FIFTY-FOURTH ANNUAL REPORT

OF THE

COUNCIL

OF THE

ROYAL AGRICULTURAL SOCIETY

OF VICTORIA

To the Members.

Ladies and Gentlemen,—

Your Council has pleasure in presenting the following report of proceedings of the Society for the year 1924.

Permanent Buildings and Works.

Following the very large section of the improvement scheme carried out in 1923, comparatively little was done during the past year. As announced in last Annual Report, the Grand National Tower Hotel was demolished and sold for removal, and in its place were erected two large motor halls and several buildings owned by private stand-holders. These buildings were erected in alignment with the Hall of Manufactures, and shortly the whole frontage to Epsom-road will be set back and that thoroughfare widened by 10 feet. This widening will not only be for the full length of the Society's property, but also for the full length of the Flemington Racecourse. Your Council arranged with the Defence Department to shift the Ascot Vale Drill Hall back to the new street alignment, and this work was carried out by the Society's staff at a cost of slightly over £200. New ornamental gates were erected at the foot of what was previously Grand National-avenue, but what is now a continuation of Plummer-avenue, the central thoroughfare of the Show Grounds. These gates cost £175. A metal and glass screen was erected at the northern end of the Jubilee Grandstand, and this protection from the weather was much appreciated by members. At a cost of £125, the remaining fat cattle pens were roofed over, steel trusses that were salvaged from the fire last year being used for this purpose. Alterations and improvements were also carried out to the refreshment rooms beneath the Jubilee Stand, and also at the main grandstand at the opposite side of the arena. Three additional kiosks were built for the sale of light refreshments, and a roofed enclosure was provided for the caterers beside the kitchen of the Royal group of luncheon rooms. Several dormitories were erected for the use of swine attendants. Upwards of three-quarters of a mile of roads were formed by the use of brick-bats that were secured from the Grand National Tower Hotel. The water service was further extended, and many other works of a minor character received attention, the total expenditure on permanent buildings and works for the year amounting to £1,873/4/6, as against £47,958/16/1 last year.

The Exhibition.

The Society's Annual Exhibition was held from 18th to 27th September. The Prize Schedule was revised early in the year, and liberal prizes were offered for competition. The entry that was received constituted a record. Even though the grounds have been extended during the last two years in succession, there was still insufficient space to meet the requirements of standholders, and efforts are now being made to arrange for enclosing the recently-purchased land at the Bagotville end. The Society was again unfortunate so far as the weather conditions were concerned, but, nevertheless, there were record attendances on every fine day, the aggregate for the whole period being 284,984, as against 300,075 last year. The gate money, including £2268/0/3 from the grandstands, amounted to £19,901/12/3, being £1193/0/10 less than last year's record figures.

For the purpose of comparison, the following table is published to show the number of entries in the several sections for the last two years:—

Non-Competitive Entries	2,800	2,400
	11,455	11,842

There was not only a marked increase in the number of entries in the Clydesdale Section, but the standard of quality was well maintained. Amongst the light horses, the trotters showed the most improvement. Not only were the entries very much greater than usual, but the exhibits, from the point of view of quality, were also much more satisfactory. Amongst the saddle and harness horses and ponies there were some particularly fine exhibits, but the entries were slightly less than those received last year. From the point of view of numbers, the beef cattle were exactly the same as in 1923, and the usual high standard of quality appeared to be well maintained.

The entries in dairy cattle again showed an increase, the most pleasing feature in the various classes being the absence of the "tail" which was so strongly in evidence a few years ago. This improvement is attributed to the introduction of compulsory sweepstakes, which make the showing of low-type animals unprofitable, and at the same time provide handsome prizes for the stock of superior quality.

The "Weekly Times" Milk and Butter Fat Test, with which was associated the special competition for Captain A. E. T. Payne's prizes for the cow showing the greatest percentage of profit in butter fat and skim milk after taking into consideration the cost of the fodder consumed, created a wider interest than any other class throughout the Show.

It is reported with pleasure that, through the courtesy of the donors of these handsome prizes, these competitions will again be held at the 1925 Show, under slightly altered conditions.

A very fine entry was received in the Sheep Sections, Lincoln showing the greatest increase in numbers. It is pleasing to record that the judges considered that, taken all round, the exhibits were of the highest standard ever seen at a Melbourne Show, and were also much more uniform in quality than is usually the case.

Competition in the Fleece Section was very keen, and though there was a slight increase in entries, they still fall far below what might be reasonably expected in a State in which wool-growing forms so prominent a feature of its primary production.

The effect of reducing the number of entries from any one exhibitor from three to two in the Swine Section had the result of securing a much higher average standard of quality than in the previous year, and also permitted the animals to be penned under much more comfortable conditions. One of the judges, who has recently returned from a trip abroad, expressed the opinion that the prize-winning exhibits at the 1924 Show would compare very favourably with the best swine he had seen abroad.

Record entries were received in poultry and pigeons, and every year keener interest is being displayed in these sections.

Dogs and cats were accommodated alternatively for short periods in the dog pavilion, and it is evident that increased accommodation will have to be provided in this section in the near future.

Competition in farm and dairy produce, and in the sections for fruit and apiculture, are all more or less disappointing, and although the time of the year at which the Show is held is, no doubt, responsible for the poor support that is extended, it is hoped that, in the near future, primary producers will display a keener interest in these competitions.

To stimulate interest in the Farm Produce Section, your Council has announced its intention of offering £150 in prize money to the agricultural societies whose members score the greatest number of points in the classes that will be included in the 1925 Prize Schedule.

Only two entries were received in the Agricultural Societies' Competition and one for the small display of district products. There is evidence, however, that other societies will be competing at the next Show. The two district exhibits staged by Whittlesea and Sale Agricultural Societies reflected the greatest possible credit upon those responsible for their organisation.

Every year added interest is being taken by viticulturists in the wine classes. Competition in this section is always particularly keen.

Owing to the extension of the grounds, the Society was able to use the Drill Hall for displaying the exhibits in the Women's Work Section. Six additional large glass cases were provided, and the whole of the exhibits were thus protected from dust.

Greater interest was displayed in the Judging Competitions, particularly in those sections in which the judge pointed out the merits and demerits of the selected animals. Much interesting information was thus disseminated, and the competitions served the educational purpose for which they were introduced.

The arena events again created a great deal of interest, the trotting competitions being still the most popular items of the daily programmes.

In each succeeding year the display of agricultural, dairying and other machinery becomes more interesting and comprehensive. Manufactured goods are also now placed before the public in a much more attractive form than was the case a few years ago.

In the Government Pavilion the Department of Agriculture again arranged a most comprehensive and interesting exhibition of the products of the soil. This certainly forms one of the most distinctive features of the whole Show.

The Railway Department is to be congratulated upon the manner in which the transport arrangements were organised and carried out. The trucking of live stock from all parts of the State, both to and from the grounds, presents many difficulties, and with the exception of a few isolated instances, these were overcome in a remarkably efficient manner. It would be difficult to suggest any improvements in the manner in which the passenger traffic is now handled.

The catering at the Show is now being conducted more satisfactorily than was the case a few years ago, but your Council hopes that, by continuously extending the scullery and culinary facilities, the standard of this work will be further and further improved.

Flock Book for British Breeds of Sheep in Australia.

Vol. 16 of the Flock Book, containing the histories and returns of 342 flocks, in addition to the individual pedigrees of 375 rams and ewes, was published in May last.

Vol. 17 is now being prepared for publication, and it is hoped that this will be available for distribution in March next. Over 50 flocks that have been registered since the publication of the last volume will be included therein.

There was a large attendance at the Annual Meeting of owners of registered flocks held during Show Week. Amongst the items discussed was a proposal brought forward by South Australian owners that Branches should be formed in other States. Your Council approves of this suggestion, and steps have already been taken to prepare a constitution for the proposed new body.

The Flock Book Committee again paid out of its funds special prizes of £5/5/- each to the owners of the winning sires in the four Longwool Sections at the recent Show. A special trophy, valued at £5/5/-, was presented to the winner of the Shropshire Sires' Memorial, and the prize money in the Sheep Sections of the Youths' Judging Competitions was also augmented to the extent of £12.

The Commonwealth Clydesdale Horse Society.

The first volume of this Society's Stud Book was published early in the year, and was very favourably commented upon in the press. The large number of copies of the volume purchased by breeders throughout the Commonwealth is proof of its value as a work of reference.

The numerous entries already received for Volume 2 warrant the early publication of that volume, and the work of compilation has, therefore been taken in hand. An endeavour is being made to include in this volume full particulars of additional progeny from registered mares.

In order to increase the interest in Clydesdale breeding, a very valuable trophy presented by the President of the Society, and to be known as the W. M. Black Clydesdale Challenge Cup, is to be offered through this Society for competition annually at the Melbourne Royal Show, and awarded to the best Clydesdale male, two years old or over.

The Ayrshire Cattle Herd Book Society of Australasia.

This Society published the sixteenth volume of its Herd Book during the year, and preparations are now being made for the compilation of Volume XVII., entries for which will close on 1st February.

In pursuance of its policy to encourage the breeding of cattle combining both type and utility, this Society has, in addition to the valuable prizes already offered for competition at the chief inter-State Shows, decided to award annually a prize of £20 to the owner of the Ayrshire cow which puts up the biggest record under the Government Herd Testing Scheme in Victoria.

The Australasian Jersey Herd Society (Victorian Branch).

The Committee of this Branch has been very active in its propaganda work during the year and has been successful in its efforts to further the interests of the Jersey breed.

The Branch is in a strong position financially and, with a membership totalling considerably over 400 at the present time, the Committee is confident of greater successes in the future. The formation of district clubs throughout the State will without doubt increase the interest in this popular breed.

A booklet containing the complete records of Jerseys tested under the Victorian Government Herd Testing Scheme since its inception has been published by this Branch, and copies have been circulated throughout Australia.

The Society published the eleventh volume of its Herd Book during the year, and entries for Volume XII. will close on 30th April, 1925.

The Red Poll Cattle Breeders' Association of Australasia.

The compilation of the third volume of this Association's Herd Book is in hand with a view to publication at an early date. The number of Members shows a very satisfactory increase, and the financial position is good.

An interesting competition has been inaugurated by this Association through the generosity of its Patron, His Excellency the Earl of Stradbroke, who donated the handsome trophy known as the Stradbroke Challenge Cup, to be awarded to the Red Poll cow which most nearly approaches dual purpose perfection. This Cup is vested in the Council of the Association in perpetuity for competition amongst Members of the Association on such occasions and under such conditions as shall be determined by the Council, and the first contest was held at our recent Show.

It is the intention of this Association in the near future to make still more stringent the regulations governing registration in its Herd Book.

The Friesian Cattle Club of Australia.

This Club has made considerable progress during the year. The fourth volume of its Herd Book has been published, and the fifth volume is now in the printer's hands.

The Committee of the Branch in this State has been very active in its efforts to increase the popularity of the Friesian breed, and the cattle submitted for test under the Government Scheme have put up some splendid records. An attractive kiosk was erected on the Show Grounds, and was the centre of a live interest in the breed during the recent Show.

The Milking Shorthorn Cattle Breeders' Association of Victoria.

This Association has made steady progress during the year. Many additional applications for registration have been received, and a good deal of work has been done in connection with the compilation of the first volume of the Victorian Milking Shorthorn Herd Book.

The Australian Stud Pig Breeders' Society (Incorporating the Berkshire and Yorkshire Society of Australasia.)

Since the secretarial work of this Society was undertaken prior to last annual meeting, the Rules have been revised and brought up to date, so as to be in keeping with the Federal character of the Society.

The fourteenth volume of the Herd Book has been published, and Volume 15 is now in the printer's hands.

It is pleasing to note the renewed interest in the Society in this State, as is reflected in the fact that the number of financial Members at the recent annual meeting of the Society was practically twice as great as at the previous annual meeting.

The scope of the Herd Book has been increased, and now caters for the registration of not only the well-known Berkshire and Middle Yorkshire pigs, but large White Yorkshires, British Large Blacks, Tamworths, Poland Chinas, Duroc Jerseys and Gloucester Old Spots.

Chamber of Agriculture.

The 22nd Annual Convention of the Chamber of Agriculture was held at Benalla on the 1st, 2nd, and 3rd of April, 1924. It was officially opened by His Excellency the Governor, the Earl of Stradbroke, and was attended by a large and representative gathering of delegates from all parts of the State.

The addresses that were delivered were of a high educational value, and the subjects that were listed for discussion were of great interest and were keenly debated.

As a result of these annual gatherings, which afford such excellent opportunities for the interchange of ideas, there is no doubt but that improved methods have been introduced in practically every branch of primary production.

At the conclusion of the Convention the delegates were given an opportunity of inspecting the Dookie Agricultural College, and all were greatly impressed with the facilities that are there provided for fitting the youth of the community for taking up primary production as a means of livelihood.

Your Council accorded a hearty vote of thanks to the President and Council of the Shire of Benalla, and to the President, Secretary and Members of the Committee of the local Agricultural Society for the courtesies extended to this Society's representatives during their stay in Benalla.

Educational Facilities.

Your Council continuously keeps in the forefront its determination to make the Show of educational value to the man on the land. With this object in view, a series of lectures and demonstrations was arranged during the Show, and whilst these were not as well attended as may be desired, it is believed that in the near future advantage will be taken by an ever-increasing number of primary producers to gain information which will be of benefit to them in solving the daily problems with which they are confronted.

The judges at the Show were invited to meet exhibitors and others interested and give the reasons for their awards, and indicate the merits and demerits of the prize-winning exhibits. Where this was done, the exhibitors were very appreciative, and particularly in the Swine Section the judges' remarks were followed with the keenest possible interest.

Your Council would like to take the opportunity of congratulating the Department of Agriculture and the Railway Commissioners upon having inaugurated so popular a method of disseminating information as has been arranged in the "Better Farming" Trains that have already made three highly successful tours in the chief dairying districts of the State. It is hoped that this form of education will be extended and every rural centre visited in turn.

Subway at Epsom Road.

As it was believed to be impossible to have the work in connection with the provision of the subway at the level crossing in Epsom-road sufficiently far advanced so as not to interfere with the heavy traffic during the periods of the Show and the Victoria Racing Club's fixtures, it was decided to defer any tunnelling operations until after the Spring Racing Carnival had been concluded.

Good progress has since been made with this work, and it is hoped that everything will be completed in ample time for the 1925 Show.

Horse Parade and Sale.

The Horse Parade and Sale conducted under the auspices of this Society, was held at the Show Grounds on the 15th and 16th of July.

The entries totalled 133, as compared with 102 in 1923. The attendance at the sale was not satisfactory. Only thirty-two animals were sold at an average price of £58/13/1 per head. The profit on the sale amounted to £20/18/2.

Membership.

Your Council desires to report that the membership of the Society now totals 4752, being a decrease of 196 when compared with last year's total of 4948. At the last annual meeting of members the subscription was increased from £1/5/- to £1/10/- per annum, and although the total membership is less, the revenue from this source shows the substantial increase of £537/12/0.

The Council.

As the nominations for election at the Annual Meeting were in excess of the vacancies on the Council, a poll was held, at which the whole of the retiring members were re-elected, and Mr. William Cockbill, of 139 Kent-street, Flemington, was elected to the vacancy caused by the lamented death of Mr. Lawrence Dugdale.

The President (Colonel C. E. Merrett), Dr. S. S. Cameron, Senator J. F. Guthrie and Mr. W. G. Macalister were granted leave of absence during the period they were touring abroad, and all were heartily welcomed on their return.

The Journal.

Copies of the "Australian Farm and Home," with which is incorporated the Society's official Journal, are sent regularly every month to all members of the Society.

Besides giving complete reports of the meetings of your Council, this journal gives prominence to the activities of the Stock Breeding Societies, and to many other matters of interest and educational value to the "man on the land."

Acknowledgments.

Your Council desires to extend to His Excellency the Governor and the Countess of Stradbroke its warmest appreciation of the interest they displayed in the activities of the Society, and to thank His Excellency most cordially, not only for officially opening the Show, but for acting as adjudicator in the Red Polled Cattle Section:

The warmest thanks of the Society are due to the State Government for continuing the grant of the annual subsidy, and for augmenting the prizes in many sections throughout the Show, besides arranging such an attractive and educational display in the Government Pavilion.

For the liberal support accorded to the Society by the donors to the prize fund your Council desires to express its most grateful thanks.

The Society is deeply indebted to the judges and stewards for the very efficient manner in which they carried out their onerous duties during the Show.

Keen appreciation is expressed to the Press for the manner in which the Society's operations were kept prominently before the public—particularly prior to and during the Annual Exhibition.

To all others who in any way assisted in furthering the interests of the Society, your Council extends its warmest thanks.

Finance.

On reference to the financial statement it will be seen that the revenue for the year was £45,092/18/3, which shows an increase of £1,617/6/7 on that of last year,* when loan monies and insurance payments are taken into consideration.

The expenditure (including £7,063/6/5 in prizes and £1,873/4/6 for buildings and improvements) amounted to £36,728/19/7, the bank overdraft being decreased from £31,906/6/4 to £23,542/2/8, and the Society's indebtedness to the Government, inclusive of interest, decreased during the year from £50,741/16/4 to £49,761/12/8.

Taking the expenditure in permanent improvements as assets, the working expenses show a profit on the year's transactions of £10,237/3/2 against last year's profit of £12,357/5/5.

HORSES.

CLYDESDALES (MALES).

J. R. Mitchell, "Moredun Hill," Sandford.

(Complete awards in this Section will be found on page 20).

I consider that there was a general all-round improvement in the type of Clydesdale exhibited, compared with previous years, the stallion

Champion Clydesdale Stallion, "Royal Show, 1924.
 "FLASHDALE" (imp) [20,576 C.S.B.] (192 C.C.S.B.),
 Exhibited by Mr. W. M. Black.

class, 4 to 7 years, being particularly strong. The winning animals in this class secured both the Championship and Reserve Championship. All of the other classes were well filled and decidedly more uniform than on previous occasions.

CLYDESDALES (FEMALES).

John J. McCarron, Nathalia.

(Complete awards in this Section will be found on page 21).

The Clydesdale Female Classes were very strongly represented, and were a decided improvement on the classes I judged in 1922, in both quality and numbers.

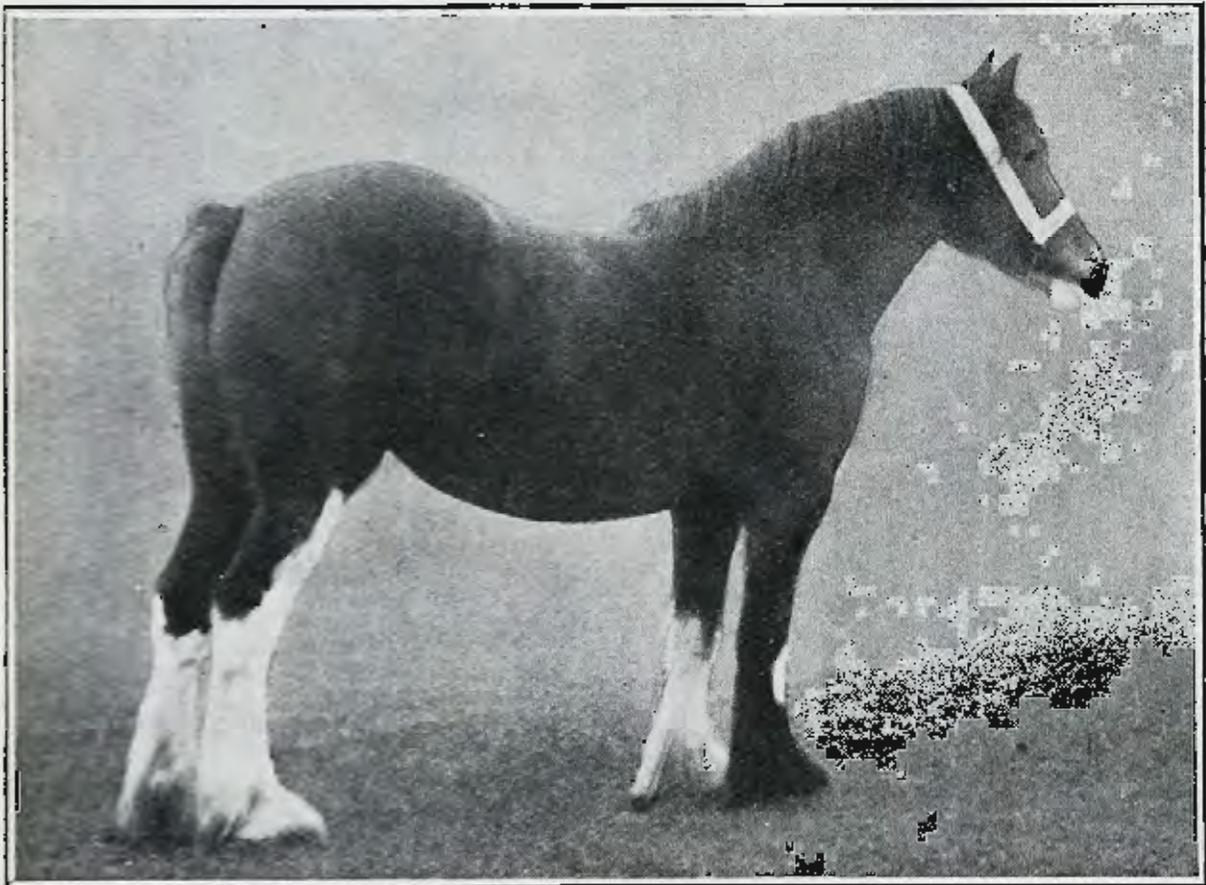

The winner in the brood mare class was of very nice quality, a little on the fine side, but set on good feet and pasterns and has nice action, and is a very nice type of mare, to which I afterwards awarded the Reserve Championship.

The second prize mare in this class was a nice quality mare, rather low set, but good feet and pasterns. She was somewhat sore in her action, and could not be classed with the winner.

The third prize winner possessed nothing outstanding.

The dry mares were a very strong class, the winner stood out alone. She stands on exceptionally good feet, showing great width at heel, has beautiful sloping pasterns, nice silky hair, and her action is perfect. She has plenty of size, and is the best specimen of the Clydesdale breed I have ever had the pleasure of looking at. I had no hesitation in awarding this mare the Championship.

The second in this class is a good type of mare, has plenty of size, stands on good feet and pasterns, and is a good close mover.

 "WELLS MESCAL" (imp.) [54,276 C.S.B.] (Vol. 2, C.C.S.B.).
 Exhibited by Mr. W. M. Black.

The third prize winner is a nice quality mare, but has brittle feet, has too much hook on her hind legs, is faulty about her hocks, and when moving plaits in front.

The winner in the three-year-old filly class is a very nice quality filly, with a splendid set of feet, nice sloping pasterns, good flat bone and hair of the first quality, and is a true close mover.

The second prize winner is well grown, stands on good feet and pasterns, is a fair mover, inclined to be capped about her hocks, and does not possess the same quality as the winner.

The third prize winner was just an ordinary sort.

The winner in the class for two-year-old fillies stood out alone in her class. She is exceptionally well grown, has wide open feet, beautiful sloping pasterns and nice silky hair. Her action is perfect, and she should develop into a very flash mare.

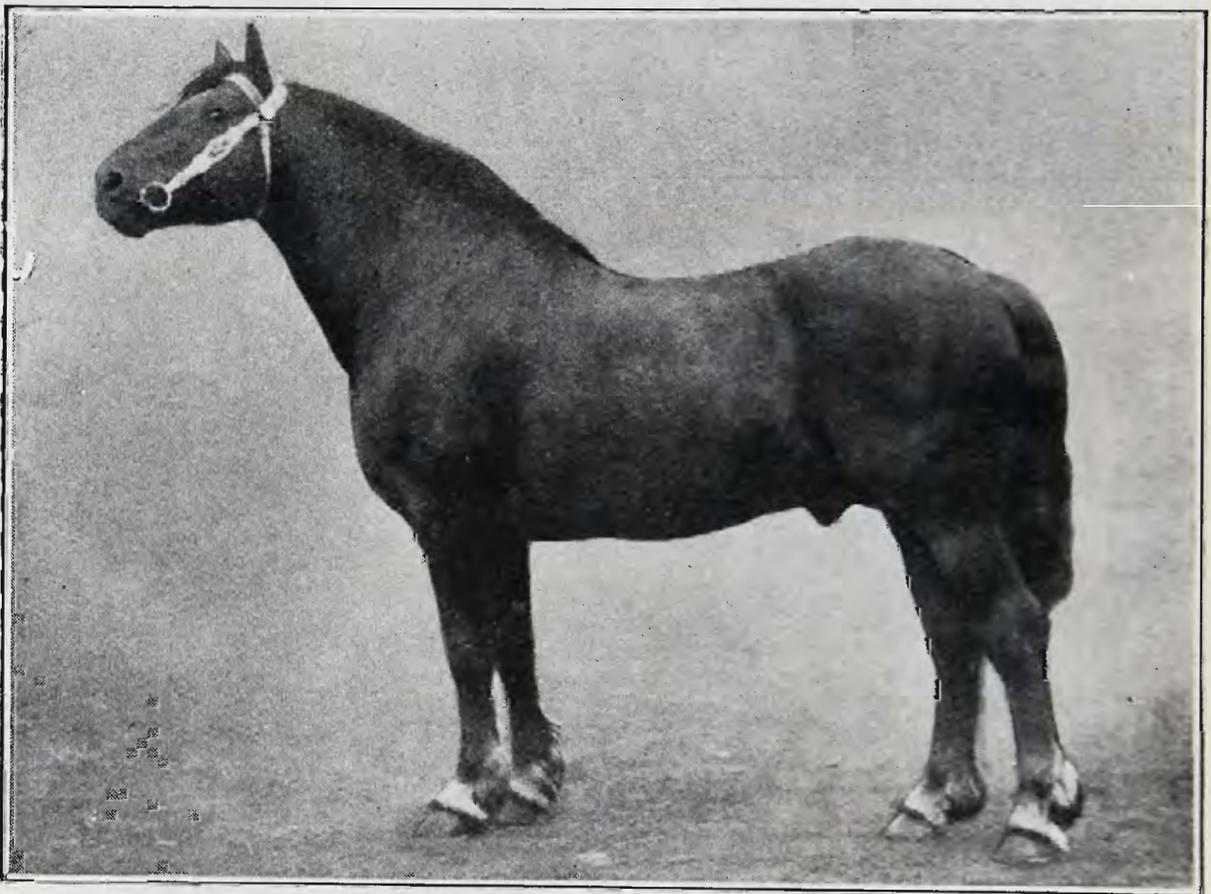

The second prize winner has nice quality, fair feet, somewhat stilty on her pasterns, and is a fair mover.

The third prize winner stands on good feet, but is very plain.

The yearling fillies were an exceptionally strong class, and contained some excellent specimens of the breed. The first prize winner is well grown, has good feet and pasterns, great quality, true close action, and should develop into a champion.

The second prize winner is well grown, has great feet and pasterns, and is a perfect mover. Her colour was a little against her.

The third prize winner is a nice even filly of good quality, a fair mover, but inclined to be a bit straight on her pasterns.

The exhibits in the thoroughbred class were only moderate and only numbered two. The first prize winner is a nice horse, has good colour and fine bone, and should get fair stock. In the Arab class the exhibits were not worthy of so great a Show.

TROTTERS.

J. Phylard, Watson's Terrace, Ascot Vale.

(Complete awards in this Section will be found on page 23).

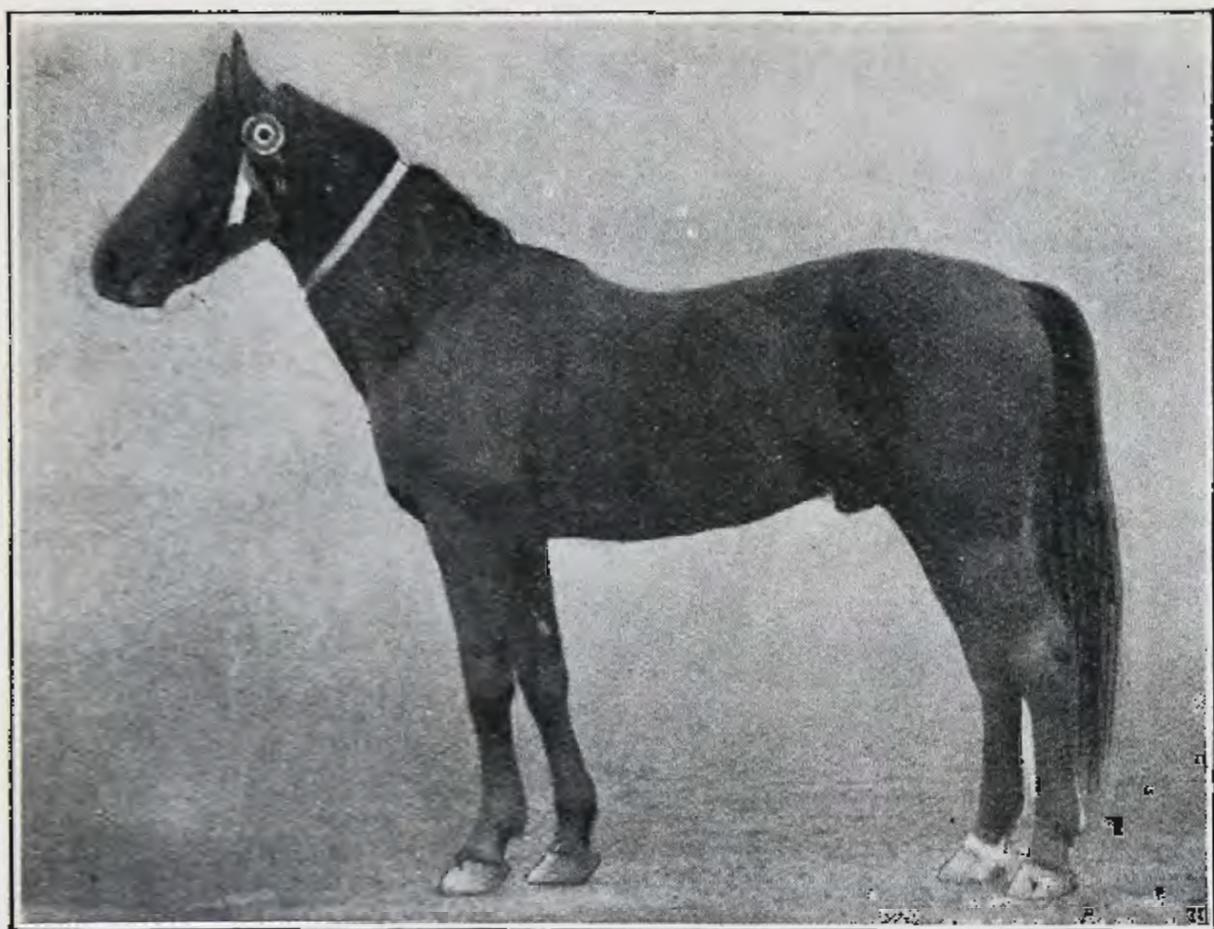

The trotting classes were nearly all well filled; in some, double the number of exhibits of previous years. The stallions, three years and over, were very fine animals and fit for any Show. Mares over three years were the finest lot I have seen paraded in competition. The brood mares comprised a fair entry, but most of them were too old for competition in a Royal Show. There were good entries of both colts and fillies, and in quality showed a great improvement on previous years.

The ring and the arrangements for judging the saddle horses and ponies were entirely satisfactory on the first day. I would suggest, however, that all the judging in this section be completed on the first two days, in order to relieve the judge from being in attendance on four separate days, whereas two days would suffice.

COBS AND PONIES.

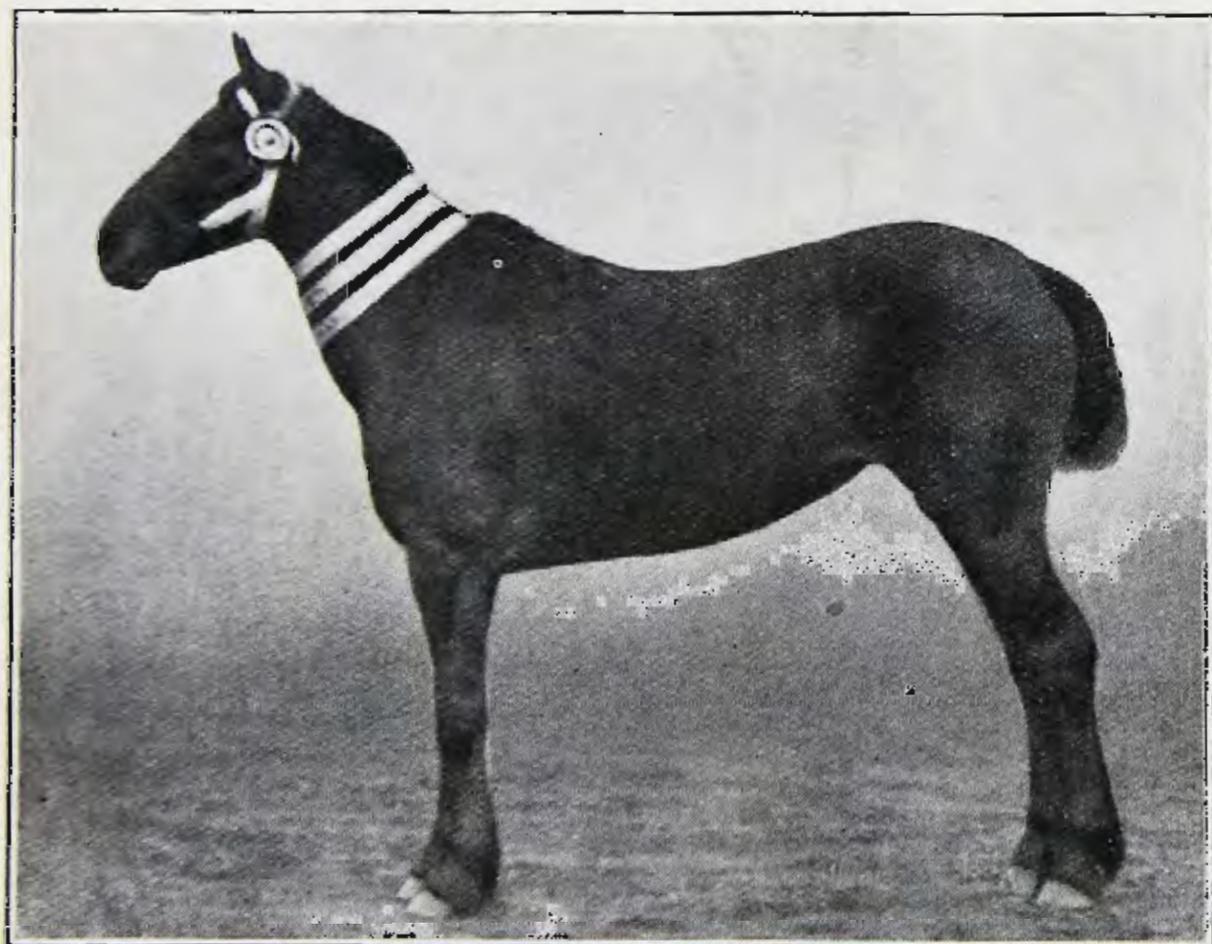

T. Riggall, Leongatha.

(Complete awards in this Section will be found on page 24).

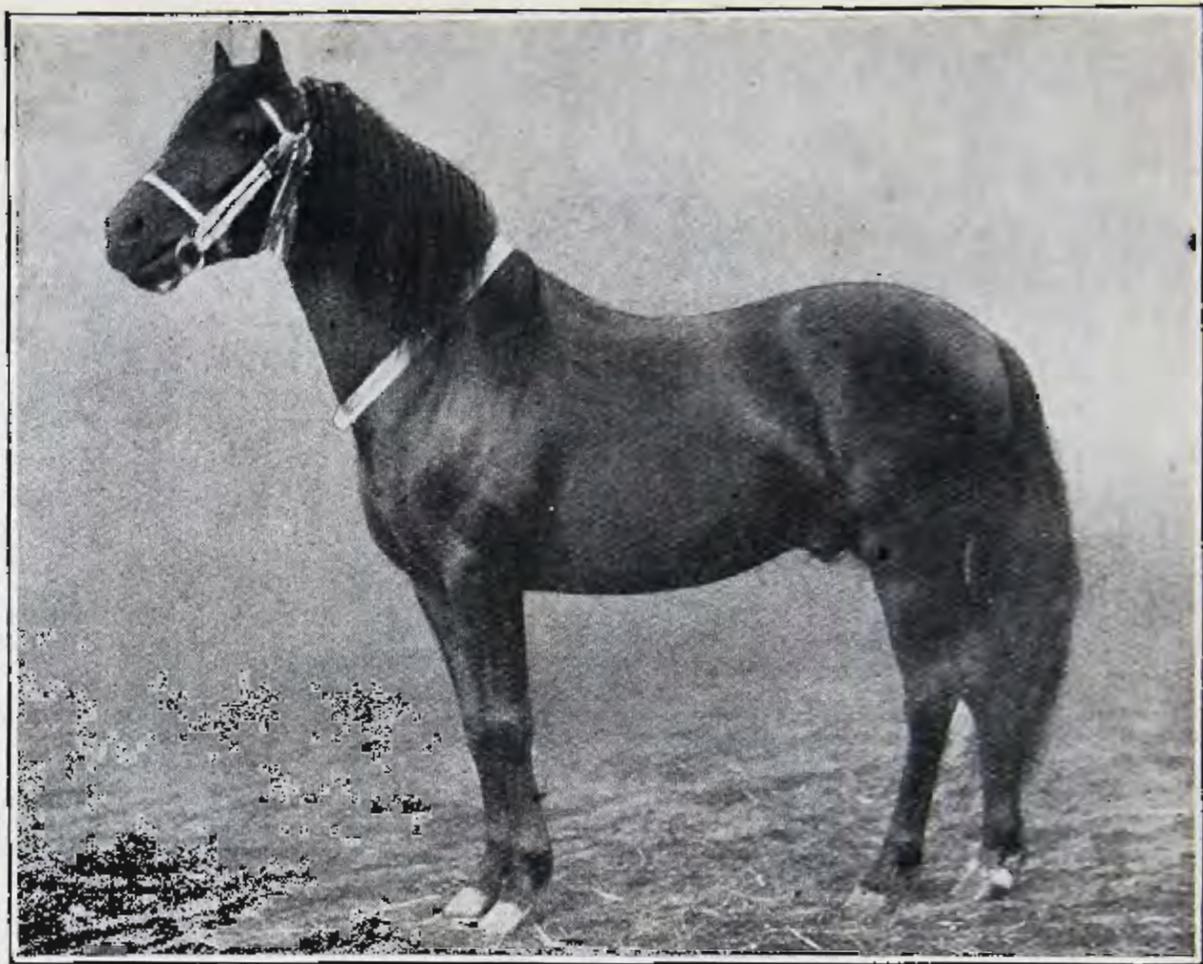

Although the entries in the Cob and Pony classes were not numerous, some of the exhibits were of outstanding merit, especially in the open classes for stallions and mares. The Welsh ponies, which suffered through lack of type, were not nearly so good. The best Shetlands were splendid.

SHORTHORNS.

W. K. Mackinnon, Marida Yallock, Boorcan.

(Complete awards in this Section will be found on page 27).

The Shorthorn Section, taken as a whole, was not quite up to its usual standard of excellence, although several exhibits were exceptionally good and capable of holding their own in the best of company. The Champion bull was an extra good type of animal, being level, deep, very thick, even in flesh and handled well. He had good hair and hide and is an active mover.

Champion Shorthorn Bull, "Royal" Show, 1924.

"MILTON'S MARINER" (Vol 4.).

Exhibited by Mr. A. J. Simpson.

The yearling bull class, as usual, filled well. They were a fair lot, but nothing outstanding, as in former years.

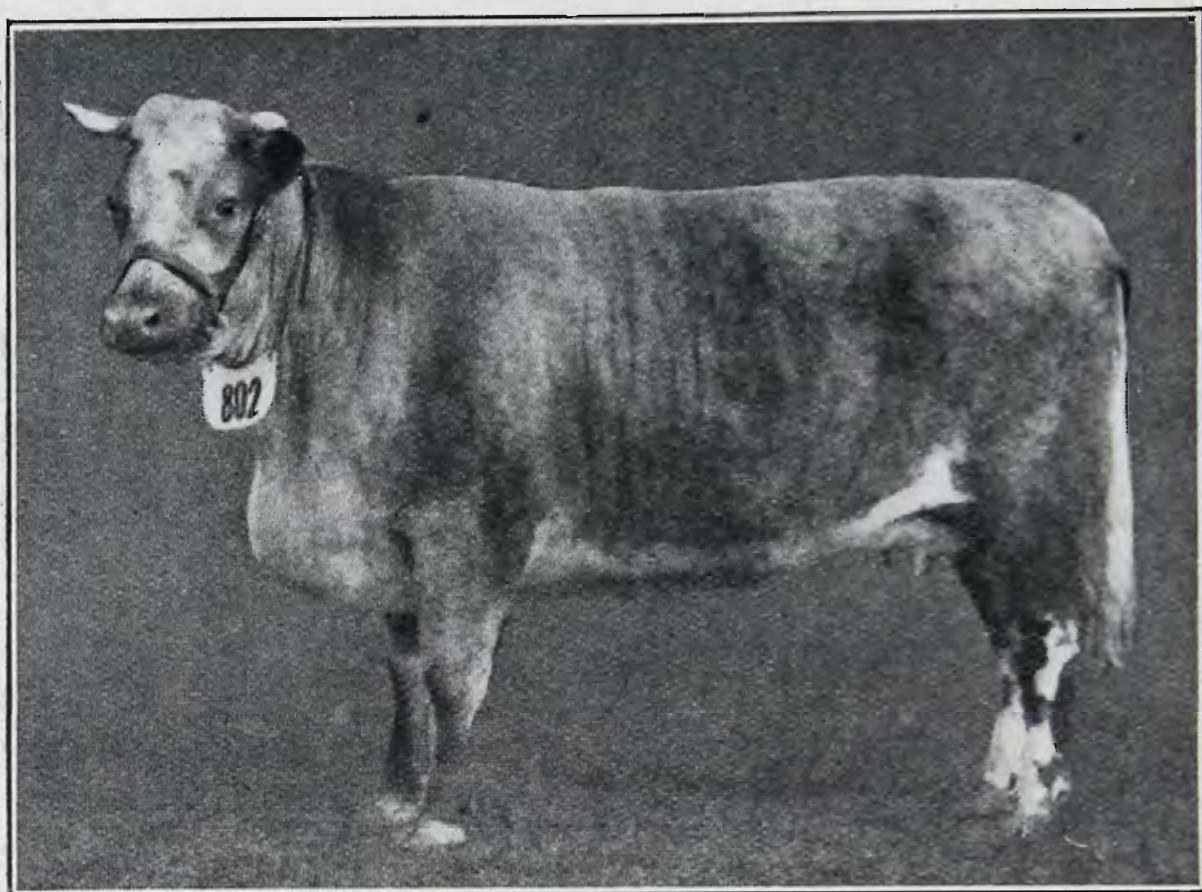

Aged cows were an extra choice lot, and included the Champion, an animal of exceptional merit. The Reserve Champion, too, was a heifer of high standard and similar in type and style to the Champion. Yearling Heifers were quite the outstanding feature of the section, both for numbers and quality, the prize-takers being of the highest merit. The group classes filled well, and made a high-class and interesting display.

In the Shorthorn Steer class, Mr. A. J. Simpson's winning exhibit weighed 1547lbs. when alive, and yielded a carcass of 936lbs. The hide, which was of poor quality and weighed 82lbs., was valued at 5d. per lb. There was also 80lbs. of fat, worth 2½d. per lb. From a butcher's point of view, this carcass of meat was considered almost perfect, on account of its being heavily fleshed and having no surplus fat.

Mr. John Williamson's second prize exhibit weighed 1295lbs., and

the carcass was found to be 796lbs. This hide was also of poor quality, and weighed 67lbs. The 64lbs. of fat that was yielded was valued at 2½d. per lb. This carcass, from a butcher's point of view, was light of flesh and hardly up to top quality.

The winning exhibit was 702 days old, and the second one 769 days.

MILKING SHORTHORNS.

(Complete awards in this Section will be found on page 30).

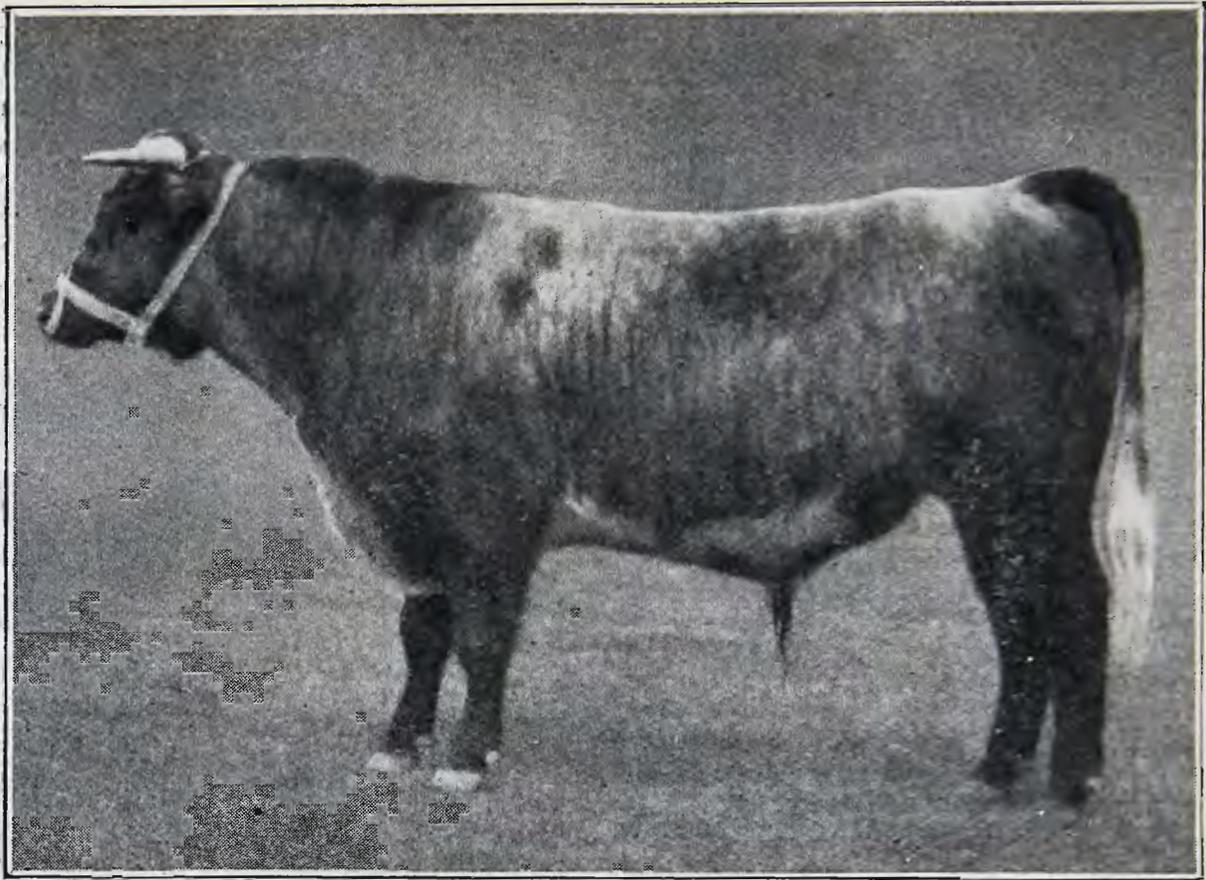

The classes were fairly well filled, with the exception of those for bulls and four-year-old cows. Only three bulls, three years and over, were paraded, and the winner was easily found in the "99th Earl of Pentland"—a very evenly-made bull, but just a little high on the tail. The second and third bulls were an altogether different type. The two-year-old class was well filled, but the majority were of the rough, strong type. The winner was a shapely red bull, "Raymond of Willow Park." In the yearling class there were 12 entries. I consider this was the best class that came before me. Of the six animals, the winner proved to be the "107th Earl of Pentland." This young bull, to my mind, is a coming champion. The other placed animals will be heard of later on. The five-year-old cow class, in milk, was a good one, every cow presented being of a good dairy type, but some of them were rather out of condition. The five-year-old cows in calf class also comprised a good lot. The winner, "Morven Duchess 13th," afterwards won the Championship. This is one of the most typical cows I have seen at a Royal Show for some years, and is a hard cow to beat. The second prize cow, "Daphne 13th of Willow Park," is also of good type, but is, in my opinion, past her prime for Show purposes. She

was, however, well worthy of the place allotted to her. The four-year-old class was deficient in numbers, and in quality was not up to either of the five-year-old classes. The three-year-olds were a better lot, and the winner, "Fairy of Willow Park"—a lovely heifer—was a very close runner-up to "Morven Duchess 3rd" for the Reserve Championship. The two-year-old class was not so good, most of the exhibits being faulty from a milking point of view. The yearling heifers were not to be compared to the yearling bulls either in numbers or in quality. They may, however, develop later on. Taken as a whole, I cannot see any improvement in the stock since I adjudicated in this section six years ago. I would strongly advise exhibitors to be more careful in the selection of their bulls in the future. This is undoubtedly a serious drawback in the breeding of the Milking Shorthorn.

RED POLLS.

The Right Hon. Earl of Stradbroke, State Government House,
Malvern.

(Complete awards in this Section will be found on page 31).

The entries show a slight increase when compared with those of last year. The numbers and type of the young stock were very satisfactory, and the absence of cloudy noses shows that breeders are eliminating this disfigurement.

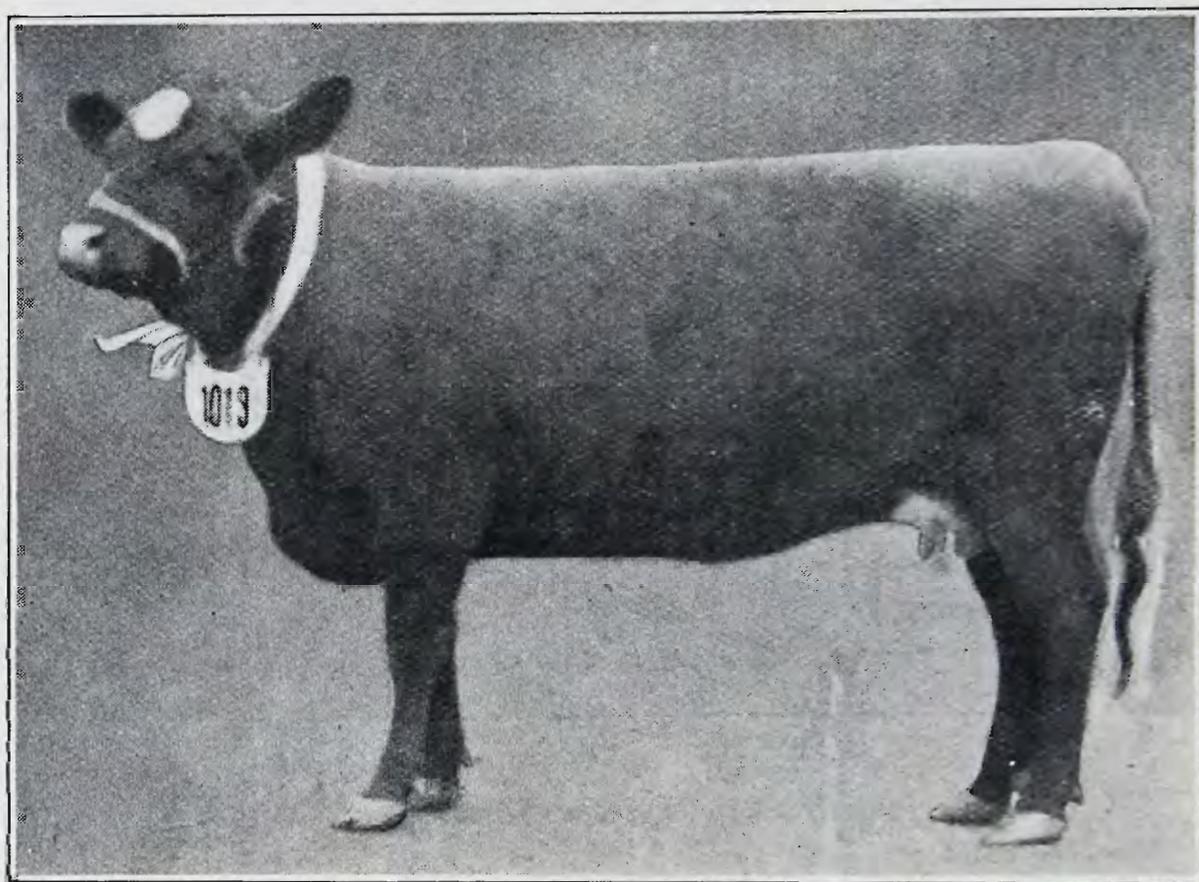

Champion Red Poll Bull, "Royal" Show, 1924.
"EASTON LIBERATOR" (imp), 12,282 (A.A., Vol. 3).
Exhibited by Hon. T. H. Payne.

The improvement of the udders requires attention, though one of the cows had a practically perfect udder.

There is a tendency for exhibitors all the world over to show stock in too high condition, and it is difficult with a dual purpose type to draw the line, as it is desirable to show the good beef as well as the

good milking points of the Red Polls. With regard to this, it is well to notice that in the Stradbroke Challenge Cup class the cow that had the highest marks for symmetry also had the best milking record, showing that what is claimed for the breed by its supporters is correct, and that it is possible to produce an excellent dual purpose animal.

The deep red colour was predominant, which is characteristic of the breed, and is considered to denote hardness of constitution, while the skins were mellow and handled well in most cases.

Champion Red Poll Cow, "Royal" Show, 1924.

"WOODBURN PEARL" (710 A.A.).

Exhibited by Hon. T. H. Payne.

Taken all through, the exhibits showed a marked improvement, and the prize winners may well be taken as types breeders should endeavour to produce. It is to be hoped that those breeders who did not send any exhibits this year will support the forthcoming Shows.

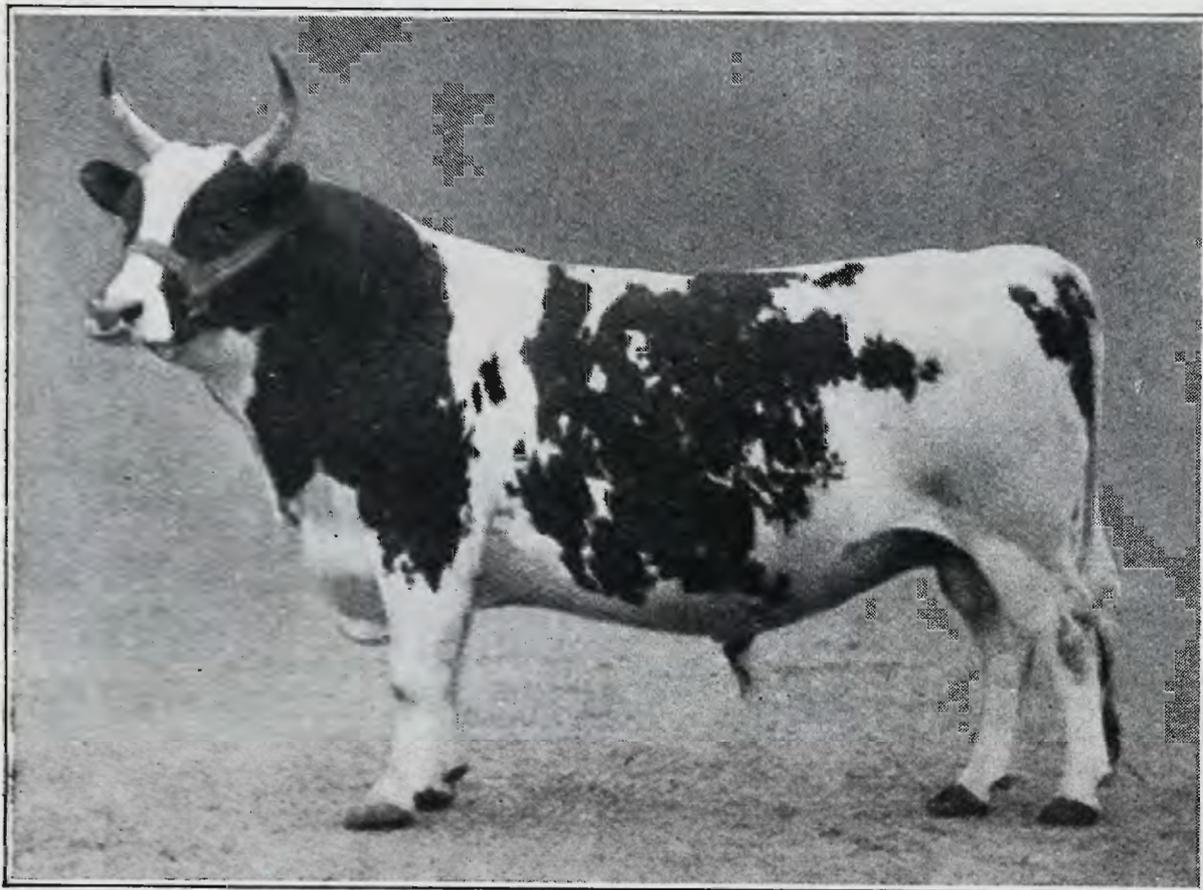

AYRSHIRES.

T. W. Lindsay, Kembla Park, Unanderra, N.S.W.

(Complete awards in this Section will be found on page 31).

I was pleased with the quality of the exhibits in general. The winners in the bull classes were very good indeed, especially the aged and four-year-old classes. There were also some very nice exhibits in the younger classes. The aged cows, in milk, with the exception of the winner, were, I thought, rather weak, compared with previous years, but the dry cow class was very strong, and comprised a very fine exhibit of Ayrshire cows. The younger female classes were also very good, and had every appearance of developing into good quality cows. I may say that, in breeding, more attention might be given to the

formation and connection of the vessels, some of the exhibits being faulty in that respect owing to the vessel hanging low and being badly connected and divided between the teats. This is much against our standard Ayrshire type.

AYRSHIRES.

C. S. McIntosh, Denbigh, Cobbitty, N.S.W.

(Complete awards in this Section will be found on page 31).

The Ayrshires at this year's Show, in my opinion, were better than in 1922, when I last saw them, the most noticeable feature being the absence of so many inferior exhibits in each class. It would be a great advantage to the breed if they could still maintain the Ayrshire type and yet improve the producing qualities, for it is only the breeds that are high producers that will be admired by the average dairyman. If the breeders would unite with this aim, it would, no doubt, bring the Ayrshire into greater prominence, for people would then choose them in preference to other breeds. The first prize aged bull and Reserve Champion looked as well as ever, showing great dairy and show qualities. He is a little faulty behind the shoulders and on the rump. The second bull has plenty of size and good colour, but lacks character. The winning three-year-old bull and Champion is a very handsome bull, with depth of body. He is, however, a little low in the back and rather chubby. The second bull carried too much condition and is rather coarse. The first prize two-year-old bull has a good body and hind-quarters, but is a little short in the neck. The second is plain in colour, but a good dairy bull. The winning yearling bull was shown well. He is lengthy and has good character, but is a little bad in the

skin. The second is rather low in condition and looked young, but should grow to be a beautiful bull. The first prize cow, 5 years, in milk, and Reserve Champion, is a typical cow, although a little faulty for production at the top of the udder and thighs. The second is a good cow, but with less character. The winning cow, 5 years, dry, and Champion, is a fine dairy and show cow, with plenty of size and quality. The second was too far off calving to show to advantage, and carries too much flesh. Amongst the cows, 4 years, in milk, the winner was a good producing cow, but was a little stale. If shown in bloom she would be very nice. The second is a good-shaped cow, but faulty in the udder. The first cow, 4 years, in calf, is very neat and shows good character. The second is a fine producer, with a beautiful skin, but a little plain in head and broken in the colour. The winning

heifer, 3 years, in milk, is a good producer, with beautiful teats and colour. The second is typical, but lacking production qualities. The first prize heifer, 2 years, dry, is a beautiful, well-developed animal and possesses a good skin. The second is of good quality, but rather small. The winning heifer, 2 years, in milk, is very good and well shaped, but a little small in the teats. The second is a good-shaped heifer, but weak in the udder. The first heifer, 2 years, dry, is typical, though rather white and not showing enough production. The second has a good front, body and teats, but faulty in the hindquarters. The one-year-old class comprised many good heifers. A better skin would have improved some of the prize-winners.

JERSEYS.

E. Burton, Oxford, Wanora, Queensland.

(Complete awards in this Section will be found on page 33).

I was, on the whole, very pleased with the Jerseys that were exhibited. There was a tendency to coarseness through over-feeding in some of them, but the winners in the various classes were up to the standard of previous years. The Champion Bull is a very fine animal, showing great quality, though perhaps lacking a little in type. The Champion Cow still shows splendid type and splendid dairy qualities. Of the younger classes the winners in the two-year-old and yearling bulls were very fine animals, and the winners in the heifer classes all showed good type and quality. This was especially so in the yearling class. I regret to see the big "tail end" in the young bull classes. Probably many of these youngsters were brought in for sale purposes only. Owners would do well to leave them out of the Show, as they only discredit the breed.

Although competition in the Guernsey Section was practically confined to one exhibitor, there were some first-class animals shown, and they were brought out in splendid condition. The Champion bull came from the aged class, and was a very fine specimen of the breed, showing good type and quality; also fine dairy points. The Champion cow stood out in her class and well deserved the ribbon. In the other classes there were many promising animals which may be heard of in the future.

FRIESIANS.

James Pritchard, c/o Grenwell and Shepherd, 84 Pitt-street, Sydney.

(Complete awards in this Section will be found on page 35).

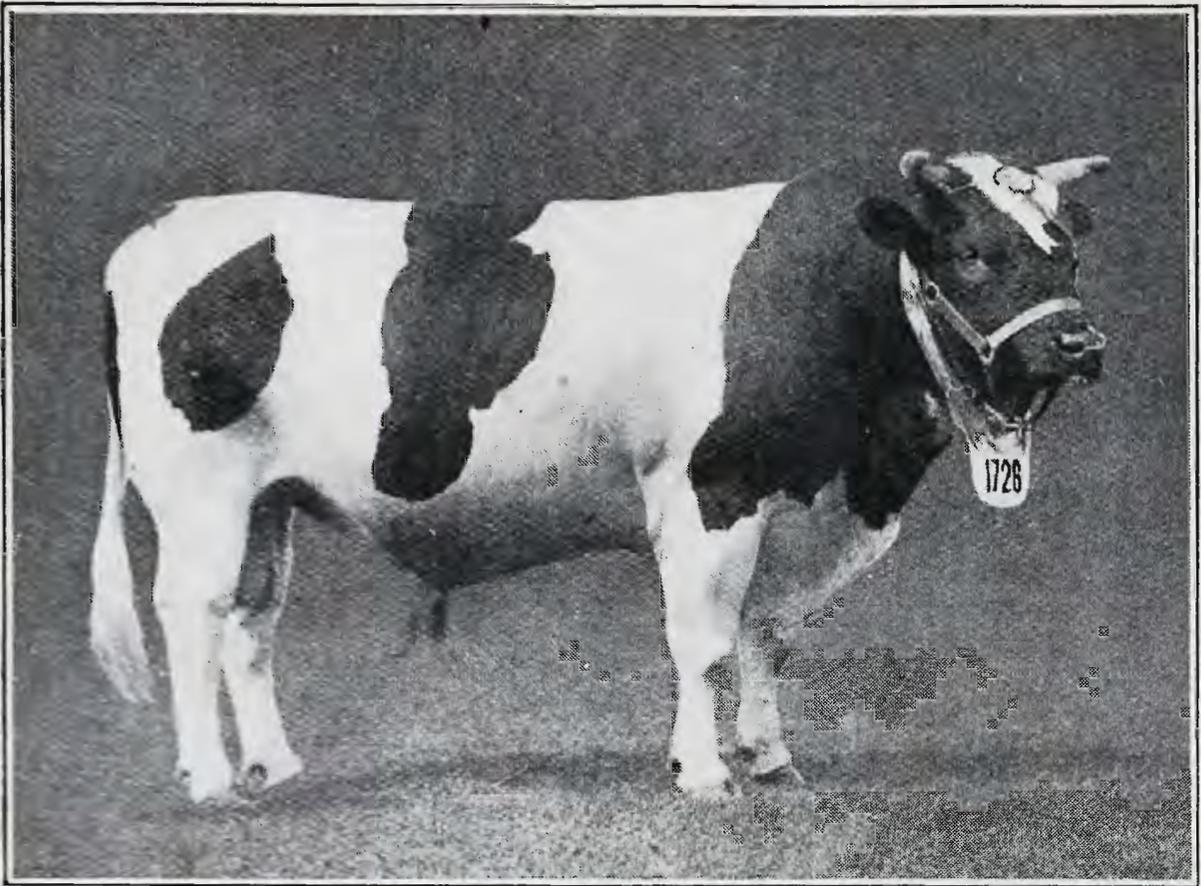

The aged bull class was a splendid one; in fact, all were fit to win. The winner was very fine, showing quality as a good dairy bull. The second was also a very fine animal and very close to the first. In the other classes the bulls were not, in my opinion, up to last year's standard. The females were a good lot right through, the Champion cow being particularly fine. I found out afterwards that she is a great producer. The Reserve cow was also good, but lost to the Champion on the top line. She also is a good producer. All the other females were very good, and would compare favourably with the leading exhibits in the other States.

"THE WEEKLY TIMES" CHAMPION BUTTER FAT AND MILK TEST.

P. R. Scott, Department of Agriculture, Melbourne.

J. M. Kerr, Department of Agriculture, Melbourne.

(Complete awards in this Section will be found on page 36).

In "The Weekly Times" Champion Butter Fat and Milk Test, the competing cows numbered 13, and included representatives of the following breeds:—Jerseys, Ayrshires, Friesian and Shorthorn.

Of these, nine competed for the "Payne" prizes also, which number included the same breeds excepting the Shorthorn.

The yields of butter fat were not particularly high, only one cow returning over 2lbs. of butter fat per day.

The first cow, a Jersey, "Miss Guy of Tarnpirr," gave a total milk yield of 96.55lbs., returning 6.703lbs. of butter fat, the total value of the production being 9/10½.

The second cow, an Ayrshire, "Lady Mac of M.G.," gave a total milk yield of 120.92lbs., returning 5.727lbs. of butter fat, the total value of the production being 9/1.

The third cow, a Jersey, "Lassie Fowler 8th of Melrose," gave a total milk yield of 100.37lbs., returning 5.839lbs. of butter fat, the total value of the production being 8/10.

The fourth cow, a Shorthorn, "Hayle's Jessamine Omega," gave a total milk yield of 108.18lbs., returning 5.561lbs. of butter fat, the total value of the production being 8/8.

Some features noted were:—

- (a) The very high percentage of butter fat returned by "Miss Guy of Tarnpirr."
- (b) The high percentage of butter fat for an Ayrshire cow, returned by "Lady Mac of M.G."
- (c) As showing the open character of this test, it is interesting to note that the four leading cows were representative of three breeds.
- (d) Considerable interest was manifested by the owners in this test.

Although in the present test the previous practice of withholding the progressive production from the owner till after the final samples had been collected was not departed from, we would recommend that, in the economy test at least, each competing owner should have the production announced to him as it becomes available—such information, of course, to be in respect of his own entry only.

We may also be permitted to offer the opinion that, although we regard the "Payne" competition to be a useful amplification of "The Weekly Times" Test, we consider that its utility value as a "profits" test is largely impaired by its insistence on the condition that milk testing under 3.5 per cent. fat (which is undoubtedly of some monetary value) must not be credited at all in the cow's return.

Another feature, which may or may not have been overlooked in framing the conditions, is that the respective results of "The Weekly Times" Test, as they finally appear, are not obtained under equal conditions, inasmuch as those entrants, which are also in the "Payne" competition, are under the necessity, which the others are not, of keeping the food supply within economical bounds. Consequently, we think it

advisable to point out that, in the placements for "The Weekly Times" prizes, the production of Nos. 1, 3, 5, 6, 7, 9, 10, 11 and 13 was probably "limited by being also entered for the Payne Prize."

This inequality could be obviated only by making entry in both tests obligatory or extending to the "Payne" entrants the same right of single entry as "The Weekly Times" entrants enjoy.

We are enclosing detailed results of the six milkings on which the prizes for "The Weekly Times" Champion Butter Fat and Milk Test were determined.

In conclusion, we would state that the arrangements for judging worked satisfactorily, and were, no doubt, quite adequate to insure a correct record of the actual milk and butter fat yielded in the time specified.

FAT CATTLE.

J. Coleman, 27 Market-street, Essendon.

(Complete awards in this Section will be found on page 37).

The five-year-old bullocks carried plenty of condition and plenty of size, but showed very little breeding. The four-year-old bullocks were very much better, but still there was plenty of room for improvements in breeding. The three-year-olds were very good, well grown and in splendid condition. The two-year-olds were first class in every way—well grown, well bred, of good colour and in splendid condition. The fat cows were very fine Shorthorns and a credit to the breeder. I strongly advise beef cattle breeders to go in for better-bred animals, and try to advertise their stock by exhibiting at the Show.

SHEEP.

LINCOLNS.

R. A. D. Hood, Merrang, Hexham.

(Complete awards in this Section will be found on page 37).

Lincolns this year were of a much evenner type than in previous years that I have judged, there being not nearly so many inferior sheep to go through. Nearly all the sheep exhibited, both rams and ewes, showed plenty of Lincoln character in their wool, were well covered on points, and had good heads, making the task of judging much easier.

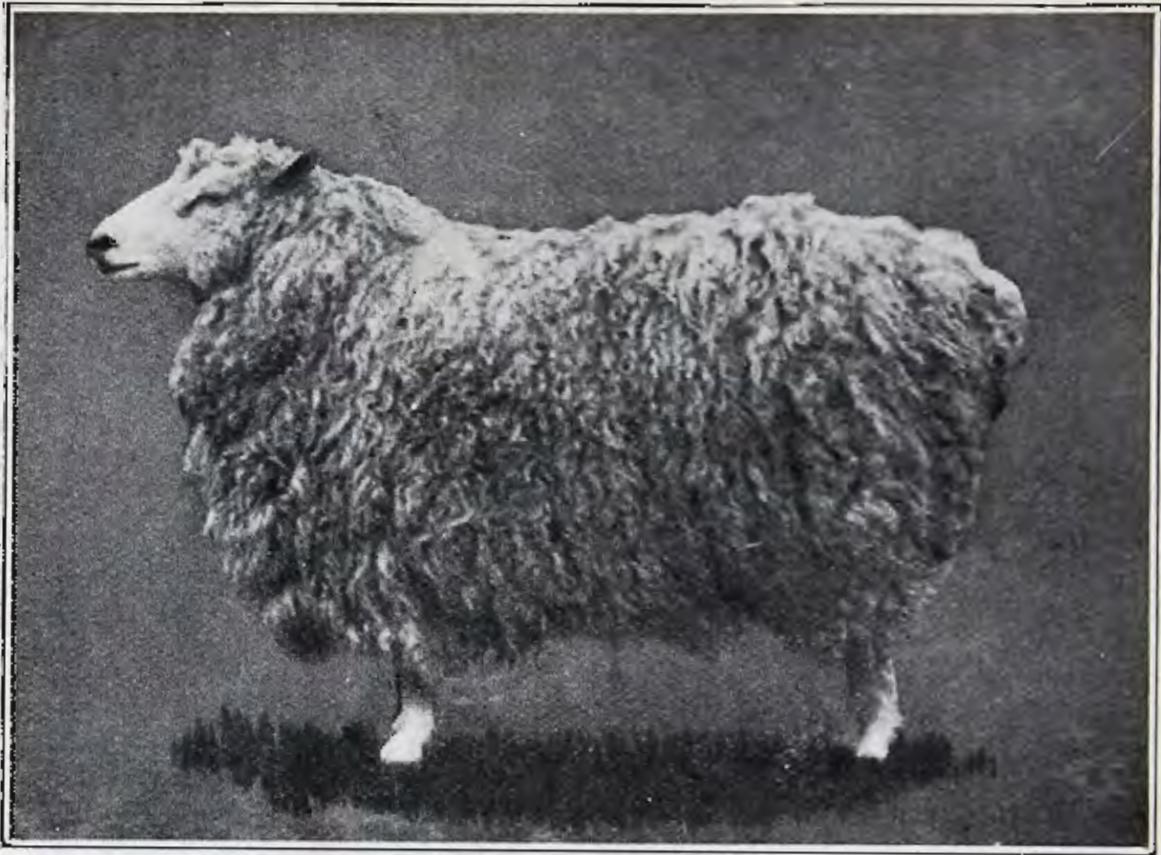

The prize winners were very well grown and well shaped, carrying a very nice type of Lincoln wool and good heads. There were a few very nice woolled sheep, but too small to get prizes. Taking them as a whole, I think they were well up to the standard of previous years.

ENGLISH LEICESTERS.

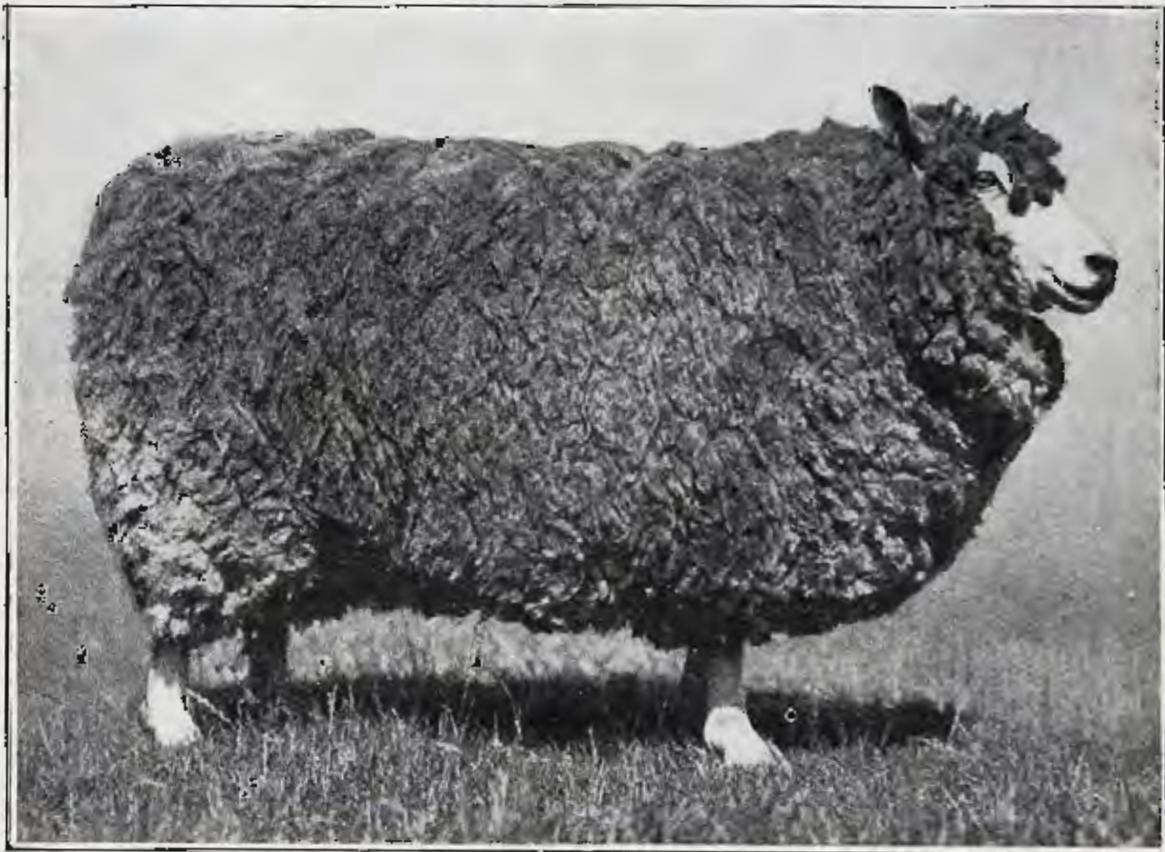

J. G. Habel, Yulecart, Hamilton.

(Complete awards in this Section will be found on page 38).

The entries in the English Leicester classes were small this year. The two different types were very pronounced in very nearly every class. Symmetry of type and wool was my main objective in judging. The exhibits in the ram classes were not quite up to standard, especially in the class under one and a half years, shorn as lambs. The ewe classes were well up to standard. The Champion ewe and Reserve Champion was, in my opinion, what an English Leicester ought to be—of good frame, plenty of flesh, thick and well sprung in the ribs, with fine bone and carrying a good even fleece.

BORDER LEICESTER RAMS.

A. H. Blake, Agricultural College, Dookie.

(Complete awards in this Section will be found on page 38).

At the last Royal Show the exhibits in the Ram Section of the Border Leicesters were without doubt the best collection, as far as quality and evenness were concerned, ever brought together in Melbourne. The classes were large, and it was not a question of one or two rams standing out in a class, but at least half a dozen; there was a marked absence of second-rate sheep brought for sale purposes only. The pens of two rams were of exceptional merit. Judging is a pleasure when you have such a number of high-class animals to handle.

BORDER LEICESTER EWES.

John Sutherland, 112 Burke-road, East Kew.

(Complete awards in this Section will be found on page 39).

Competition in the Border Leicester Ewe Section was keen in every class, and the quality and evenness of type (more particularly in the younger classes) were more pronounced than at any previous Show. The Champion ewe was a good typical sheep and very symmetrical. She had a good head, wide level back and well-sprung ribs, and stood well on her legs and had a very good carriage. She carried a nice even fleece of typical Border Leicester wool. The Reserve Champion ewe was a sheep of outstanding merit. She was placed first in the Hogget Class, where the competition was exceptionally keen.

ROMNEY MARSH SHEEP.

R. H. Rose, Grass Vale, Burekup, W.A.

(Complete awards in this Section will be found on page 39).

I have much pleasure in stating that the quality in this section was very good. I am pleased to say that the mixed types of a few years ago have disappeared. The sheep placed before me this year were true to type and well covered in most cases with a good crimped wool. Some sheep lacked bone. The young sheep were exceptionally good, with strong classes in both rams and ewes.

SOUTHDOWNS, SHROPSHIRE AND HAMPSHIRE.

F. W. Bedwell, Shepparton.

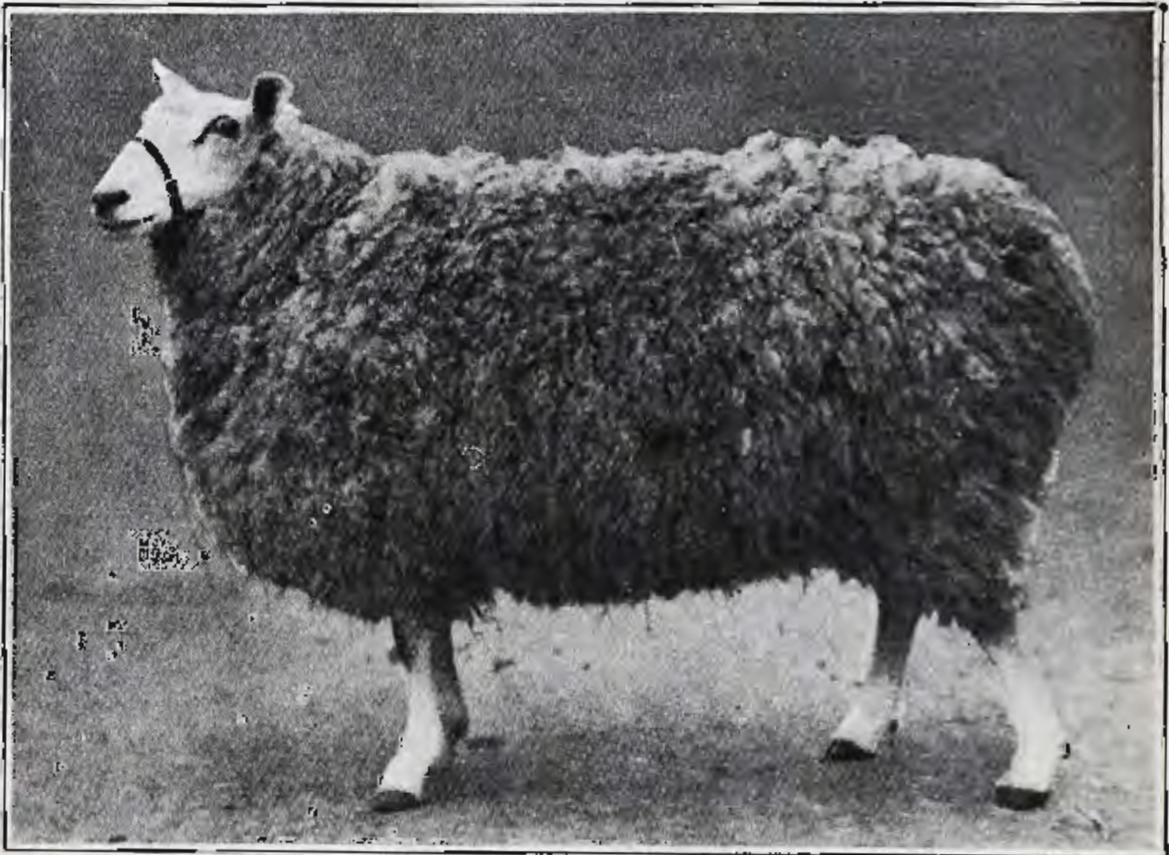

(Complete awards in this Section will be found on pages 40 & 41).

The competition in the Shropshire classes was very keen, and the whole of the sheep exhibited were of good type and were better, on the whole, than for several years past. The Champion ram was an exceptionally good sheep and handled very well. The Champion and Reserve ewes were very fine sheep, and won in very strong classes. The Southdowns were few, but very good sheep and really typical.

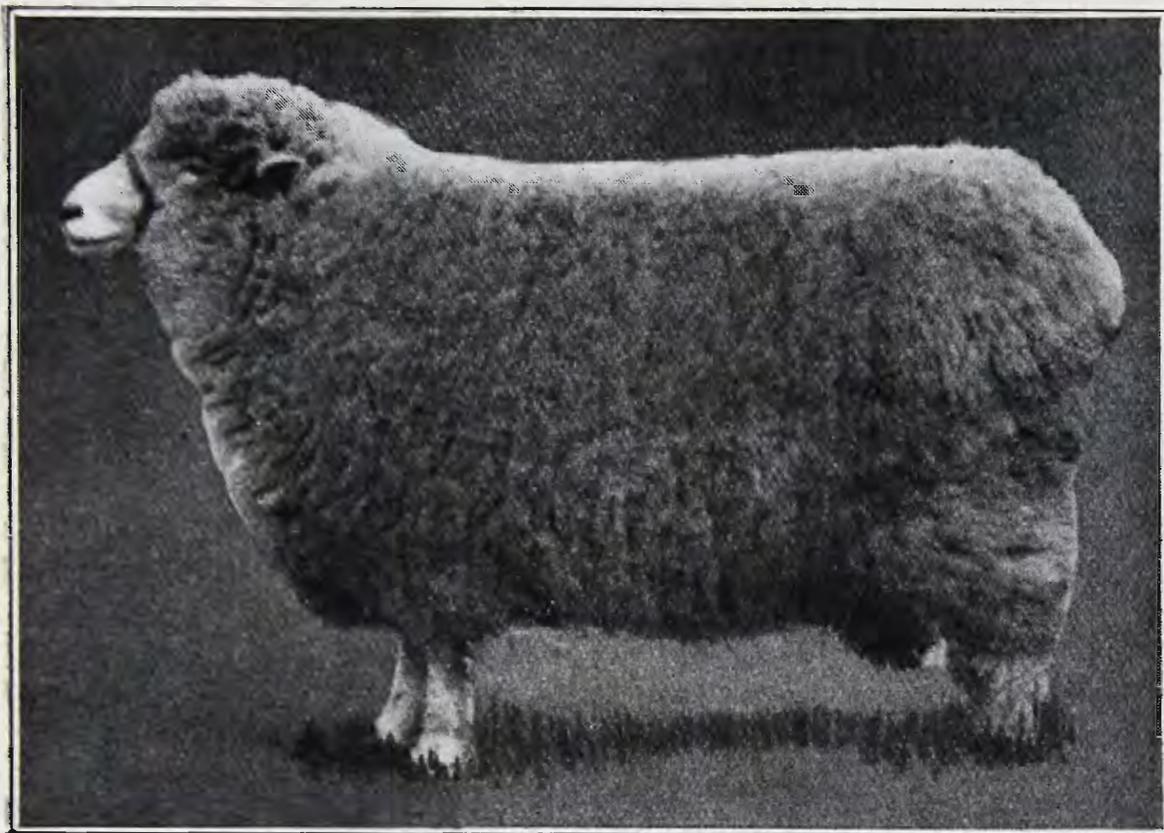

I would suggest that the classes for untrimmed sheep be cut out, and that shorn sheep classes be put in their places.

SUFFOLKS AND DORSET HORNS.

D. Porter, 23 Sussex-street, Moonee Ponds.

(Complete awards in this Section will be found on pages 41 & 42).

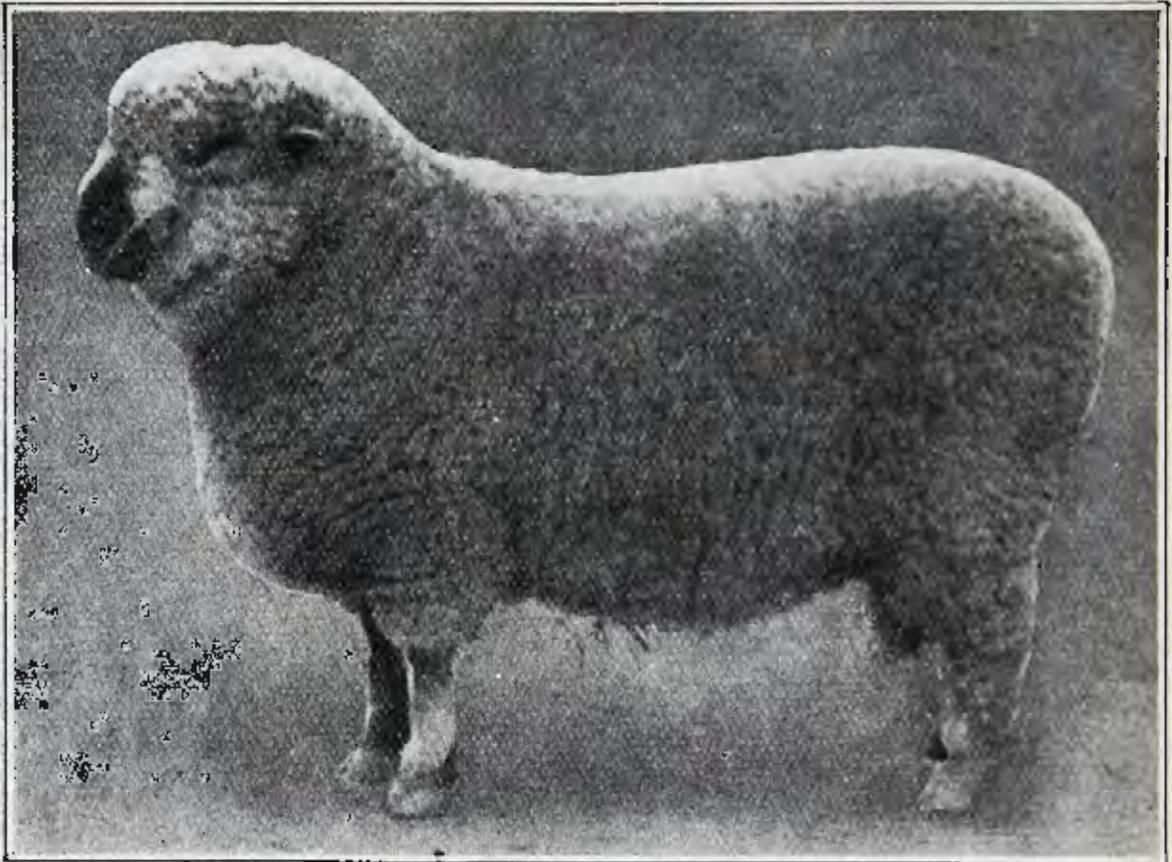

The Suffolks this year were quite up to the usual standard, although some of the sheep were not shown to the best advantage, as they could have carried very much more condition. The Champion ram was an outstanding sheep, and I consider it was the best of the breed I have ever handled. Even this sheep would have shown to greater advantage had he been in better condition. The Dorset Horns were, both in numbers and quality, easily the best ever shown at the Melbourne "Royal," there being not an inferior sheep in the lot and nearly all shown with the bloom on. Some of the young sheep were wonderfully developed for their age, and gave great promise for early ewe maturity. Both the ram and the ewe under one and a half years of age that won the Championship prizes were particularly fine sheep. The ram and ewe lambs also provided a fine exhibit. It was worthy of note that the Dorset Horns won in both sections in the fat lamb classes.

CORRIEDALES AND POLWARTHS.

J. R. Moodie, Hamilton.

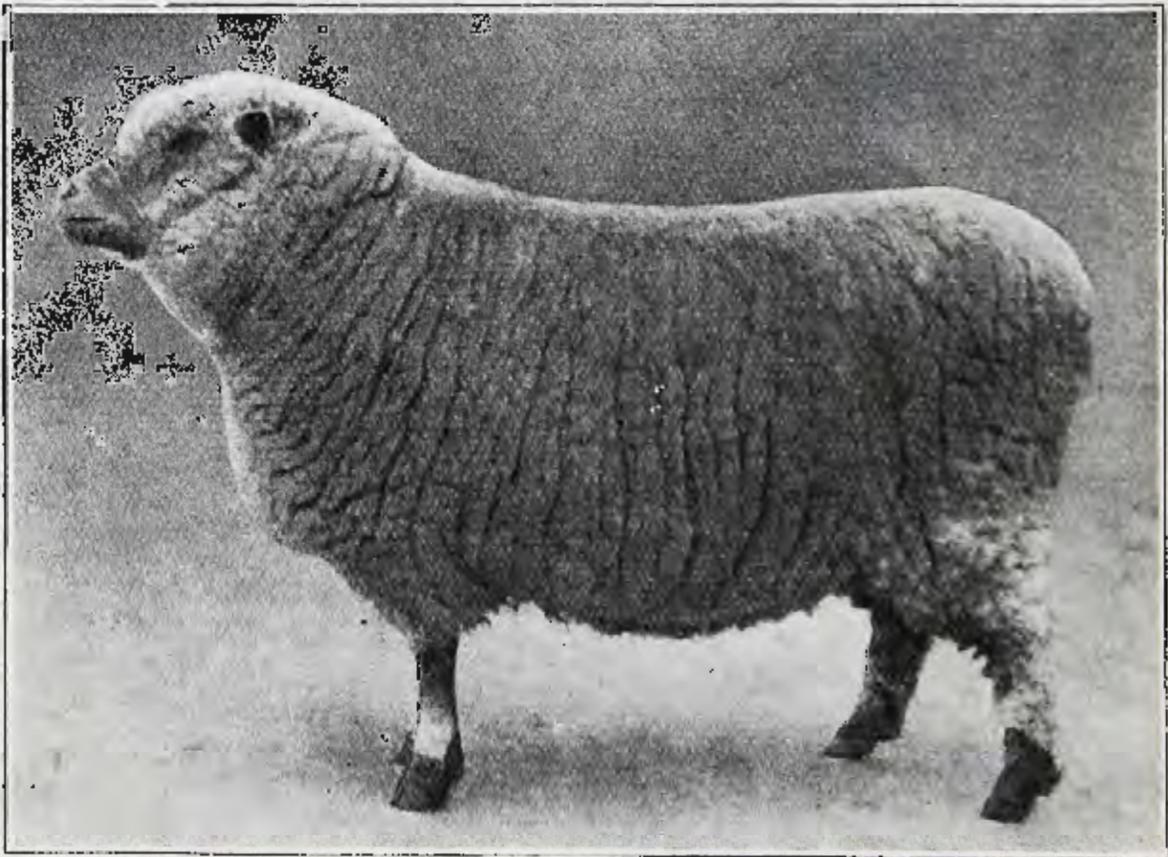

(Complete awards in this Section will be found on pages 42 & 43).

Although I would like to see more exhibitors, I consider that the exhibits in the Corriedale Section were, on the whole, very creditable, and it is apparent that both during the judging and later on very great interest was taken in these sheep. In making my awards, I endeavoured to keep as near the lines laid down by the Corriedale Association as possible, and in doing so I think that some people considered that I was wrong in placing Mr. Turnbull's ram in the class for under two and a half years ahead of Senator Guthrie's exhibit. The ram owned by Senator Guthrie, and which a number of people fancied, is, in my opinion, too fine for a sire, as compared with Turnbull's ram. The Corriedale is claimed to be a true half-bred, and too many breeders are inclined to go for a finer or comeback type. Corriedales are claimed to be dual purpose sheep; therefore, should be judged for both wool and carcass. As to the Polwarths, the two classes brought forth fair competition, and the sheep were fairly even and decent representatives of the breed.

FAT SHEEP

Thomas Preen, Curtin-street, Ballarat.

(Complete awards in this Section will be found on page 43).

The class for fat lambs for export was keenly competed for, the outstanding exhibits being the Dorset Horn and the Shropshire lambs.

I wish also to refer to the exhibit of lambs most suitable for butchers' purposes; the outstanding lambs in this class were also Dorset Horns.

In the section for fat sheep most suitable for export, I wish to compliment the exhibitors in placing such an even line of sheep before me. The exhibitors appear to have produced the sheep most suitable for the London Market.

I would like to refer specially to the third prize award in this class. These sheep were a Suffolk cross, but just a little on the light side; but I think the exhibitor has succeeded in breeding a class of sheep which will be keenly competed for on the London Market.

I have made special reference to Dorset Horn lambs for export, and butchers' purposes. I think the Society is making a mistake in permitting pure bred sheep to compete against the crossbred.

After performing my duties at the Show, I had the pleasure of meeting the breeder of the winning Dorset Horn lambs, and I asked him was he prepared to take export price and butchers' price for his exhibits. He said, "No," as no doubt he expected to sell these lambs at breeding prices. Therefore, I contend they are not suitable for export or butchers' purposes. While I wish to compliment the breeder on the lambs which he has produced, I think the Society would be doing good to this country by giving a substantial prize of, say, 50 guineas, for a Cup—to be won three years, not necessarily in succession, for crossbred lambs suitable for export. Time would then prove the best lambs for early production, which is necessary for the success of any country.

FLEECES.

F. L. Purnell, 575 Collins-street, Melbourne.

N. Bickford, c/o Victorian Producers' Co-Operative Co. Ltd., Collins-street, Melbourne.

(Complete awards in this Section will be found on page 43).

The fleeces in competition this year at the Royal Show showed an increase of 10 to 15 over last year's number. However, the total only amounted to about 70 fleeces, and when it is considered that almost as many millions will be required to pay for the wool clip of Australia, it must surely appear to be poorly represented.

The exhibit generally was a varied one, and embraced almost every quality and breed of wool. The past generous season had left its trace on the staple, inasmuch as the majority of the exhibits showed a good amount of condition, and altogether were much heavier than the wool brought forward at last year's Show.

Those growers who intend exhibiting next year will be well advised before despatching their fleeces, and immediately after the wool is shorn, to spread a large piece of paper over the entire fleece, after the latter has been thrown out on the skirting table. Instead of rolling in the ordinary manner, the fleece should be folded up, so that the paper will prevent any two portions of the wool touching. This would enable the judges, when unrolling the fleeces, to quickly and effectively examine every portion of the fleece. Under the existing conditions, fleeces are rolled in the ordinary way, as in the case of putting up the

clip for market. While this method is quite good when the wool is dry in condition and generally for sale purposes, great difficulty is experienced when unrolling the fleeces when some are well nourished and heavy in condition.

In the open section for merino rams, the first prize went to R. K. and C. McLennan. This fleece weighed 25lb. 4oz., with a total value of £3/6/0½. The fleece was a deep-stapled, well-grown one, of broad 60's quality—altogether a very useful wool of its type—and exhibited good character and lustre. The second prize was secured by C. Niewand. The total value of this fleece was £2/4/8¼. The wool was of 64/70's quality, and showed good style and length of staple, though in parts was inclined to be a little lean. J. A. Christie secured the third prize in this class, the total value of the fleece being £2/0/2½. This fleece was also of 64/70's quality, and showed good length and style, with fairly regular quality throughout, but carried a good amount of condition, while in the tip a slight colour was noticeable.

In the open merino ewe's fleece section, R. K. and C. McLennan, with No. 2456, again carried off the first prize. The value of the fleece was £2/9/7¼. The wool was of 64's quality, deep grown and bulky, even in quality, but could have shown a little more lustre. The second prize went to C. Niewand. The total value of the fleece amounted to £1/18/8¼. As in the case of the first prize, this wool was also of 64's quality, well grown and nourished, fairly soft handling, but carried a little condition and tip. The third prize was also secured by C. Niewand, with a total value of £1/16/5½. The wool was of 64's quality, deep grown, fairly soft handling, but in parts running a little straight in the fibre towards the tip.

In the class for merino ram's fleece, grown by owners of less than 3000 sheep, again the first prize was secured by R. K. and C. McLennan. The wool of this fleece was very deep grown and bulky, but showed exceptionally broad quality, and could have exhibited more lustre and better colour. The quality was below that actually recognised as a broad merino, it only averaging 58's, with an occasional 60's in parts. However, the tremendous bulk made up for anything that might have been lacking in style. The total value amounted to £3/1/10½. The second prize was secured by L. L. Bassett. The wool was of very broad quality, and similar to the winning fleece in this class, but, if anything, the colour was a little better. The total value was £2/16/4¼. The third prize went to C. H. Hinchliffe, with the fleece valued at £2/11/4½. The quality of the wool averaged 64's and was very bulky and deep grown, but carried a fair amount of condition.

For the best merino ewe's fleece from growers of less than 3000 sheep, the first prize here was secured by R. K. and C. McLennan. The fleece totalled in value £2/6/11½. It was of 60's, and occasional 64's quality, very bulky, well grown, excellent length and regular style, but carried a little dust. The second prize went to C. Niewand. This owner's fleece was valued at £2/0/2¼. The quality of the wool was 64's and part 70's, and showed good length and regular style, but was very heavy in condition. The third prize was also secured by C. Niewand, the total value amounting to £1/19/6½. The wool was of 64's quality, showed good length of staple, but carried a fair amount of condition and a light tip.

For the most valuable Lincoln ram's fleece, the first prize was secured by J. A. Christie's exhibit, which had a total value of £1/12/7. The wool showed splendid style and lustre, but carried a considerable amount of grease. The quality averaged 36/40's. The second prize

went to Messrs. Richardson Bros.' exhibit, with a value of £1/6/9. The wool was particularly heavy in condition, but showed good style and lustre. The quality was 40/36's. Unfortunately, there were only two competitors in this class.

For the most valuable Lincoln ewe's fleece only three owners exhibited, and the first award was given to Messrs. Richardson Bros. The total value of the fleece was £1/7/7. The wool showed good style and lustre, but in parts was inclined to be cotted. The average quality was 36's. The second prize was awarded to S. Adkins. The wool belonging to this exhibitor carried a great amount of condition and showed some colour in the tip. The bulk quality was 36's. The total value was £1/2/6½. The third prize went to J. A. Christie's fleece, valued at £1/2/6½. Only a halfpenny separated the second and third awards. The fleece awarded second prize weighed heavier, although valued at a halfpenny less per pound. The fleece securing third prize showed excellent lustre. The average quality was 36's.

For the most valuable Leicester ram's fleece, the first prize was awarded to W. S. Kelly. The total value of fleece was £1/4/4; quality, 50's/46's. The wool was of good length, fair style, carrying a little dust in the tips and scattered burr. The second prize was awarded to W. S. Kelly. The total value of the fleece was £1/1/5. Wool was of very good length and lustre; 50/46's quality; a little dust in the tip and scattered burr. The third prize was awarded to J. G. Habel. The total value of fleece was 15/6½. Wool was of 46/44's quality. A little thin in staple, but showing good length and style.

In the class for the most valuable Leicester ewe's fleece, the first prize was awarded to W. S. Kelly. Total value of fleece, 19/7. Wool of 50/46's quality, showing good lustre, length and style, carrying few burrs. Second prize, W. S. Kelly. Total value of fleece, 18/2½. Wool, 46/44's quality; a little dust in the tip, good length, fair style, scattered burrs. Third prize, J. G. Habel. Total value of fleece, 15/7. Wool, 44's quality, showing excellent lustre, good length, dry in condition.

For the most valuable Border Leicester ram's fleece, the first prize was awarded to L. L. Bassett. Total value of fleece, £1/1/5½. Wool, 44/46's quality, showing excellent length, lustre and style. Second prize, H. Hodge. Total value of fleece, £1/0/9. Wool, 44/46's quality, showing good length of staple, but part thin, and exhibiting a little colour. Third prize, A. Hodge. Total value of fleece, 18/7. Wool, 46/44's quality, showing fair length, style and bulk.

In the class for the most valuable Border Leicester ewe's fleece, the first prize was won by H. Hodge. Total value of fleece, 18/6½. Wool, 46's quality, good length and style, soft handling and generally very attractive. Second prize, H. Hodge. Total value of fleece, 17/-. Wool, 46/44's quality, showing good length and style. Third prize, L. L. Bassett. Total value of fleece, 16/5. Wool, 44's quality, showing fair style and length.

For the most valuable Romney ram's fleece, the first prize went to A. L. E. Spehr. Total value of fleece, £1/12/4½. Wool, 50/46's quality, showing good length and style, but in parts exhibiting a little colour. Second prize, Capt. A. E. T. Payne. Total value of fleece, £1/7/7. Wool, 50's quality, showing good length, only fair colour and style. Third prize, A. L. E. Spehr. Total value of fleece, £1/7/2. Wool, 50/46's quality, showing excellent lustre, carrying fair amount condition, little straight in fibre.

For the most valuable Romney ewe's fleece, the first prize was won by Capt. A. E. T. Payne. Total value of fleece, £1/12/10½. Wool, 46/50's quality, fair to good colour, good length. Second prize, Capt. A. E. T. Payne. Total value of fleece, £1/7/- . Wool, 50/46's quality: only fair colour, good length, but a little thin on the staple. Third prize, A. L. E. Spehr. Total value of fleece, £1/5/2. Wool, 46's quality; dry in condition, fair length, but in parts inclined to be straight in fibre.

In the class for the most valuable Shropshire ram's fleece, the first prize was awarded to C. H. Hawkins and Sons. Total value of fleece, 17/11½. Wool, 56's quality, fair bulk and length, dry in condition. Second prize, C. H. Hawkins and Sons. Total value of fleece, 17/6½. Wool, 56/58's quality; part short in style, dusty in the back, inclined to be wasty.

For the most valuable Shropshire ewe's fleece, the first prize was awarded to C. H. Hawkins and Sons. Total value of fleece, 18/6. Wool, 56/58's quality; fair to good length, carrying a little dust in the back. Second prize, C. H. Hawkins and Sons. Total value of fleece, 18/2. Wool, 46's quality; good style, fair length, very dry in condition.

For the most valuable Down ram's fleece, other than Shropshire, the first prize was won by S. King and Sons. Total value of fleece, 19/- . Wool, 58's quality, dry in condition, fairly bulky, fair to good length. Second prize, S. King and Sons. Total value of fleece, 17/4½. Wool, 58's quality; fairly dry in condition, part irregular in length. Third prize, W. S. Kelly. Total value of fleece, 16/8½. Wool, 56/50's quality, carrying dust in the tip and burr. A little harsh handling.

For the most valuable Down ewe's fleece, other than Shropshire, the first prize went to S. King and Sons. Total value of fleece, £1/0/7½. Wool, 56's quality; bulky, showing fair length and style, but a little harsh handling. Second prize, S. King and Sons. Total value of fleece, 14/4½. Wool, 58/60's quality; fair to good length, dry in condition, soft handling. Third prize, W. S. Kelly. Total value of fleece, 12/7. Wool, 50/56's quality; rather thin in staple, little dust in the tip.

For the most valuable crossbred ewe or wether's fleece of 50's quality or finer, the exhibits were particularly good, and included some very high-class, well-grown wools. The first prize went to Executors of the late C. Beale. Total value of fleece, £1/14/3½. Wool of 60's quality, soft handling, of good length and style, carrying fair amount of condition. Second prize, J. A. Christie. Total value of fleece, £1/13/9¾. Wool, 64/60's quality; very good length, fair to good style, rather heavy in condition. Third prize, Executors of the late C. Beale. Total value of fleece, £1/13/5½. Wool, 60/64's quality; good length and style, and bulk very soft handling.

In the class for the most valuable crossbred ewe or wether's fleece under 50's quality, the first prize was awarded to Senator J. F. Guthrie. Total value of fleece, £1/2/11¼. A Corriedale cross wool of 50/46's quality, showing good bulk, style and length, carrying a little dust in the back.

SWINE.

BERKSHIRES (MALES). BRITISH LARGE BLACKS (MALES).

L. Williams, Claremont Estate, Moonah, Tasmania.

(Complete awards in this Section will be found on pages 44 & 46).

Twenty-five of the leading breeders of Berkshires competed for the coveted honours of the "Royal." The entries being restricted to two in
