# Whatever skin you're in, UV lets you stay out there.

Imagine your family totally free from the risk of sunburn all summer long. Protection from the sun's harmful UVB rays is an essential component of good skin care to lessen the risk of permanent skin damage and premature ageing and wrinkling of the skin.

With UV everyone's free to stay out there and enjoy every minute of the fun because all UV products are formulated to screen out 99% of the sun's most harmful ultra-violet rays.

## Choose the right UV for you:

### UV SunFilter Cream:

A non-greasy, moisturising, vanishing cream that protects against burning and peeling and allows your body's own natural healthy colour to develop in the sun.

### UV SunFilter Lotion:

A similar formulation to our cream, but in a clear alcohol based lotion, so it's suited to quick, easy coverage of large skin areas.

### UV SunBlock Milk:

A brand-new UV protective *milk*. Designed to provide an extremely high level of protection in a creamy, moisturising base to help prevent sun drying skin damage.

### UV SunBlock Stick:

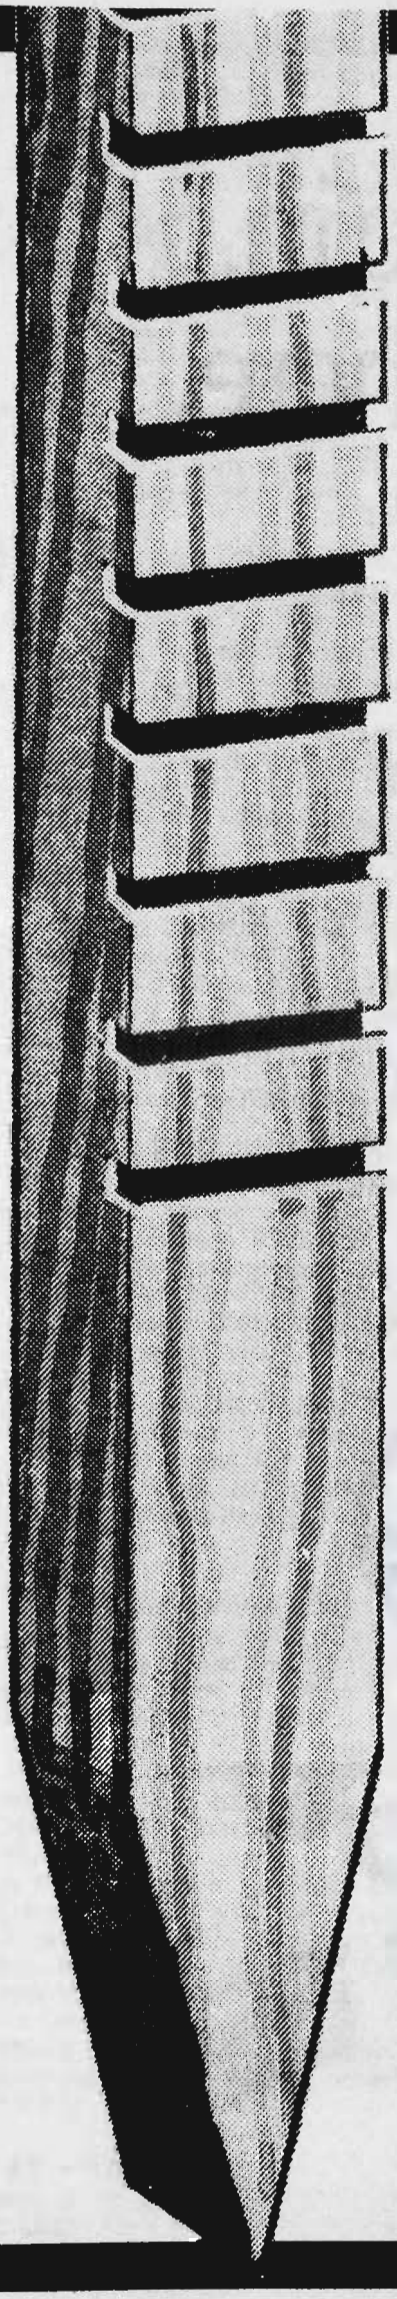

A convenient push-up stick for on-the-spot protection of sensitive areas like lips, noses, cheeks and foreheads.

### UV UltraBlock:

New UltraBlock broad spectrum cream is recommended for people who suffer serious skin problems and for whom *maximum* protection is critical. The two active ingredients in UltraBlock are effective against the broad spectrum of both UVB and UVA rays.

Now There's A Difference — Fly T.A.A.

# AMP's new money management plan opens up previously unavailable opportunities.

It's called the AMP Portfolio Plan. In a nutshell, it offers you AMP's guiding managerial hand for your personal investment or retirement plan plus a flexible term insurance based protection package.

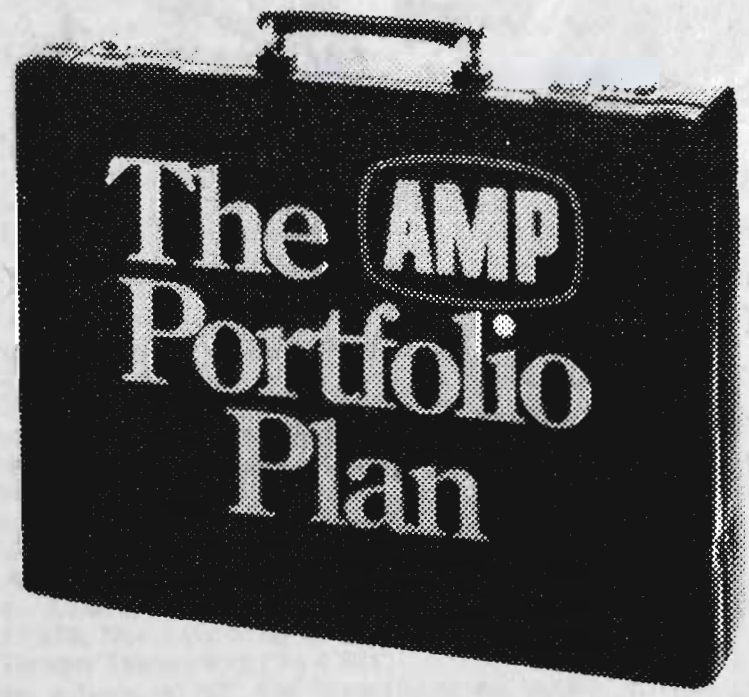

**Investment opportunity not previously available to the individual.**

You can now link your investment dollars with AMP – Australia's largest investor of longer-term savings – and benefit in the most direct way possible from their expertise.

You will effectively own a part of AMP's portfolio. Your investment holding is expressed in Portfolio Units and the value of these moves each week in relation to underlying asset values.

AMP has a multi-million dollar portfolio of assets which currently backs the trustees of some of the largest investment-linked private superannuation schemes in Australia. The investments are spread right around Australia in Government stock, in equities, in fixed interest securities, in property and direct resources projects.

Through AMP's new Portfolio Plan, this portfolio of assets is now open to include individual superannuation arrangements. A completely new portfolio is being established for non-superannuation contracts.

**Flexibility for optimum efficiency.**

The AMP Portfolio Plan works with total efficiency because it adapts to each individual's insurance needs and financial circumstances. For example: if you already have adequate insurance cover, your payments can if desired be applied towards the investment portfolio. The inclusion of the term insurance based protection package is completely optional.

**Are there any restrictions?**

There are no hard and fast restrictions on eligibility for AMP's Portfolio Plan. It has in fact been created for multi-purpose investment and insurance protection. But naturally, there are some guidelines as to who is best suited to utilise the plan. For instance, you need some degree of personal liquidity (e.g. your payment would be at least $600 annually or a lump sum of $3,000).

**Talk to your AMP Agent.***

If you are interested in the idea of sharing in the portfolio of a leading Australian investor – and utilising the opportunities previously unavailable to the individual – give your AMP agent a call – or call into any AMP office – or simply return the coupon below.

***If you are self employed or without employer assisted superannuation the Portfolio Plan may provide you with a tax deduction of up to $1,200.**

# Australia at work.

When you're developing vast mineral deposits in the outback you need some of those traditional Australian qualities: vision, inventiveness and tenacity. That's why CRA is proud to be able to foster some of those traditional Australian skills by sponsoring the camp drafting events at this year's Royal Show.

Now There's A Difference — Fly T.A.A.

Lindeman Island.
70 kms as the crows and locals fly.
Just a few miles out to sea, in the clear, warm waters of the Whitsunday Passage, lies Lindeman Island.
It has everything you could want in a holiday resort, plus one other feature no other island has got.
It's surrounded by nearly 100 other tropical islands just as lush, just as beautiful, and totally uninhabited.
So why share a resort, when you can have an island all to yourself.
For more information on a get-away weekend or a longer holiday, contact your local travel agent.
Lindeman Island. It's a hundred islands for the price of one.

(c) any loss, damage or injury occasioned to or by any exhibitor or any person acting on his behalf.

4. The exhibitor enters entirely at his own risk. In case any exhibit whilst on the Society's Show Grounds shall cause or be the cause of injury or damage to any other exhibit or exhibitor or to the person or property of any member of the Society or the general public, the owner of such exhibit shall indemnify and keep indemnified the Society, its officers, officials and members from and against all damages, costs, claims, expenses or liabilities incurred in connection with such exhibits. 8. Unless otherwise stated all exhibits must be the bona fide property of the exhibitor at the time of entry or be held by him under written lease in existence at the time of entry and the Council of the Society or the Director shall have the power to recognise or reject such lease as it deems fit. ## CHAIRMAN'S COMMENT:

The Thirteenth National Exhibition of Photography has presented a slight change of format — the introduction of the 'Photo Journalism' section in both prints and slides. This is an attempt to comply with the Australian Photographic Society's photographic listing of Who's Who.

This year there is an encouraging overall increase of entries of twenty percent, with the greater increase in the colour slides sections. The Exhibition Committee thank all exhibitors, whose enthusiasm contributed to the high standard of this exhibition, and congratulations to all those who have gained acceptances and awards.

For the many exhibitiors who are not able to attend the exhibition, it is hoped the inclusion of photographs and comments from the panel of selectors, would provide some insight to the standard obtained.

The improvement to the catalogue initiated last year is maintained for this exhibition — for this we express our very sincere thanks to:—

**TUBEMAKERS OF AUSTRALIA LIMITED**

My sincere thanks also, to the other sponsors for their trophies and encouragement, and the dedicated band who have worked towards the Thirteenth Exhibition.

TUCK LEONG
Exhibition Chairman

# The Judges' Comments

## ROY BERRYMAN, A.F.I.A.P.

The general standard for open prints was not high and the print quality was often marred by poor mounting and spotting.

The standard in photojournalism was much higher but the interpretatiopn of P.J. still needs Clarifying as many prints, although of high quality pictorialy, did not fit the category.

## MRS. JENNIE BODDINGTON (Curator of Photography, National Gallery)

It would be interesting to see what would happen if camera club photographers were to forget the long held aesthetics of their moment and begin to take photographs as a reflection of their personal ideas and personal lives. Whilst there was some highly skilled work in the competition there was not a great deal of variety and individuality.

## JOHN CATO (Head of Photography Department, Prahran College)

With so many entries in a major group show, a very mixed bag is expected. This year is no exception, from excellent to poor; but as hoped, the top register includes some outstanding work. The award winners in the section I judged were excellent examples of the power of contemporary photography.

## S. K. GAJREE, E.F.I.A.P., F.R.P.S., F.P.S.A.

The standard of slides in the Nature section seemed to be generally consistent, and it was quite a joy judging them and awarding respective prizes.

Nature prints, on the other hand were lacking in print quality and subject matter, and it is hoped that the exhibitors would endeavour to send in a variety of work in this section in future V.A.P.S. National Exhibitions.

## PETER HUNTER, A.R.P.S., A.F.I.A.P., E.S.F.I.A.P.

This was the seventh R.A.S. National I have judged. It is not easy to remember every one but I have the impression that the general standard this year is higher than ever before. Certainly the best slides were outstanding. Many entries in photojournalism were not P.J. and might have scored better in pictorial.

## GRAHAM PIZZEY

I found the standard of the top work in the slide section most impressive; some would rank with wildlife photographs anywhere, and there was great difficulty in making a just final choice. As a general criticism, I should say one, that the use of electronic flash was somewhat too obvious, and two, too many entrants chose to exhibit extreme close-ups of very small flowers or insects, which meant facing a great deal more competition than exhibitors of other, less universally popular subjects.

The judges, expecting the photographer to have total control over such a small compass, set a high standard of expectation.

In the prints, the standard was lower. The best were excellent but the range of tonal control in the prints was somewhat disappointing.

## OTTO ROGGE

The standard for the nature slides were very good and the work competent. However with the prints, the standard was lower. The incorrect grade of paper, lack of retouching and poor colour balance spoilt many prints.

## SHAW TAN

Photo journalism is another form of media using camers to report news or events, therefore, the photographs should have some storry telling quality. Landscapes or seascapes entered in the Photo journalism section will either be rejected or score only low point. Quite a number of slides in the P.J. section had very good pictorial qualities but were not accepted because they did not have qualities of photo essay.

## GORDON TRIBBICK

What did you think about your entry? The winning photographs were decided by three judges in some cases agreeing to disagree. If I scored 5/5 I really like your print and it communicated.

Think about the subject not the judge, and work towards an understanding of the subject, the appropriate technique will follow.
