

each class from each exhibitor, reduced the total to 66 males, which compares favourably with the 1923 Royal Show in England, which had under 50 entries in the corresponding classes.

In boars over 15 months, 11 competed. The winner won the Championship and also the Empire Challenge Cup, presented by the British Berkshire Society. He is a magnificent animal, long, even and deep, with a particularly fine clean skin, free from coarseness and wrinkles, although he is three years old. He was shown in perfect stud condition; keen, active and tractable, and is a typical Berkshire. The second prize boar is a good useful sort of pig, but is a little wide at the shoulders and slightly low at the tail. The third prize boar is a massive pig that should be a good sire, but an injury to his off ear caused it to droop and affect his appearance. Other good boars were spoiled by being over fat, and although fat indicates a good healthy disposition, it spoils a stud pig.

Champion Berkshire Boar, "Royal" Show, 1924.

"RENROW ASTRONOMER" (4367).

Exhibited by Mr. H. Brewer.

In boars under 15 months 10 competed. The first prize pig was also Reserve Champion. He is a long, neat, even pig, but showed a wrinkle on his off side, which was his chief defect. The second prize went to a nice boar with good legs and feet. His tail was set rather low. The third prize winner was a good-bodied pig, with rather coarse hair, although his shoulder was fine and soft. The "Very Highly Commended" exhibit was a neat pig, but his feet were spread too much. The "Commended" pig was somewhat dumpy, with a plain head and tail rather low, but his shoulders were good and his sides well filled and even.

In the class for boars over four and under nine months, 16 were shown, some being very useful pigs. The first prize winner was of good quality—a typical Berkshire, with fine hair and smooth skin—but his tail was set rather low. The second was an active pig with good

feet, but his off knee was bent. The third was a neat pig, with his tail well up. Some other good-bodied pigs were exhibited, but their jaws showed a tendency to be overshot and spoiled the mouth. Twenty-five boars under four months were judged—the best class in the lot. Many choice pigs, which promise well for the future, were included. They were probably the best 25 ever shown in Melbourne. First prize went to a well-developed, length, even pig, which was closely followed by a really good pig with splendid feet. The third was a good pig, but not so well marked. Some others were excessively fat and showed breaks behind the shoulders, and were good pigs spoiled by overfeeding with rich foods.

In the Sweepstakes class, first prize was awarded to a large boar and sow and a boar under four months—a very creditable trio exhibited by Mrs. R. Lennie. In the Group prize, comprising a boar and two sows, any age, bred by exhibitor, there were nine entries, and six competed. This 10-guinea cup was won by the Reserve Champion boar and the second and third prize sows in their classes. This was a very fine trio that well deserved the prize. It was exhibited by Mr. G. A. Bedwell. The Reserve group contained the Champion sow and another good sow, but the boar was not equal to the sows. This trio was exhibited by Mr. J. T. Bell.

There were two British Large Black boars exhibited. First prize went to a massive, even, English-bred boar just over two years old. He was exhibited by Mr. W. E. Barker, of Bendigo. The second prize boar was a level pig, but rather narrow. He was also bred by Mr. Barker. As this pig is just over a year old, he has time to develop, and should make a useful sire. It is seven years since I judged the last "Blacks," and it is pleasing to see them in evidence again. They cross well with Berkshires and Yorkshires for baconers.

There were no entries in Poland Chinas. Viewed from an average standpoint, I consider the pork and bacon quality of the boars have been well maintained. There was much less "tail" at the Show, but the colour markings require constant watching if breeders are to be able to rely on their purchases at the Show producing progeny that will comply with the true Berkshire standards.

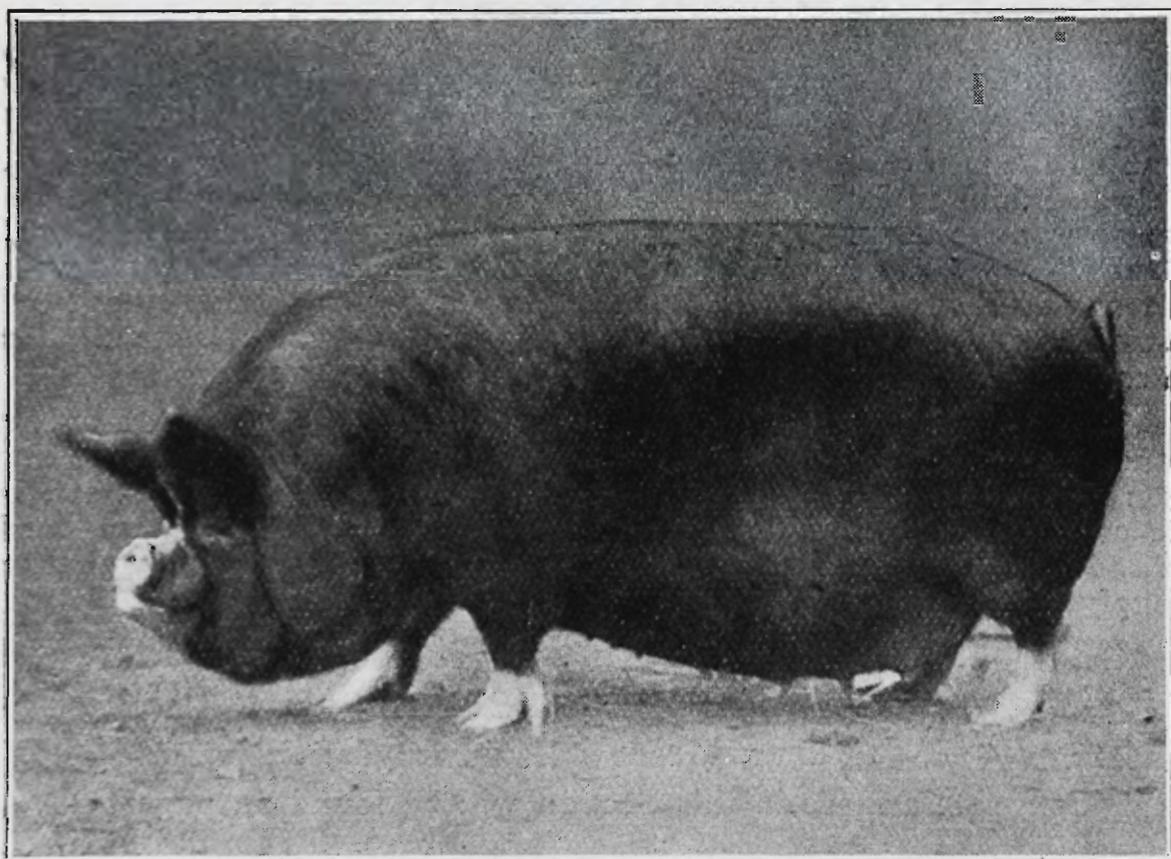

BERKSHIRES (FEMALES).

G. Dair, Meadow Bank, Lilydale.

(Complete awards in this Section will be found on page 44).

Judging in this section was a pleasure, as the quality was high in every class. It is gratifying to find, on returning from the leading agricultural shows in the Old Country that the standard of the Berkshires in Australia holds its own very favourably with what I saw on the other side. There is a slight difference of type; the English breeders favour a longer pig, and seem to have the expensive cuts put in the right place. That is, they have a much lighter-shouldered pig, longer sides and hams well let down. We in this country could do with a much lighter shoulder in many of our Berkshires and a longer side, but we have nothing to learn in the way of putting on a good ham. Our pigs are better in the heads and the tail is much better put on, giving the animal a more symmetrical appearance. The leading exhibits in the female section at the Melbourne Royal this year would, in my opinion, have held their own at the Royal of England and other leading Shows I visited. The first three sows in the sow and litter class were outstanding animals of the right type. Both the first and second sow just escaped having black tails, but they each had a few

white hairs, which qualify if the animal is of outstanding merit otherwise. The litter of the second prize sow could have been better, but the dam was of exceptional merit, which enabled me to put her in the position named. In judging this section, I endeavoured to fix a standard of 60 points for the dam and 40 points for the litter. In the next class—sow over 15 months in pig—10 animals stood out in the final round. Two of these were marked excellent, five very good and three good. The first and second animals gave me a good deal of trouble to separate, both animals having good records—one of which I had awarded Champion in another State—but she had to give way to an animal which was a little finer in the skin. This was the deciding point. They were awarded Champion and Reserve Champion later in the day. The third sow was a very nice animal and unfortunate to be in such hot company. I recommended six tickets to be awarded in this class, the quality of the exhibits warranting this. The class over nine months and under 15 was well up to the standard, but in this and the younger classes there is a strong tendency for many of the breeders to overload their animals with surplus condition, and also to sail too

Champion Berkshire Sow, "Royal" Show, 1924.

"HETTIE OF YARRA" (5186).

Exhibited by Mr. J. T. Ball.

closely to the line of age limit. Many animals of merit had to be put down for in-bent knees, being down in pasterns and break behind shoulder—all of which were caused by overfeeding. Over-fed animals, in my opinion, should not be encouraged at our agricultural shows. As a rule, they give poor results as breeders, and, after all, most of the animals shown are for breeding purposes. It is necessary to have what we call Show bloom, but it is not a fat stock Show, and as long as the animal is in good breeding condition, it should be given the preference, all other points being equal. Class 4 months and under was the strongest of the day. Of the 12 best, one could be marked excellent, eight very good and three good. The leader in this class was by no means the largest, but a good quality animal and shown in the right

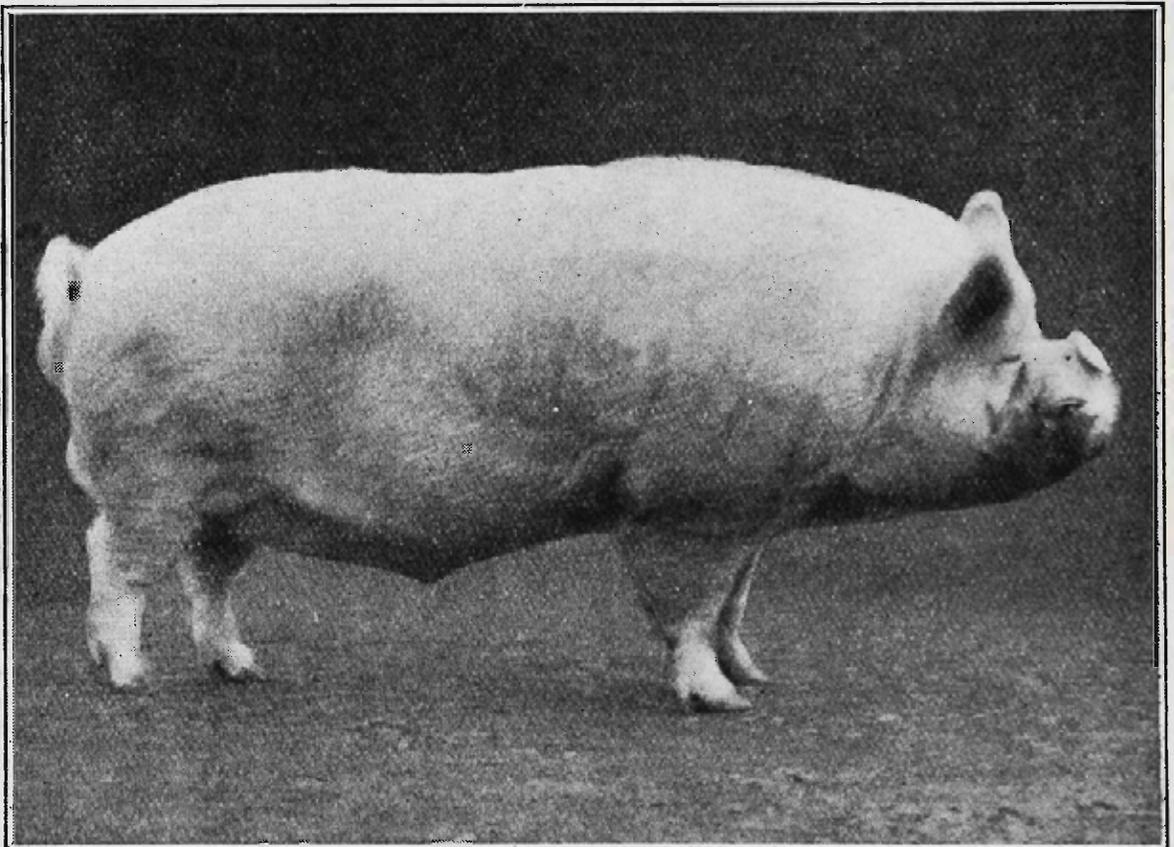

condition. She was good on her legs and looks like developing into a nice pig. The second was shown in store condition, but has all the appearance of coming into the field another day and maintaining form. The third was much of the same type. The fourth was the best pig in the class until paraded, when the result of high condition told its tale. She was badly down on her pasterns. The day after judging, it was arranged that the judge should meet the exhibitors and give the reasons for his awards. This was evidently appreciated by the breeders, who, through the President of the Berkshire and Yorkshire Society, asked me in my report to convey to the Council of the Royal Agricultural Society their appreciation of the step taken. During the discussions that ensued many points of interest were raised, and at times arguments were warm. Naturally, when a judge takes this on, he must be prepared to meet the disappointed exhibitor.

YORKSHIRE (MALES), GLOUCESTERSHIRE OLD SPOTS
(MALES) AND TAMWORTHS (MALES).

F. E. Kurrle, Korumburra.

(Complete awards in this Section will be found on pages 45 & 46).

In the class for aged boars there were nine entries, all of very fair quality, but rather of mixed types. The first prize and Champion pig was a good lengthy pig; sound in his legs, with good hams and middle, but inclined to be a little coarse on the shoulder, and he stood rather high in front. The second prize pig was very even; rather on

Champion Yorkshire Boar, "Royal" Show, 1924.

"STRATHARDLE JONATHAN" (2324).

Exhibited by Mr. J. Smith.

the short side, and not too good on his feet. The third prize pig was a good lengthy animal, but altogether too heavy on the shoulder. Boars under 15 months old were rather weak, only eight being penned. The first prize winner stood out very prominently. He was a very even pig

all through, and quite easily the best in the class. The second prize boar was well grown, with plenty of length, but inclined to be "leggy." The third was a much younger pig than the other two, and not quite up to their quality. There were 21 boars over four months old and under nine months penned, and they were by far the best class in the male section. The first prize pig was an easy winner. He was the youngest in the class, but a real typical Yorkshire, with plenty of length, fine bone and good middle and hams. The second and third winners were both good pigs of very even quality, and there was quite a number of other good boars in this class.

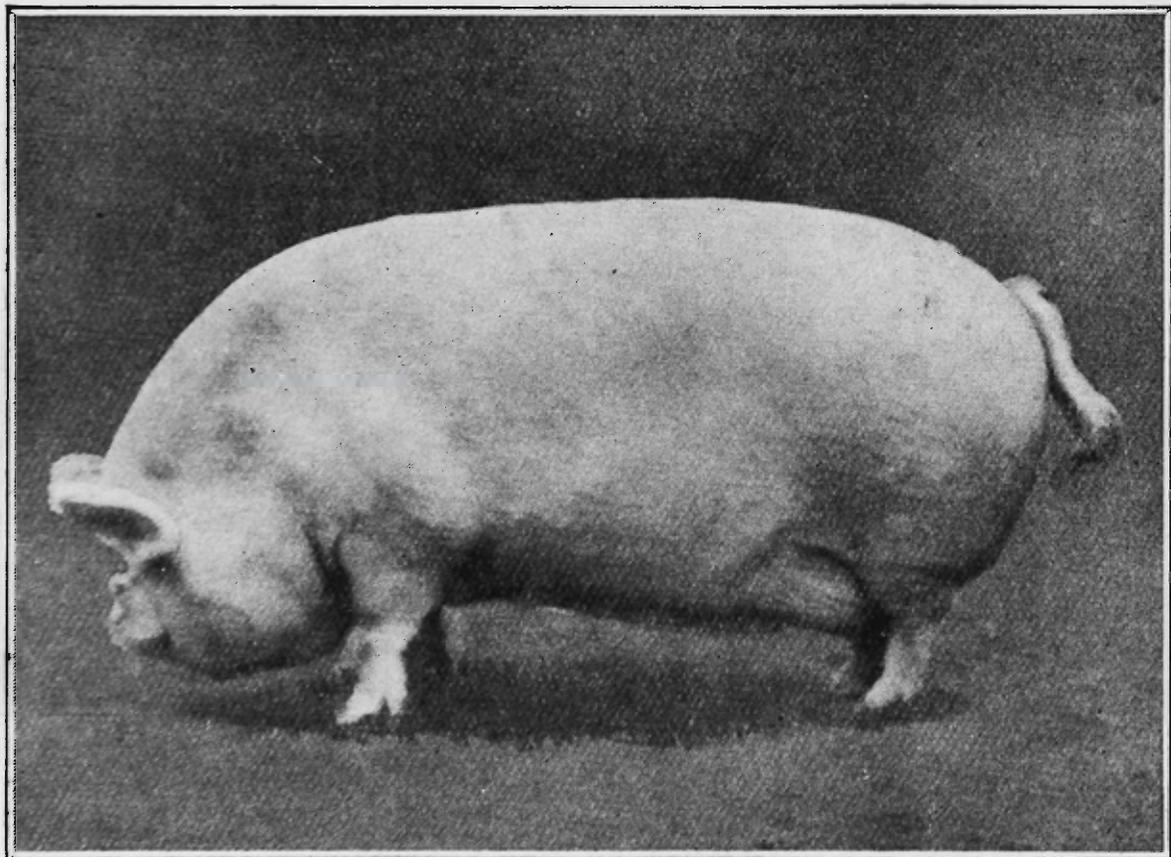

Boars under four months were very weak, only seven being penned, and not up to the quality usually seen in this class. Large Yorkshires, Tamworths and Gloucestershire Old Spots were very poorly represented, there being only 10 in the five classes, but there were a few very fine animals amongst them and quite up to Show standard.

YORKSHIRES (FEMALES), GLOUCESTERSHIRE OLD SPOTS (FEMALES) AND TAMWORTHS (FEMALES).

P. J. Miller, 410 Neil-street, Ballarat North.

(Complete awards in this Section will be found on pages 45 & 46)

There were some very fine types of the Yorkshire amongst the aged sows, also in the 15 months and under class, but in a lot of cases I noticed they are inclined to be breeding them too short, which is a very bad fault, and I would impress upon breeders to try to breed to a longer type of pig.

POULTRY.

LEGHORNS.

G. E. Brown, Linacre-road, Hampton.

(Complete awards in this Section will be found on page 46).

The Leghorn classes were numerically strong, which points to their continued popularity, though it is to be regretted that, with increased numbers, there were not more meritorious specimens on view. Present-day White Leghorn males are wanting in type, possessing short thighs and appearing low. Females are short in back and not the required wedge shape. In both sexes lobes could be larger and of more substance. Many of the males were heavy in comb, but there is a decided improvement in the combs of the females, the winning hen possessing a graceful fold with correct "hang," and in colour a brilliant red. In the adult brown males I had no option but to eliminate all dark cocks from the awards, but there were sufficient cockerels approximating to the English standard of light colour, the winning Blue Ribbon cockerel being good in every way, including a neat, shapely and well-fitting comb. Brown females were uniform in type and colour, but size could be increased with advantage. Breeding trios in the brown variety were disappointing. The female consorts in the cockerel strain were woefully short of shapely combs, and in the pullet strain the male consort was glaringly faulty in face, these faults being, in my opinion, sufficient to hold out but little hope that exhibition specimens could be produced from such in the succeeding generation—or half a dozen. Blue Leghorns are on the down grade, both in numbers and quality, but deserve recognition, as it is the popular belief that they are the hardest to correctly breed. In A.O.V. classes a few Buffs appeared, but failed in size and colour, while Rosecombs had huge and overhanging combs, causing "sight obstruction."

PIGEONS.

FANCY PIGEONS. (PART I.)

OTHER THAN TUMBLERS, SHOW HOMERS, DRAGOONS,
POUTERS, CARRIERS, NUNS, ARCHANGELS,
JACOBINS AND FANTAILS.

G. Heath, 14 Railway-road, Glenhuntly.

(Complete awards in this Section will be found on page 53).

The pigeons exhibited at the Melbourne Royal Show were up to the usual high standard, and would compare favourably with the best in Australia. The Pigeon Pavilion looked better than ever, everything being clean and tidy. It had a very smart appearance. There was a fine display of Dragoons, some inter-State birds being penned, which made the competition keen and interesting. The Jacobins were the best I have seen penned, and proved a difficult task when one was looking for the winners. The Long-faced Tumbler classes were well filled and the competition keen, some splendid specimens being penned. The Baldheads were amongst the best varieties in the Show. The Show Homers were up to the usual high standard. There were not many entries, but those shown were good. A young Show Homer won the Cup for the best young bird in the Show. I noticed a great improvement in the condition of the birds shown this year. With very few exceptions, they were penned in proper condition.

WORKING HOMERS.

G. Laphorne, 168 Hampton-street, Brighton.

(Complete awards in this Section will be found on page 63).

In the Blue Black Cock Class the first prize winner was one of the best working homers I have had the pleasure of handling, and was easily the winner. The Blue Hens were not as good as I expected, but I presume some of the fanciers kept their best at home on account of breeding. Blue Chequer Cocks comprised another fine lot of birds, of exceptionally good quality and very little between the prize winners. The Blue Chequer Hens were not very good, but the Red Chequer Cocks were a grand lot. The winning Red Chequer hen stood out alone in her class. She is an excellent pigeon. The Pied Cocks were also very good, as was the case in all cock classes, very little separating the three placed birds. I must congratulate the exhibitors of the pied hens on the way they showed the birds. The "Any Other Colour" Cocks were very poor, but the winning hen was really good, although strictly speaking, she should have been classed as a Pied, as she showed pure white on the hocks.

DOGS. 1924.

(DIVISION B.), SETTERS, POINTERS, DEERHOUNDS
AND ANY OTHER VARIETY.

M. R. Gawen, Poath-road, Murrumbena.

(Complete awards in this Section will be found on page 58).

A particularly pleasing feature in the canine section of the 1924 Show was the large aggregate number of gun-dogs shown, the many and varied classes being unusually well filled. The quality of the exhibits taken as a whole may be put down as very satisfactory, abundant evidence of careful breeding to modern type being manifest in the great majority of dogs brought before me, and in many instances it was plainly to be seen that great attention had been bestowed on their condition by their owners. Unfortunately, there were cases in which the contrary state was very apparent, and I was regretfully impressed with the fact that a large number of Victorian exhibitors badly need a sharp lesson in this respect. Glaring neglect of this kind is always detrimental to the prospects of an exhibit and is almost tantamount to disrespect of the Judge and the Society he is representing. It was pleasingly noticeable that while English Setters predominated in the Setter Classes, a revived interest is evidently being taken in Irish and Gordon, two or three specimens of each of the latter breeds being an advance on what has been shown here for some time. The honour takers in both Pointers and Setters were typical examples of the accepted show-bench dogs of our day, and I think would compare favourably with anything seen out in recent years. As evidence of the widespread interest taken in these dogs, I may draw attention to the large concourse of people gathered round the judging ring during the many hours they were before me, and I feel sure, relying on the inherent sporting instincts of the Australian, coupled with increasing population, the future popularity of the gun-dog is bound to increase and is assured beyond doubt.

PRODUCE.

OATS, BARLEY AND PEAS.

J. Hill, 61 Avoca-street, South Yarra.

(Complete awards in this Section will be found on page 66).

It is a pity that more farmers could not be induced to exhibit in the Produce Sections, as in my opinion none of the classes judged by me fairly represented the oats, barley and peas grown by our Victorian farmers. Possibly Country Societies might be induced to get their members to display more interest in these classes and so see that the grain which plays so important a part in our agriculture should be adequately represented at the premier Show of the State.

MAIZE.

H. James, Orbost.

(Complete awards in this Section will be found on page 66).

The number of exhibits was disappointingly small considering the importance of the industry.

The first prize for bushel of Yellow Dent Maize went to a very fine exhibit of maize, well developed grain in good condition; but it was of a type not very favourably regarded by maize growers generally, being a long thin grain, with a drawn-out and rough dent. This was described by the exhibitor as Gold Mine, a variety not very well known. If intended for Iowa Gold Mine, the exhibit was not true to type. In the section of 12 cobs, Yellow Dent variety, the first and second prizes were awarded to very nice exhibits, which were also described as Gold Mine. These exhibits resemble Iowa Gold Mine, but are more like the variety known as Sibley. Both these exhibits were good, but could be improved upon. The exhibit taking first prize in the flint maize class was very good in every way. Sugar maize was also good. The other exhibits call for no special mention.

SUGAR BEET.

P. R. Scott, Department of Agriculture, Melbourne.

(Complete awards in this Section will be found on page 67).

The quality of the roots generally was not up to the standard that might reasonably be expected. They were by no means first-class specimens, and offered considerable room for improvement in percentage of sugar content and shape. As regards size, they were somewhat on the large size, as roots between two and three pounds in weight usually return the highest percentage of sugar. Roots entered for exhibition should be matured and should have as little crown as possible, i.e., the portion of the root that has not been covered over with soil. There should be a minimum of forking. The first essential is a deeply cultivated soil. Some varieties have long tapering roots, while others are more dumpy. In order that the roots may develop in the soil it is essential that the soil should be loose and friable to a depth of at least 18 inches, otherwise the root as it grows will be forced upward out of the soil and there will be a tendency to fork into several smaller tap roots. Although the harvesting season for beet is in the autumn, it should be possible to store the roots by pitting them for exhibition at the Show.

FARM PRODUCE (Except Cereals and Potatoes).

Hugh Pye, Dookie Agricultural College, Dookie.

(Complete awards in this Section will be found on page 67).

In the Farm Produce Section there was a general improvement in quality of the exhibits. One striking feature, however, was the paucity of exhibits in some of the classes. Considering the earnestness in which the Royal Agricultural Society endeavours to encourage the farmer to grow more products of the highest quality, it is a reflection on the enterprise of the farming community that so little enthusiasm has been shown. I believe it is of national importance that the spirit of emulation should be more in evidence. I believe there is hope for the future in this regard as the younger generation is taking more interest in seed selection and improvement. The effort of the Society to encourage district pride by soliciting the co-operation of country Agricultural Societies in securing worthy exhibits in the Farm Produce Section is a splendid one, and all interested in the State, trust that there will be a hearty response.

The root sections at the recent Show were particularly good in quality, the mangels especially being more uniform and of excellent quality. The silage section was better than formerly, and the competition was close. But for the fact that the number of exhibits scarcely warrants it, the maize silage would be better differentiated from that made from oats, barley, etc. This applies to stack silage and that made of unchaffed fodders. Often farmers cannot spare the time for chaffing fodder, yet by pitting in an excavation in some dry situation, a good standby is made for drought conditions should they arise. The collection of grasses seems to take on more the character of a botanical exhibit than a farm product. The same specimens of grasses, in some instances, are exhibited year after year, and I believe no inspiration is given to improving the quality of the grasses, or fostering intelligent interest by the nature of the exhibits, and the public have little opportunity of seeing and studying the specimens. On the other hand, if the grasses were specially grown for the purpose of studying the grasses, and exhibiting them with notes attached, some practical achievement would likely result. These observations only apply to the Farm Produce Section, not to the School exhibit.

There are a few young farmers who are directing their attention to the improvement of pasture grasses, and possibly some encouragement may be given to stimulate their interest in this important matter.

The competition for the prize for the "New Farm Product" seems to be little availed of. There should be better representation in this class, but only one exhibit was staged. The settlers on the irrigation areas should have fine opportunities of developing side lines of some new products for which there would be a limited demand at least, and possibly a greater one created.

There is scarcely any need to particularise exhibits in the other classes. They were, as mentioned, very good, but too few.

POTATOES.

J. T. Ramsay, Department of Agriculture, Melbourne.

(Complete awards in this Section will be found on page 68).

The one noticeable feature was the marked reduction in the number of entries as compared with previous years. This, no doubt, was contributed to by the extra rank growth of the crop on account of the heavy rainfall during the growing period last season, in making it difficult for

growers to secure specimens of moderate size and good quality suitable for competition. However, the exhibits that were staged were of a high standard, and it was noticeable that in the most important class of the lot, namely, the boxed sprouted seed potatoes, a fair number of entries was received, and considerable interest was shown in this class by those persons interested in the industry.

DISTRICT COMPETITIONS.

(a) CEREALS, GRASSES, OTHER GRAINS AND SEEDS, FLOUR, MEALS, HAY, CHAFF AND SILAGE.

A. C. Drevermann, Longerenong College, Dooen.

(Complete awards in this Section will be found on page 68).

The exhibits displayed by the two competing societies, Sale and Whittlesea, were of a comprehensive nature and afforded an excellent opportunity for the public to see the products grown in those districts. On the whole, the exhibits were first-class, and there was really very little to choose between them. The greatest difference was noticed in the sample of silage, that of Whittlesea being of good quality, while the sample from Sale was mouldy and practically useless. I pointed out to the gentlemen in charge that it would be more satisfactory if the silage were left in the silo until the day prior to judging and submitted in the same condition as given to stock.

Taking the exhibits all through, I think there was an improvement over those of the previous year, and it is regretted that there were not more entries in such a useful competition. I understand that Korumburra and Warrnambool are likely to compete at the next Show.

(b) DAIRY PRODUCE AND FOODS.

G. H. Deeley, Elliott-avenue, Murrumbeena.

(Complete awards in this Section will be found on page 68).

I was pleased to note that the pack and finish of the butter exhibits were far above past years' standards, also a great improvement in moisture and texture. The flavour was good, but still there was room for improvement. Cheese also was much improved in the finishing, but the flavour could be brought to a much higher standard. Texture was good, but colour could be better. Bacon and Hams were splendid. In one section, however, the flavour should have been improved. Bread, Scones, Cakes and Confectionery were of a very high standard and deserve great praise.

(c) FRUITS, VEGETABLES, ROOTS, &c.

J. Milburn, "The Grange," Keilor.

(Complete awards in this Section will be found on page 68).

In the Whittlesea District Exhibit the standard of the fresh fruit was well up to previous years, being sound and clean and well grown. The fruit was well graded—colour, size and quality were an improvement on the previous year. The roots were exceptionally well grown and received the maximum number of points.

In the Sale Exhibit the fruit was well grown and looked well, but would have been improved had there been a few more varieties. They also showed signs of bruising. The citrus fruits improved the appearance of this exhibit. The roots from this district were well grown, but there would have been an improvement with more varieties. The sugar beet was well represented. The Warrnambool District has made an excellent start, and I was much impressed with the quality of the exhibits displayed.

(d) PRESERVED FRUITS, JAMS, JELLIES, PICKLES AND SAUCES.

Miss A. Knight, Horticultural School, Burnley.

(Complete awards in this Section will be found on page 68).

There was a very good collective exhibit of general preserves on the pyramid in the Whittlesea display, including marmalade, jellies, pickles and sauces, dried fruits and honey. Also on a separate pyramid some fine preserved vegetables. Most of the bottled fruits were very good, though the contents of a few prominent containers had not such a fresh appearance as those previously exhibited by this district. The conserves and jellies were very good. The exhibit contained a large collection of pickles and sauce; the majority of the former were put up in a "mustard dressing," and were well made and nicely flavoured. For exhibition purposes, I would suggest that more of the "clear pickles" be put up in place of the mustard. These, if attractively mixed and well packed in the jars with light vinegar, would tend to brighten the display considerably. The dried fruits were rather dark in colour. The honey was very good and well displayed.

In the Sale exhibit there was a nice collection of bottled fruits, mostly of good quality, evenly graded and well packed. The marmalade and conserves were very nice and also clear in appearance and neatly sealed.

The pickled vegetables could with advantage be very much more varied. This would not involve much work and would make a more effective display. The dried fruit collection was small. Honey was very good and well displayed.

(g) WOODS.

D. Ingle, Forestry Department, Treasury Buildings, Melbourne.

(Complete awards in this Section will be found on page 68).

There were only two exhibits, and there was no difficulty in deciding which was entitled to the greater number of points. The Whittlesea District showed what I consider a proper appreciation of what is evidently the Royal Agricultural Society's object in providing a section for timber exhibits by sending in different species showing their samples both "in the rough and dressed" in the same piece, and also in section ready for commercial uses. Some of the other exhibits were old, cracked and also showed faults through decay, and generally were not up to commercial standards in sizes, etc. I suggest that exhibitors should be expected to make a feature of specimens of commercial value in addition to these of merely botanic interest.

STATE SCHOOL COMPETITIONS.**(a) FODDER CROPS, GRAIN, POTATOES AND HORTICULTURE.**

C. E. Isaac, Noble Park.

(Complete awards in this Section will be found on page 68).

The classes for potatoes were the most keenly contested, and the quality was exceptionally good. In grains and fodder crops the exhibits were up to the usual standard, both in quality and quantity, and reflected credit on the teachers and children responsible for them. The classes for horticulture were new and not as keenly contested as the older classes, but some interesting and creditable exhibits were shown, particularly in budding and grafting. The classes for trees and shrubs under

horticulture seem to overlap similar classes under forestry, and some re-arrangement could probably be made with advantage. Considering that this was the first year for these classes, the entries were satisfactory, and it is probable that horticulture will soon occupy a prominent place in the State Schools' Section.

(b) FORESTRY, FRUIT TREES AND VEGETABLES.

W. H. Callister, Shepparton.

(Complete awards in this Section will be found on page 68).

In the class for three trees distinct varieties (native to Australia, exclusive of Eucalypts and Acacias), competitors err by including shrubs, which are not accepted as trees

In the class for three trees distinct varieties (not native to Australia exclusive of Conifers), competitors are often disqualified for showing trees (or shrubs) that are native to Australia. These mistakes are not made in the eucalypts, conifers and acacias, but in these classes trees are shown that are unmistakably over the age limit.

The stipulation, "Ready for transplanting," carries much weight in this section, and trees over two years old are not so suitable as trees under that age. On the whole, the exhibit was a good one, the trees being well grown with abundant foliage, clean and healthy.

The collection of citrus fruits was a good one, and was awarded first prize. A collection of miscellaneous fruit, though originally of good size and quality, was not well preserved. The exhibit of dried fruits was first-class and fit for export.

In the vegetable section there was a better display than usual. Carrots, parsnips, onions, leeks, marrows, etc., were very good; but in red beet growers do not appear to get good seed. Fine specimens to outward appearance show alternate rings of red and white in cross section, indicating that the seed had been crossed with mangels. The prize is always awarded to the beet that is dark red throughout.

(c) FORAGE AND ROOTS, GRASSES, CLOVER, HONEY, FLAX, COTTON AND TOBACCO.

W. F. Friday, Agricultural High School, Sale.

(Complete awards in this Section will be found on page 69).

The forage and root exhibits were of good quality and were well preserved. As many of the mangels were of large size, the plots must have been prepared in a proper manner. The sugar beet was much better than last year's exhibits. Some of the specimens were well shaped, but many were very faulty. Where possible, exhibitors should state the variety of beet shown. It is not sufficient to label it "sugar beet."

The specimens of introduced grasses were very fine. Most of them were well preserved, and were of excellent quality. The great height to which they were grown was evidence of a splendid growing season. A few exhibits were in a rather rough state, but most of them were very well staged. In some cases the competition was very keen.

The few exhibits in native grasses were very good indeed, and were well prepared for show purposes. They were of great length also. Teachers should encourage their pupils to make collections of native grasses.

Clovers and lucernes of good colour and quality were shown; there was good variety amongst the exhibits. If possible, exhibitors should show fine stems in preference to coarse ones. Feeding value must be taken into consideration. The exhibits in flax were limited in number, and the quality was only fair.

As usual, splendid specimens of honey and wax were shown. In some cases the colour was not as good as that of last year's exhibits, but in other respects the high standard was well maintained.

No exhibits of tobacco and cotton were staged, but I have been informed that exhibits will be forthcoming for next Show.

DAIRY PRODUCE.

CHEESE.

G. C. Sawers, Live Stock and Dairy Branch, Department of Agriculture, Melbourne.

(Complete awards in this Section will be found on page 70).

The cheese entries were much larger than has been the case for several years. Although the number of factories represented was not very great, the quality, taking it all through, was very good indeed, and made up for the deficiency in the number of exhibits shown. The prize winners were excellent. All through the competition was very keen between the different factories, as a reference to the points indicate. As a matter of fact, there was very little inferior cheese staged; a few were found to be rather weak in body, and consequently lost points. The quality of the product was very fine in the export class, only half a point separating first and second prize lots, the second exhibit, being made from pasteurised milk, was very clean in flavour, but insipid, and did not possess the aroma, as it is much slower in maturing. The bodies and textures and finishes were a credit to the makers, and the clean appearance was worthy of comment.

BUTTER.

P. J. Carroll, Rialto, Collins-street, Melbourne.

(Complete awards in this Section will be found on page 70).

The exhibits of butter were of a very satisfactory character, both in regard to number and quality. In the export class there were 24 entries, as compared with 8 for the previous season, and in the other classes the improvement represented quite 100 per cent. There is still room for further expansion, and I am hopeful now that the spirit of competition has caught on that the number of entries will keep increasing.

To one who is constantly in touch with the butter producers, it was a source of great satisfaction to find the standard of quality and manufacture of the butter for exhibition on such a high level, and this is quite in keeping with the progress that is being shown in the industry generally.

The adoption of pasteurisation throughout Victoria has wrought a considerable change for the better in the quality of butter now being manufactured for export overseas, and as an evidence of the benefit such treatment has in regard to the keeping quality of butter, I want to refer to the average gradings of the export butter prior to going into store, and, subsequently, six weeks later. The first grading averaged 95.04 points, and the second 94.44 points, thus showing a loss representing a deterioration of 0.60 points only. In this competition there

was not one single box of butter at the final examination which scored below choicest flavour; that is, the whole exhibit was absolutely free from taint or contamination of any sort. Butters such as these cannot but reflect favourably upon the reputation of Australian butter abroad, and notwithstanding the damaging reports made in regard to the quality of Australian butter in London (very often by persons not qualified to judge), I feel perfectly certain that the quality of our goods deserves better recognition than it gets on the London market. In regard to the situation of exhibits at the recent Show, I drew the attention of the steward to the exposed position of the butters on the benches inside of the entrance door. I found when the sun was shining there, several of the butters were affected by the heat. The light is also injurious. I would suggest that as the cheese exhibits would not suffer to the same extent as butter, that the positions be exchanged, and the butter be placed at the eastern end of the pavilion.

In regard to Class 1278, I would suggest that in describing this class the words "Fresh Powdered Butter" be omitted, and simply describe it as "One box of 56lbs. lump butter, without print or private mark, and suitable for local trade." When communicating with some factory managers in New South Wales, with a view to inducing them to exhibit at the Show, my attention was drawn to this description by several of them as being obsolete. I would, therefore, suggest that it be omitted in future catalogues.

In regard to demonstrations at future Shows, I am of opinion that until such time as the exhibits assume large enough dimensions to warrant a special building, if the butters are staged in the position suggested by me, and a little more room left in front of the stands, provision might be made there on two or three mornings during Show for lectures and demonstrations, without in any way obstructing the progress of the Show in that pavilion. It may be necessary, perhaps, to erect a movable partition or screen, embracing the butter exhibits with sufficient room for those who are interested to attend.

BACON, HAMS, LARD AND EGGS.

H. Pope, C/o R. G. Wilson & Co., Elizabeth-street, Melbourne.

(Complete awards in this Section will be found on page 70).

I give Mr. George Farmer great credit for the fine way he prepared his goods for the Show bench. If he had had the world against him instead of only one other competitor, he could not have displayed a better all-round collection. Therefore, I awarded the possible 100 points. I can safely say that for quality and flavour, Farmer equals any of the finest Wiltshire, Irish or Danish curers. The Australian baconer is certainly a little undersized compared to that of other countries, but for flavour is quite as good.

WINES (GROWERS' CLASSES).

A. Cullen, "The Tuileries," Rutherglen.

(Complete awards in this Section will be found on page 71).

Most of the wines exhibited in the growers' classes were of satisfactory quality. The winning light dry red wine was of a high standard, but the second was a little too heavy in body. The full-bodied red wines were a good lot, though some were dark in colour.

The majority of the red sweet wines were of clean flavour, and should make ports of high class. Six very good wines were shown in the muscat class. These were much lighter than those of last year, but were very clean and sound.

FRUITS.

APPLES.

James W. Bailey, Narre Warren.

(Complete awards in this Section will be found on page 73).

The quality of the fruit was not up to the usual standard owing, no doubt, to the unseasonable weather during the previous autumn. The pyramids were well staged, competition being keen in this class. I might suggest that the competitors be allowed to exhibit in their own design, which would be an incentive to further effort. I would also suggest that the pyramids be judged on the scale of points submitted by the Cool Stores' Association of Victoria, and that the points be placed in a prominent position on each exhibit. This, to my mind, would have an educational value, both to exhibitors and the general public.

APPLES.

J. Smedley, Yarra Glen.

(Complete awards in this Section will be found on page 73).

The fruit that was staged was, on the whole, first-class, and most of the exhibits were of excellent quality and well coloured. The pyramids were got up to perfection, although one or two were somewhat lacking in design.

PEARS.

F. W. Vear, Burwood.

(Complete awards in this Section will be found on page 73).

I do not think one could improve on the arrangements made for exhibitors in the Fruit Section. The prizes offered are generous and the staging good. I do not like judging by points. It is very slow, and one only arrives at the same position after tedious details. There is some value in having a few general lines to work upon. That, however, should be left to the discretion of the judge. The value of displaying the points awarded as supplying information to the exhibitors is discounted somewhat by the fact that they are as a general rule "old hands" at the game, and can see at a glance the merits of the judging or otherwise.

PEARS.

A. F. Thiele, Doncaster.

(Complete awards in this Section will be found on page 73).

I found that the exhibits of fruit were very fair considering the abnormal season, which caused the fruit to be very soft and spongy, and consequently of poor keeping quality. This, no doubt, would account for the smaller entry. Sydney, of course, will always be able to put up a better display of fruit through holding their Show during the season when the fruit is fresh and in full swing.

CITRUS FRUITS.

S. A. Cock, 80-81 Helen-street, Upper Hawthorn.

(Complete awards in this Section will be found on page 74).

The citrus exhibits at the Royal Show this year, although not so numerous as last year, were of excellent quality, and for Washington Navel Oranges there were 10 competitors. The winner gained 88½ points of the maximum 100. Five entries were staged for Valencia

Late Oranges, the winner gaining 94½ points. For common (seed types), Mediterranean Sweet gained 93 points. There were only two competitors for Grape Fruit, both of which staged excellent fruit. Mandarins did not bring more than three competitors. This is due largely to an unfavourable season in Victoria for this fruit. The fruit shown was of good type and quality, the winning exhibit gaining 93½ points. In the section devoted to lemons there were only four entries. In this section competitors failed to name the variety of the lemons exhibited, fresh and cured lemons also being exhibited. Altogether, the lemon section was disappointing, and considering the quantity of lemons grown in the State and the number of growers near to Melbourne, a much better display should be made. I would suggest that the lemon section be divided into classes, fresh and cured, and in all sections of citrus exhibits make it imperative that all fruit exhibited shall be named. The purpose of the Show is educational, and certain marks are allotted for correct naming of varieties. In the District Collection, only three exhibits were staged, and Curlwaa (last year's winners) were again successful, winning by the small margin of 1½ points from Riverside. Points scored in this section were as follows:—

	Quality	No. of Varieties	Design	Correct Naming.	Total.
Maximum	40	30	20	10	100.
Curlwaa	40	29	15	9	93
Riverside	37	30	16	8½	91½
Tresco	36	6	18	10	70

Last year there were six competitors in this section. In the State Competition only one exhibit was staged. This was very disappointing, as it was understood that New South Wales and South Australia would certainly compete. The exhibit put up by the Victorian Central Citrus Association was of excellent design, and gained 88 points of the maximum 100. I would suggest that next year this State Section be discontinued, and the District Competition be altered to include all district associations' members of the Central Associations of any State. This will cover the two sections included this year, and should be conducive to a very good entry.

DRIED FRUITS, NECTARINES AND GRAPES.

R. A. Christian, 14 Queen-street, Melbourne.

(Complete awards in this Section will be found on page 74).

The dried fruits exhibited this year were of good quality, but only the highest grades of currants and sultanas, viz., Four Crown, were shown. The colour was excellent, and in future the curing should be taken into consideration by the judge. I would suggest that next year the Society provide better accommodation for showing these exhibits.

APICULTURE.

F. R. Beuhne, Department of Agriculture, Melbourne.

(Complete awards in this Section will be found on page 74).

The entries in the apiculture section were most disappointing. I am at a loss to account for the apathy of honey producers in not availing themselves of the opportunity of advertising their industry, which is of much greater magnitude than the display at the Royal Show would suggest. From conversations with apiarists, I infer that the prevailing opinion is that no business advantage results to the individual exhibitor from showing. From the point of view of this Department, it is highly desirable that the bee-keeping industry should

be well represented at the Royal Show, and I would, therefore, suggest that arrangements be made for including in the prize schedule a collective exhibit, something on the lines of the district exhibits. There are several branches of the Victorian Apiarists' Association, and it may be possible to create competition between the different districts.

WOMEN'S INDUSTRIES.

PLAIN NEEDLEWORK.

Mrs. Harvey Smith, Upper Beaconsfield.

(Complete awards in this Section will be found on page 74).

Very keen competition was again shown in plain needlework. Year by year the standard in this section has been raised. On the whole, the buttonholes were excellent, the home dressmaker showing good taste as well as neat finish, particularly in the "One Woman's" exhibit. The trousseau sets were rather elaborate. I am glad to see that entries in the classes for knitted socks have not fallen off. The knitting was good, but in many instances the shape was bad. Great variety was shown in knitted and crochet dresses and jumpers, some very handsome patterns being introduced. They were well worked, and the colouring was in good taste. Millinery is improving each year. Articles made out of material costing not more than one shilling show surprising ingenuity on the part of the exhibitors, who deserve high commendation.

The dressed dolls in wool were particularly well done, every detail being observed.

I would like to offer a word of encouragement to the unsuccessful exhibitors to persevere, as in many instances the work was so well done that only a few points separated them from the prize winners.

FANCY NEEDLEWORK.

Miss O. Voullaire, 46 Millswyn-street, South Yarra.

(Complete awards in this Section will be found on page 75).

I was pleased at the marked improvement in the fancy needlework section this year, especially in the collections of both coloured and white embroideries. The new varieties shown this year must, I feel sure, appeal to those who are true lovers of good art needlework. I was especially delighted to see that to a certain extent new designs replaced the so oft repeated ones of former years. This was perhaps most noticeable in the Richelieu work, in which there was also a marked improvement as to method of working, though a few of the exhibitors still failed to work the connecting bars of their pattern before starting on the scalloping. Of course, there are one or two items which were disappointing. Among these were: Lady's prettiest hand-bag, of which there were several entries, but not one that could really be called pretty. The "smocking," of which there was only one entry, —a baby frock—though the smocking was fair, the rest of the embroidery was shockingly done. I noticed that in the crochet work one lady is trying her best to introduce a little originality into her work by means of appliqueing flowers and birds on to the background. I say to all exhibitors: Go and do likewise! By this I mean, try to put something original into your work, be it in design or in the variation of your stitches, or in any other way. Originality, new work, new designs, will be to judges, workers and public, more than welcome and hailed with delight. Women of other countries do it, why not you? Try it, put your mind to it, and you will see how much easier it is than you thought, and, above all, how interesting!

FOODS.

Miss F. Pell, 98 Wellington-street, St. Kilda.

(Complete awards in this Section will be found on page 77).

As a whole this section is a very fine one, embracing as it does nearly 400 entries, and speaks well for the skill and interest shown by the women folk from all parts of the State. The bread was particularly good, there being fifteen single entries. The yeast buns were a very poor lot. The cake making examples were a credit to any country, and the sponges, including Swiss rolls, also the rich fruit cakes, of which there were twenty-seven fine specimens, would be hard to beat in any Show. Shortbread, as usual, kept up its high standard, and cheese-straws stand out in showing marked improvement in flavour and daintiness. The sweets section is growing apace, both in increased number of entries and in the quality and finish. Some entries were works of art as well as tasty in flavour. Fruit bottling and preserving, including jams and jellies, were as usual a pleasing feature in the exhibition.

The Drill Hall being used this year gave more working and showing space, but of course was far from ideal as regards dust and position. This women's section of the Show should have a brick building on a par with the Government Agricultural Hall, as it plays a big part in this wonderful Show. The work is splendidly organised, and the stewardesses prove always most helpful and gracious.

SHEEP DOG TRIALS.

J. Moses (Manager), Yarraview, Lilydale.

(Complete awards in this Section will be found on page 81).

The Sheep Dog Trials were again attractive as an arena event, the performances of each dog being followed with much interest.

The slight alteration made in the placing of the race was a decided improvement, and the work accomplished by the dogs was of a higher standard than last year.

The Royal Agricultural Society OF VICTORIA

ALPHABETICAL LIST OF SUBSCRIBERS, 1924.

RULES.

1. The Society shall be called **The Royal Agricultural Society of Victoria.**

2. The objects of the Society shall be to promote the development of the Agricultural, Pastoral, Horticultural, Viticultural, Stock Raising and Industrial Resources of the State—

- (1.) By holding Exhibitions at such places and times as the Council shall appoint; and by offering and awarding prizes and premiums at all such Exhibitions, if deemed desirable.
- (2.) By holding meetings for the purpose of popularising rural life and disseminating knowledge of improved methods and new ideas in relation thereto.
- (3.) By corresponding with Agricultural and other kindred societies, and collecting information for the furtherance of the objects of the Society.
- (4.) By promoting the discovery, investigation, and introduction of improved kinds of agricultural implements and machinery, the better equipment and construction of farm buildings, the application of chemistry to the general purposes of agriculture, the destruction of insects injurious to vegetable life, and the eradication or utilization of weeds.
- (5.) By promoting the discovery, investigation, and introduction of new varieties of cereals, vegetables, or grasses suitable to the climate, and capable of being cultivated with profit; and also the introduction of desirable kinds and varieties of live stock.
- (6.) By collecting and distributing information on all subjects concerned with the objects of the Society, including the preparation and publication of Flock Books, Herd Books, Stud Books, Pamphlets, Essays, and Papers, and by the establishment and maintenance of a Library and Reading Room for the use of Members.
- (7.) By investigating the nature of diseases in animals or plants and taking measures to encourage the prevention or eradication of such diseases.
- (8.) By remunerating any person for original research work leading to the advancement of the objects of the Society.
- (9.) By the purchase of live stock for breeding purposes and allowing farmers and other rural workers the use thereof for improving the standard of live stock.
- (10.) By promoting or assisting any scheme for herd testing and remunerating any person for his services in connection therewith.
- (11.) By promoting or assisting competitions in regard to farm crops and other primary production, implements of husbandry and improvement of the conditions and methods of rural work.
- (12.) By promoting or assisting any other work which may be regarded by the Council of the Society as being beneficial to primary production or the improvement of live stock.
- (13.) To do all such other lawful things as are incidental or conducive to the attainment of the above objects.

3. The Society shall consist of a President, three Vice-Presidents, four Trustees (three of whom shall be appointed as hereinafter provided, and one shall be appointed by the

State Governor), Governors, Members, Honorary Members, Honorary Scientific Members (not exceeding six in number), and Corresponding Members. The term "Member" shall (unless the context otherwise requires) be deemed to include a Life Member, Life Governor, and Governor.

4. Subject to the provisions of Rule 27, every applicant for admission into the Society, by giving his name and address, with his subscription, to the Secretary, shall be duly constituted a Member of the same, and shall have all the rights of membership till the day after the Annual Meeting next ensuing. Provided that when any subscription shall be paid in the name of any firm or company such firm or company shall nominate in writing one of the members thereof, who shall on the receipt by the Secretary of such nomination, be entitled to and exercise the rights and privileges of membership, and be bound by the Rules, By-Laws, and Regulations of the Society, and may be elected to any office.

5. Governors shall pay a subscription of three pounds three shillings and Members one pound ten shillings annually. Life Governors shall pay a subscription of thirty one pounds ten shillings and Life Members a subscription of fifteen pounds fifteen shillings.

6. The Society shall be managed by a Council consisting of thirty-three Members (elected from amongst the Members of the Society as hereinafter provided), and the Trustees, who shall be *ex officio* Members of the Council.

7. One-third of the Council (the Trustees excepted) shall retire annually in rotation, but shall be eligible for re-election.

8. Land acquired, or to be acquired, for the Society shall be held by and be vested in the Trustees for the time being of the Society for and on behalf of the Society. The Trustees appointed as provided by these rules shall hold office until disqualified, or until they are removed in due course at the Annual or at a Special General Meeting of the Society. Any new Trustee or Trustees shall be appointed at the Annual or at a Special General Meeting of the Society, or in accordance with Rule 14. The Trustees shall deal with the lands of the Society as directed by resolution of the Council of the Society (of which an entry in the Minute Book shall be conclusive evidence), and they shall be indemnified against risk and expense out of the Society's property. If the office of Trustee, appointed by the State Governor, shall become vacant by reason of death, resignation, or otherwise, a new Trustee shall be appointed by the State Governor.

9. The Council shall, at their first meeting after the annual election in each year, elect out of their own number (which includes the Trustees), a President and three Vice-Presidents.

10. The Council shall have the entire management of the income and funds of the Society, and all other affairs thereof, and for these purposes the Members of the Society for the time being shall be deemed to have constituted the Council of the Society for the time being their agents.

11. The Council shall have power to appoint and remove all paid officers of the Society.

12. The Council shall have power to elect Honorary, Honorary Scientific, and Corresponding Members; nominations therefor having been submitted at a previous meeting, and a notice of such nominations having been sent to each Member of the Council. The Honorary Scientific Members shall retire annually, and shall be eligible for re-election.

13. Governors and Honorary Scientific Members may attend meetings of the Council and take part in discussions thereat, but shall not have power to vote.

14. The Council may, except as to the Trustee appointed by the State Governor, fill up any vacancies in its own body created by death, resignation, or occurring in any other way amongst its office-bearers

15. The Council shall have power to make or amend such regulations as they think necessary.

16. The Council shall be regulated in its proceedings by such By-laws as shall from time to time be enacted by it, conformably with the Constitution and objects of the Society; but no By-law shall in any case be altered, or new one proposed, unless notice of such intention has been given at a previous meeting and sent to each member of the Council.

17. The financial year of the Society shall end on the 31st day of December of each year, to which day the accounts of the Society shall be balanced. At the monthly meeting of the Council, to be held in January in each year, the Council shall prepare a list of Members nominated by them to fill the vacancies in the Council. Nominations (other than those made by the Council) of Members who may be candidates for such vacancies must be in the hands of the Secretary prior to such meeting. Every nomination other than those made by the Council shall be signed by at least two Members other than the candidate, and shall have endorsed thereon the consent of such candidate duly signed by him.

18. The Annual General Meeting shall be held on the first Thursday in February, at which meeting the Annual Report and Balance Sheet shall be submitted, Members elected to fill the vacancies in the Council, two paid Auditors appointed, and any other business transacted of which due notice in writing shall have been given before the hour of two o'clock in the afternoon of the second Tuesday in January immediately preceding.

19. Fourteen days at least before the Annual General Meeting the President or his Deputy shall send to all Members of the Society a ballot-paper, numbered, and initialled by the President or his Deputy, or the Secretary, with the names of all the candidates who have been duly nominated, and each Member desiring to vote shall erase therefrom all names he thinks fit. Provided that any ballot-paper containing more or less than the required number of names shall be rejected by the President (who shall be Returning Officer) or his Deputy at the election. Every such ballot-paper shall be returned before the closing of the poll, which shall be at three o'clock p.m. on the day of the election, and the said ballot-papers shall be opened and counted when the Returning Officer is making up the poll.

20. Fourteen days at least before the Annual Meeting a copy of the Report and audited Balance Sheet for the preceding financial year shall be forwarded to every Member of the Society.

21. The Secretary shall report to the meeting of the Council next after the Annual Meeting the Members elected to fill the vacancies in the Council.

22. A Special General Meeting of the Society may be called at any time by the Secretary, on direction of the President or on the requisition of twenty Members of the Society, of which meeting there must be given ten clear days' notice stating the business to be transacted, but no business shall be transacted at any such meeting other than that for which it has been called.

23. A Special Meeting of the Council may be summoned by direction of the President, or of three members of the Council, but no business then transacted shall be valid unless confirmed by special resolution at the subsequent Ordinary Meeting.

24. At the Annual Meeting twenty Members, including Members of Council, or at a Special General Meeting, ten Members, exclusive of Members of Council, shall form a quorum.

25. The privileges of Membership shall consist of power to vote at the election of Members of Council appointed by the Society, of free admission to the Library, Reading-room, and Lectures, and, with two ladies, to the Society's Exhibitions, grounds, and grandstands (subject to such regulations as the Council may make) on production of the member's ticket for the current year. And while the Society issues a monthly Journal a copy shall be posted free to every Member.

26. Any Member neglecting or refusing to comply with these Rules, or any or either of them, or any lawful directions or requirements by the Council made in pursuance or under the authority thereof, or being guilty either before or after becoming a Member of the Society of conduct calculated to bring the Society into discredit in connection with its General Meetings, its Meetings of Council, its Exhibitions, or other objects, shall be liable to be summoned before the Council, and, if found guilty, shall be subject to reprimand or to have his name expunged from the roll of Members, and may also be disqualified from exhibiting and may be disallowed from again becoming a Member during the pleasure of the Council. A Member expelled under this Rule shall forfeit all right in and claim upon the Society and its property.

27. Any person being expelled from Membership or disqualified from exhibiting, riding, or competing by any kindred society shall not be allowed to become a Member or to exhibit, ride, or compete at this Society's Exhibitions until such expulsion be rescinded or such disqualification be removed, provided such expulsion or disqualification be confirmed by the Council of this Society.

28. The Council shall be the sole authority for the interpretation of these Rules, and of the By-laws and Regulations made thereunder; and the decision of the Council upon any question of interpretation or upon any matter affecting the Society or the administration of its affairs, whether provided for by these Rules or by the By-laws and Regulations made thereunder or otherwise, shall be final and binding on the Members.

29. Every Member shall communicate from time to time to the Secretary his address; and all notices required by these Rules to be sent or given to Members shall be deemed to have been duly sent or given if posted or sent to such address.

30. Every person becoming a Member of the Society thereby undertakes, if at any time required to do so by the Council, to give evidence by statutory declaration or otherwise of any facts within his knowledge or information relating to the subject matter of any inquiry by the Council.

31. Every person becoming a Member of the Society shall thereby undertake to indemnify and shall with every other Member thereof be bound to indemnify the Council, and the individual Members thereof, any Committee of the Council and any Members of any such Committee, against any action or damages in respect of anything done or purported to have been done in accordance with these Rules, or the By-laws or Regulations made thereunder, during the continuance of his Membership.

32. These Rules shall not be altered except by a majority of the Members present at the Annual or at a Special General Meeting.

BY-LAWS.

GENERAL MEETINGS.

1. Notice of the Annual and Special General Meetings of the Society shall be given in such newspapers as the Council may decide, and by circular through post to every Member; and all matters, except the election of the Members of Council at the Annual Meeting, shall be determined by a show of hands, unless a division is called for by at least three members present. At every Annual General Meeting the minutes of the last Annual Meeting shall be read and confirmed; a report, together with a financial statement from the Council, shall be submitted, and any Member present may propose any question to the Council respecting the matters contained in such report, and comment thereon, or may refer to such other matters relating to the government of the Society and the management of its affairs as to him may seem proper, provided that his remarks have reference to some motion of which notice has been previously given in accordance with Rule 18.

2. The President or his Deputy shall conduct the election at the Annual General Meeting, at which meeting two or more scrutineers shall be chosen by the President or his Deputy to assist in making up the state of the poll.

THE PRESIDENT.

3. The President shall, in all official relations of the Society, take precedence of all other Members, and shall take the chair when present, having (as well as any other Chairman of the Council) the privilege of a casting vote in addition to his own in all cases of equality in a division on any question. He shall sign all such letters, votes of thanks, and other documents as the Council may decide.

THE COUNCIL.

4. The Council shall hold a meeting at least every month, on such a day and at such an hour as the Council may decide, for the transaction of the business of the Society, and may adjourn from time to time at its discretion.

5. At the monthly meetings the Council shall have full power to originate, discuss, and decide by a majority of votes on a show of hands, all questions not involving an unusual outlay of money brought before it; provided that if any three Members present regard any proposition brought forward as too important for immediate decision they may object and demand the usual month's notice, whereupon all discussion on the question shall cease.

6. No motion, the effect of which, if carried, would be to rescind any motion previously passed by the Council during the same year, shall be entertained unless one month's notice be given to the Council.

7. The ruling of the Chairman shall be final in all matters of order and practice.

8. If within half an hour after the time at which any meeting of the Council is called a quorum of Members be not present, the Members present, or the majority of them, or any one Member if one only be present, or the Secretary, if no Member be present, may adjourn such meeting to any time not longer than fourteen days from the date of such adjournment, providing that no meeting shall be held on a public holiday, and should an Ordinary Meeting fall on a holiday the Secretary shall be empowered to postpone the date of such meeting and call it not later than ten days after the date on which it otherwise would have been held.

9. Minutes of the proceedings of every meeting of the Council or of any Committee shall be taken during their progress by the Secre-

tary, or, in case of his absence, by some person present whom the Chairman may appoint for the occasion. The minutes shall afterwards be fairly copied into a minute book kept for that purpose.

10. The Council shall, from time to time, draw up such By-laws as may appear to them expedient for conducting the proceedings of their own meetings, which shall be binding on the Members of the Council, and all such By-laws shall be binding on all and every the Members, Honorary, Honorary Scientific, and Corresponding Members, officers, and servants of the Society, as well as on all exhibitors or their assistants at the Society's Exhibitions.

11. The Council may appoint Committees to examine into or take action on any special matter relating to the objects or business of the Society, and may dissolve such Committees when they shall think proper.

12. The Council shall appoint a banker or bankers to the Society, to whom all sums of money received by the Secretary or other persons for the use of the Society shall be paid.

13. No money shall be drawn from the Society's banking account but by order of the Council, after a report from the Finance Committee, and by cheques signed by two Members of such Committee, and countersigned by the Secretary. Entries shall be made of all such payments.

14. If any Member of Council, with the exception of the Trustees, shall be absent from three consecutive monthly meetings of the Council without leave having been obtained, his seat shall be declared vacant.

15. The Secretary shall notify to the Council any vacancy which may have occurred in the list of President, Vice-Presidents, Trustees, or other members of the Council, at the meeting of the Council at which or next after such vacancy occurred, and such vacancy shall not be filled up until the monthly meeting of the Council which shall take place next after such notice, provided that if any such vacancy occur after the ordinary monthly Council meeting in November such vacancy shall not be filled except at the next Annual Meeting.

16. In the absence of the President, the chair shall be taken by the senior Vice-President then present; and should none of these officers be present, then by such Member as the Council shall choose as their Chairman by a majority of votes. (The senior Vice-President shall be deemed to mean the Vice-President who has been a member of Council for the greatest number of years in the aggregate.)

17. The quorum of a monthly or special meeting of Council shall be five.

18. At every monthly meeting of Council the order of business shall be as follows:—

- (1.) Reading and confirming minutes of previous meeting.
- (2.) Business arising from minutes.
- (3.) Election of officers, and nominations for vacancies.
- (4.) Committee's Reports.
- (5.) Motions.
- (6.) Correspondence.
- (7.) Postponed business.
- (8.) General business.
- (9.) Notices of motions.

19. All minutes and reports read to and adopted by the Council, shall be signed by the Chairman.

20. The report from the Council to the Annual Meeting in February shall be prepared at the Council meeting first in January or at some adjournment thereof.

COMMITTEES.

21. The Council shall elect such standing Committees at the monthly Council meeting in February as they think fit, and such

Committees shall remain in office until the Annual General Meeting in the ensuing year, two members of Committee to form a quorum.

22. The President shall be *ex officio* a member of all committees.

23. Each Committee, at its first meeting, shall elect its own Chairman for the year, and in his absence a Chairman shall be elected by the Committee for the occasion.

24. All Committees shall make or adopt rules for the conduct of their business, and shall make a report of their proceedings to the Council, and shall hold office until they have made their respective reports; but in case such reports shall not have been made previous to the first Thursday in February next after their appointment, their powers shall then cease, providing that standing Committees shall retain office till their successors are appointed.

THE SECRETARY.

25. The Secretary shall be immediately responsible to the Council for the discharge of his various duties. He shall attend the sittings of all meetings of the Council, and of Committees, and shall keep all the Society's books. He shall also conduct the correspondence of the Society, and keep copies of all letters on the business of the Society.

26. Under the direction of the Finance Committee, he shall be responsible for all moneys received, paying such sums into the Society's bank, and producing at each meeting of the Finance Committee receipts for the same; and, excepting the amounts allowed him for petty cash, he shall not retain in his hands any money belonging to the Society, but shall pay it over forthwith to the Society's bank. He shall have the charge of the expenditure for petty cash.

27. He shall have the custody of all books and property of the Society. All books, pamphlets, &c., becoming the property of the Society shall be stamped with the Society's stamp at once.

28. He shall have the immediate superintendence over the clerks and servants of the Society, and shall be required to report to the Council any instances of misconduct on their part which he may think of such a nature as to require the consideration of the Council.

29. He shall find, if required, approved security to the amount of £500, the premium to be paid by the Society.

30. The Secretary shall not exercise any of the privileges of a Member of the Society.

FINANCE.

31. The Finance Committee shall have the immediate care of the Society's funds, and shall meet before the ordinary Council meeting in each month, in order to prepare a report for the Council on the state of the Society's funds, which they shall present to each monthly meeting, as well as a statement of the payments recommended to be made, together with all the books in which entries of cash receipts or payments are made, and such documents as the business of the day may require. Should a report from the Finance Committee not have been presented at the meeting of the Council, the Secretary shall report the state of the funds to the Council, in which case the Council shall vote the moneys required without such report.

32. The Chairman of the Finance Committee shall be the Honorary Treasurer of the Society.

33. All receipts for money received on behalf of the Society shall be out of a book with counterpart.

34. All moneys received and paid shall be entered daily in a general cash book.

35. The accounts of the Society shall be audited as may be required by the Council by two professional accountants to whom a balance-sheet shall be submitted by the Secretary immediately after the close of the financial year, and such, when audited, shall be presented at the Annual Meeting.
