# FORTY-FIRST ANNUAL REPORT

OF THE

## COUNCIL

OF THE

# Royal Agricultural Society of Victoria

TO THE MEMBERS.

LADIES AND GENTLEMEN,—

Your Council have pleasure in presenting the following report of proceedings of the Society for year 1911:—

### Permanent Buildings and Works.

A comprehensive scheme of improvements was commenced last year, and a large portion of it has already been carried out. The machinery court, which had been divided into two parts, has been joined together by the removal of the whole of the buildings in Skene-street, including the Society's old separator and dairy produce buildings.

In this new portion of the grounds—a photograph of which appears as a frontispiece to this report—several fine stands have been erected by exhibitors. A large pavilion was erected for displaying dairy machinery and dairy produce, and an industrial court, which supplied a long-felt want for additional covered space, was also provided.

The luncheon-room accommodation was increased by a building 100 feet x 40 feet, a shelter shed was erected for hunters, a bandstand was built near the wine kiosk, and the judge's box building removed to a more convenient site.

Increased office accommodation was arranged, and in a building adjacent to both the road and railway entrances an inquiry room, Council room, cloak-room, and other conveniences were provided.

Another section of the work of sewerage the grounds was carried out by connecting and improving the men's lavatories near the main entrances.

In the arena removable jumps were provided, thus making greater space available for the parades.

The trotting track was further improved by top-dressing it and placing a drain at the top of the slope to intercept water running down the ramp. At the main gate a large building was erected to accommodate eight turnstiles. These machines were used with much success for the first time last year.

To cater for the comfort of mothers attending the Show, a crèche was established, and its success far exceeded anticipations. Trees were planted in the seated enclosure beside Plummer-avenue, and a great amount of channelling and road-making was carried out in various parts of the ground. A number of minor improvements were also effected, the cost for the year bringing the total expenditure on works, buildings, and maintenance up to £75,614 0s. 7d.

### The Exhibition.

The annual exhibition was held from the 4th to the 9th September. The prize schedule was extended, and several new sections added, the result being that the number of competitive entries constituted a record for the Society, being 536 ahead of last year's figures, competitive and non-competitive entries together aggregating 7,717.

The gate money, including £449 8s. 9d. from the grand-stand, amounted to £6,583 9s., being £693 17s. in excess of the highest amount previously taken.

The following tables set out the comparative exhibits in the several sections for the Shows of 1910 and 1911:—

<b>Grand Totals</b>	<b>7,610</b>	<b>7,717</b>

Reviewing the exhibits in their catalogue order, it will be observed that the 1910 record of 315 draught horses was easily eclipsed at last Show, when 518 entries were received. As a general rule it has been observed that when there has been an exceptionally large increase in the number of entries in any section the standard of quality has not been maintained; it is therefore pleasing to report that the exhibition of draught horses at the 1911 Royal Show would be difficult to beat in either number or evenness of quality.

Suffolk Punches appear to be unpopular in Victoria, consequently the entries are always very low. The thoroughbreds and Arabs were very disappointing—only three exhibits being shown in each section. The quality of the trotters was well maintained, but there was a falling-off of two in the number of entries.

The twelve roadsters shown were a particularly even lot, and some of the stallions were really fine animals. The hackneys were

somewhat disappointing in both quality and numbers, but the ponies showed not only an increase but it was also agreed that it is many years since there was such keen competition in these classes.

A section for cobs was included last year for the first time, and the innovation proved highly satisfactory, some exceptionally neat, natty, and sturdy cobs being shown.

There was an increase in the number of both saddle and harness horses and ponies, but neither the numbers nor the general standard of quality was all that could be desired.

The attractions in the arena were a marked advance upon those of former years, and included many novelties—the most successful being the wood-chopping contests, in which there were 44 competitors; military contests, consisting of gun-driving, Lloyd-Lindsay and fugitive competitions; and additional jumping contests for ladies. The entries for the whole of the arena events were again highly successful, and keen public interest was displayed in all the competitions.

There was a further falling off in the number of Shorthorns, but in both male and female classes a very even lot of animals of high standard was shown. Herefords do not appear to increase in popularity, judging by the small display made, and while Polled Angus remain about the same as last year not a single entry was received in the Red Polled section. South Devons showed an increase in numbers, but there was a falling off in Milking Shorthorns from 95 to 60.

The all-round high quality of the entrants in the Ayrshire section more than compensated for the falling-off in entries.

The Jerseys again showed a highly satisfactory increase. There were 84 entries in 1909, 102 in 1910, and 150 last year, and they certainly formed one of the features of the Show. Guernseys, Dexter Kerries, and dairy cattle were much the same as in the previous year, but 40 fine fat cattle were shown as against 10 at 1910 Show.

It was generally conceded that the exhibition of British breeds of sheep was a marked improvement upon any of recent years, and the numbers right through showed a very satisfactory increase. Lincolns again held pride of place, there being an improvement from 152 to 229.

The phenomenal entry of swine in 1910 was not reached again last year, owing to the more rigid regulations enforced for keeping out purely sale stock. Still no fewer than 391 animals were shown, and the discrepancy in numbers was more than made up for by quality.

The Poultry section is improving by leaps and bounds—527 birds were benched in 1909; the number increased to 794 in 1910, while last year no fewer than 984 entries were received. The "Royal" is now regarded as the leading poultry show in the State.

There was a select but small exhibition of dogs, notwithstanding

that the Society undertook the feeding of these animals for the first time.

Carriages, buggies, &c., and harness and saddlery showed a slight falling-off in numbers, but there was again a very satisfactory increase in the entries for farm produce. The entries for the Schools' Produce jumped from 11 to 81.

The Societies' Competition again brought forward only two entries, but there was an improvement in both numbers and standard in the State Schools' District and Agricultural High Schools' Competitions.

Dairy Produce again proved a most attractive display, and, though there was a falling-off in the number of Wine entries, the judges spoke most highly of the average quality of the exhibits.

Fruits and Preserves and Apiculture were much the same as last year, the time of the year not being suitable for extensive displays in these sections.

A section for Women's Industries was included for the first time, and seeing that 172 entries were received it must be regarded as a highly satisfactory beginning. The ladies displayed a keen interest in the exhibits, which contained many examples of really first-class work.

Never in the history of the Society has there been such an extensive exhibition of machinery and non-competitive exhibits as at last Show. In this department your Society's Show stands alone when compared with any other show in Australasia. The exhibiting firms spared neither time nor money in displaying their exhibits to the best advantage. Some particularly fine stands were erected in the Dairy Machinery Pavilion and in the New Machinery Court.

The parades again proved of the greatest interest to the public, and, while the Show was not favoured with the best of weather, the actual attendance of 153,350 constituted a record, and a record profit of £6,375 10s. 5d. was also established.

### **Draught Horse Stud Book.**

It is highly satisfactory to report that the Draught Horse Stud Book—one of the most successful features of the Society's work—is properly appreciated by owners and breeders, is advancing rapidly, and at the time of writing contains the pedigrees of no fewer than 1900 of the draught horses of Australia. In the fifth volume of the work, which was published in August last, horses were, for the first time, divided into their respective breeds—*i.e.*, Clydesdales, Shires, and Horses showing a combination of those two breeds. This classification was made not only of animals entered since the publication of volume iv., but also of those appearing in volumes i.-iv.

Mr. Ewen T. Campbell again revised the whole of the pedigrees,

and placed his valuable records at the service of the Classification Committee, and to him the Council convey hearty thanks.

### **Flock Book.**

Though another volume of the Flock Book for British Breeds of Sheep in Australia was not published during the year a satisfactory number of new flocks was admitted, and nearly every flock-owner carefully compiled and promptly furnished his annual return.

During the year your Council gave the Flock Book Committee power to alter, add to, or amend any of the rules governing the Flock Book, and this amending of the rules is now receiving consideration by the Committee.

### **Shorthorn Herd Book.**

Early in the year your Council decided to establish a herd book for shorthorn cattle—the want of such a book having been keenly felt for a number of years past. Leading shorthorn breeders from all parts of the Commonwealth were invited to assist in the movement, and many of them accepted seats on the committee.

A scheme for the establishment of a shorthorn herd book of Australia was drawn up and approved of by your Council. Mr. Robert Clarke was appointed chairman of the committee, Mr. D. C. Morpeth editor, and Mr. Henry Schwieger secretary.

It was decided to conduct the book on the lines of Coates's Herd Book, and entry fees were fixed at five shillings per entry. The success of the herd book is already assured, for a large number of entries have come to hand from all parts of the Commonwealth.

### **Revision of Rules.**

At the annual general meeting of members, held on 2nd February, 1911, a request was made to the Council to undertake a complete revision of the rules so as to facilitate the business of the Society.

Your Council accordingly appointed the Executive Committee to undertake this work, and with the assistance of the Society's honorary solicitor (Mr. H. T. M'Kean) completely revised the rules, the chief alteration being the deletion of the preliminary meeting.

The rules as amended were adopted at a special general meeting of members held on Monday, 4th September—the opening day of the Show.

### **Members' Subscriptions.**

In last annual report satisfaction was expressed at the fact that for the first time the Society's membership roll just exceeded

2,000 members. It is now pleasing to report that during the year 1911 the increase was nearly 300, which is the greatest advance in members since the inception of the Society. There are now 2,297 names on the members' roll.

### **Judging Conference.**

At the July meeting of Council it was decided to hold a conference for all competitive exhibitors of horses, cattle, sheep, and swine to discuss the single and plural judging systems. Invitation cards were sent to exhibitors and voting cards were also forwarded.

The conference took place on the Show Grounds on the Tuesday of the Show, when the matter was thoroughly discussed in all its bearings. Opinions seemed about equally divided at the conference, but when the voting cards came to hand it was found that while the three-judge system was the most unpopular, the system tried at the last Show, *i.e.*, two judges and a referee, was strongly preferred (by 73 votes to 33) to the appointment of a "single" judge. The referendum was conducted on the preferential system.

### **Wine Judging.**

Owing to the trustees of the Exhibition Building deciding to considerably increase the rent charged the Society for the use of the wine cellars, your Council decided to construct a cellar under the wine kiosk at the Show Grounds and conduct the judging at the Show Grounds in future. This innovation proved a complete success from every standpoint, and the judges expressed their appreciation of being enabled to perform their duties in the fresh air rather than in the underground cellar as in former years.

### **Information Bureau.**

During the year your Council established a Country Agricultural Societies' Information Bureau, at which intending exhibitors, pressmen, and others may be able to secure any information they desire relating to country agricultural societies. The majority of the country societies have availed themselves of this opportunity to keep in touch with the leading exhibitors, and have forwarded copies of their prize lists, show catalogues, annual reports, &c., as well as stating the amount of their membership subscription, their charges for space, dates of show, and other similar information of interest to exhibitors.

### **Chamber of Agriculture.**

The ninth Annual Convention of the Chamber of Agriculture was held at Shepparton on 4th, 5th, and 6th July, 1911. The Convention was officially opened by His Excellency the Governor,

Sir John M. F. Fuller, K.C.M.G., and was attended by a very large and representative gathering of delegates from every part of the State, your Society being represented by Mr. Angus M'Naughton (the Society's representative on the Council of the Chamber of Agriculture) and Messrs. W. M'Nab, C. W. Campbell, A. E. T. Payne, and Guy Peppin. Mr. M'Naughton submitted an interesting report of the proceedings, and his remarks were supported by the other representatives of your Council. A vote of thanks was accorded the Shepparton and Dookie Agricultural Societies, the Shepparton Shire Council, and the Council of Agricultural Education for making provision for the entertainment of the delegates.

### **The Secretary Visiting Shows.**

Pursuant to resolution of your Council, the Secretary visited the Sydney Royal Show and a number of country shows throughout Victoria, and was received everywhere with the greatest cordiality. He was enabled to make the acquaintance of many rural producers who do not generally exhibit at Melbourne Royal Show; supply information regarding the work of the Society, especially in relation to the Stud, Herd, and Flock Books; secure the names of probable members and exhibitors, and attend to other matters to the interest of your Society.

### **The Secretary.**

At the January (1911) meeting of Council, Mr. Henry Schwieger was appointed Acting Secretary for one year. The Council was so satisfied with Mr. Schwieger's fulfilment of the secretarial duties before and during the Show that in September last he was established as Secretary to the Society.

### **The Council**

It is very pleasing to report that for the first time since 1897 no change in the *personnel* of the Council has taken place during the year.

### **The Journal.**

The agreement with the proprietor of the *Australian Farm and Home*, with which the journal of the Society is incorporated, has been renewed for a period of twelve months. During the year the journal gave accurate reports of the meetings of the Council and conveyed much other useful information to the members of the Society.

### **Acknowledgments.**

Your Council desire to thank His Excellency the Governor-General, Lord Denman, P.C., G.C.M.G., K.G.V.O., for the handsome cup he presented to the winner of the Jumpers' Plate

and to thank His Excellency the Governor, Sir John M. F. Fuller, K.C.M.G., for having officially opened the Show. They also desire to express their appreciation of the keen interest their Excellencies displayed in the exhibition.

They again thank the Hon. the Minister for Agriculture for providing medals for the winners of the championship prizes at the Show, and they also desire gratefully to acknowledge their appreciation of the liberality of the donors to the prize fund. To the judges who adjudicated so satisfactorily, and to the stewards who assisted in carrying out the work of the Show, your Council extend their warmest thanks. They specially desire to thank the ladies who assisted in conducting the crèche at the Show. They again desire to acknowledge their indebtedness to the press for invaluable assistance given in keeping the business of the Society so prominently before the public, and in publishing full and instructive reports on the Society's exhibitions, and to all who assisted in furthering the interests of the Society they extend their warmest thanks.

### Finance.

In the audited statement of accounts published herewith the revenue is shown to be £14,522 12s. 9d., an advance of £2,381 10s. 1d. on the previous year.

The expenditure, including £3,461 11s. in cash prizes, £7,218 18s. 3d. in buildings, maintenance, &c., amounted to £16,122 0s. 6d., the overdraft being increased from £8,148 10s. 5d. to £9,747 18s. 2d. Taking the expenditure in permanent improvements as an asset, the working expenses show a profit on the year's transactions of £5,619 10s. 6d., again constituting a record result.

HENRY SCHWIEGER, Secretary.

- (2.) By holding meetings for the purpose of popularizing rural life and disseminating knowledge of improved methods and new ideas in relation thereto.
- (3.) By corresponding with Agricultural and other kindred societies, and collecting information for the furtherance of the objects of the Society.
- (4.) By promoting the discovery, investigation, and introduction of improved kinds of agricultural implements and machinery, the better equipment and construction of farm buildings, the application of chemistry to the general purposes of agriculture, the destruction of insects injurious to vegetable life, and the eradication or utilization of weeds.
- (5.) By promoting the discovery, investigation, and introduction of new varieties of cereals, vegetables, or grasses suitable to the climate, and capable of being cultivated with profit; and also the introduction of desirable kinds and varieties of live stock.
- (6.) By collecting and distributing information on all subjects concerned with the objects of the Society, including the preparation and publication of Flock Books, Herd Books, Stud Books, Pamphlets, Essays, and Papers, and by the establishment and maintenance of a Library and Reading Room for the use of Members.
- (7.) By investigating the nature of diseases in animals or plants and taking measures to encourage the prevention or eradication of such diseases.
- (8.) By remunerating any person for original research work leading to the advancement of the objects of the Society.
- (9.) To do all such other lawful things as are incidental or conducive to the attainment of the above objects.

3. The Society shall consist of a President, three Vice-Presidents, three Trustees, Governors, Members, Honorary Members, Honorary Scientific Members (not exceeding six in number), and Corresponding Members. The term "Member" shall (unless the context otherwise requires) be deemed to include a Life Member, Life Governor, and Governor.

4. Subject to the provisions of Rule 27, every applicant for admission into the Society, by giving his name and address, with his subscription, to the Secretary, shall be duly constituted a Member of the same, and shall have all the rights of membership till the day after the Annual Meeting next ensuing. Provided that when any subscription shall be paid in the name of any firm or company such firm or company shall nominate in writing one of the members thereof, who shall on the receipt by the Secretary of such nomination, be entitled to and exercise the rights and privileges of membership, and be bound by the Rules, By-Laws, and Regulations of the Society, and may be elected to any office.

5. Governors shall pay a subscription of three pounds, and Members one pound annually in advance, with power to compound for life by the payment in one sum of ten annual subscriptions.

6. The Society shall be managed by a Council consisting of thirty-three Members (elected from amongst the Members of the Society as hereinafter provided), and the Trustees, who shall be *ex officio* Members of the Council.

7. One-third of the Council (the Trustees excepted) shall retire annually in rotation, but shall be eligible for re-election.

8. Land acquired, or to be acquired, for the Society shall be held by and be vested in the Trustees for the time being of the Society for and on behalf of the Society. The Trustees shall hold office until disqualified, or until they are removed in due course at the Annual or at a Special General Meeting of the Society. Any new Trustee or Trustees shall be appointed at the Annual or at a Special General Meeting of the Society, or in accordance with Rule 14. The Trustees shall deal with the lands of the Society as directed by resolution of the Council of the Society (of which an entry in the Minute Book shall be conclusive evidence), and they shall be indemnified against risk and expense out of the Society's property.

9. The Council shall, at their first meeting after the annual election in each year, elect out of their own number (which includes the Trustees), a President and three Vice-Presidents.

10. The Council shall have the entire management of the income and funds of the Society, and all other affairs thereof, and for these purposes the Members of the Society for the time being shall be deemed to have constituted the Council of the Society for the time being their agents.

11. The Council shall have power to appoint and remove all paid officers of the Society.

12. The Council shall have power to elect Honorary, Honorary Scientific, and Corresponding Members; nominations therefor having been submitted at a previous meeting, and a notice of such nominations having been sent to each Member of the Council. The Honorary Scientific Members shall retire annually, and shall be eligible for re-election.

13. Governors and Honorary Scientific Members may attend meetings of the Council and take part in discussions thereat, but shall not have power to vote.

14. The Council may fill up any vacancies in its own body created by death, resignation, or occurring in any other way amongst its office-bearers.

15. The Council shall have power to make or amend such regulations as they think necessary.

16. The Council shall be regulated in its proceedings by such By-laws as shall from time to time be enacted by it, conformably with the Constitution and objects of the Society; but no By-law shall in any case be

altered, or new one proposed, unless notice of such intention has been given at a previous meeting and sent to each member of the Council.

17. The financial year of the Society shall end on the 31st day of December of each year, to which day the accounts of the Society shall be balanced. At the monthly meeting of the Council, to be held in January in each year, the Council shall prepare a list of Members nominated by them to fill the vacancies in the Council. Nominations (other than those made by the Council) of Members who may be candidates for such vacancies must be in the hands of the Secretary prior to such meeting. Every nomination other than those made by the Council shall be signed by at least two Members other than the candidate, and shall have endorsed thereon the consent of such candidate duly signed by him.

18. The Annual General Meeting shall be held on the first Thursday in February, at which meeting the Annual Report and Balance Sheet shall be submitted, Members elected to fill the vacancies in the Council, two paid Auditors appointed, and any other business transacted of which due notice in writing shall have been given before the hour of two o'clock in the afternoon of the second Tuesday in January immediately preceding.

19. Fourteen days at least before the Annual General Meeting the President or his Deputy shall send to all Members of the Society a ballot-paper, numbered, and initialled by the President or his Deputy, or the Secretary, with the names of all the candidates who have been duly nominated, and each Member desiring to vote shall erase therefrom all names he thinks fit. Provided that any ballot-paper containing more or less than the required number of names shall be rejected by the President (who shall be Returning Officer) or his Deputy at the election. Every such ballot-paper shall be returned before the closing of the poll, which shall be at three o'clock p.m. on the day of the election, and the said ballot-papers shall be opened and counted when the Returning Officer is making up the poll.

20. Fourteen days at least before the Annual Meeting a copy of the Report and audited Balance Sheet for the preceding financial year shall be forwarded to every Member of the Society.

21. The Secretary shall report to the meeting of the Council next after the Annual Meeting the Members elected to fill the vacancies in the Council.

22. A Special General Meeting of the Society may be called at any time by the Secretary, on direction of the President or on the requisition of twenty Members of the Society, of which meeting there must be given ten clear days' notice stating the business to be transacted, but no business shall be transacted at any such meeting other than that for which it has been called.

23. A Special Meeting of the Council may be summoned by direction of the President, or of three members of the Council, but no business then transacted shall be valid unless confirmed by special resolution at the subsequent Ordinary Meeting.

24. At the Annual Meeting twenty Members, including Members of Council, or at a Special General Meeting, ten Members, exclusive of Members of Council, shall form a quorum.

25.
