economy. Nikon has produced three: 35mm f2.5 wide angle, 50mm f1.8 standard and 100mm f2.8 telephoto. Of course the EM also accepts dozens of the matchless Ai-Nikkor lenses.

Accessories you can add later
A special flash unit - the SBE - automatically sets speed, and LED shows if the aperture is not correct. More: the Nikon MD-E motor drive is amazingly light, simple to attach and shoots at two frames per second.

Nikon EM: you automatically join the Nikon system.

FOREWORD

This is the TWELFTH year that the Royal Agricultural Society of Victoria and the Victorian Association of Photographic Societies have been happy to join together in the presentation of their National Exhibition of Photography.

Again this year we have had an excellent response from our many friends and acquaintances in the photographic fraternity. To all those who gained acceptance, we send our congratulations and to those who were not successful this year we send our commiserations and hope that you will not be discouraged but try again next year.

This year we are grateful to the R.A.S. for providing us with a splendid new venue in the P.B. Ronald Pavilion where accepted prints and slides will be displayed from September 17th-27th.

Another innovation this year was the introduction of a separate Colour Prints Section which proved well represented, especially for our first effort.

As you will have noticed our catalogue this year is a big improvement on earlier versions. For this we express our sincere thanks to the sponsorship provided to us by:—

TUBEMAKERS OF AUSTRALIA LTD.

This is the second year that this competition and exhibition has been organised and administered by the Doncaster Camera Club as a service to the Victorian Association of Photographic Societies.

To all my colleagues I express sincere thanks for their fine help and assistance over the past few months in running this competition and exhibition.

JAMES HOPSON
Committee Chairman,
Twelfth National Exhibition
of Photography
