CRA understands the other Australia

We live on our exports, and must meet tough world competition.

Primary producers know that only too well. So do the minerals producers who for many years have added the extra backbone to our traditional export strengths.

Most exports, primary or mineral, come from the other Australia. Outside the crowded cities. Where farmers and miners live and work.

CRA understands the other Australia. More than 20,000 Australians work in CRA group companies, most of them away from the capital cities. More than 80,000 Australians are shareholders in CRA or individual group companies.

Working together, profitably. That's the way to keep Australia's high standard of living.

If you would like to know more facts about CRA and its operations, write to:

It's not what you put into a bank that counts.

It's what you get out of it.

We pay up to 8% p.a. on term deposits. Savings Investment Accounts earn 8% p.a. and our minimum deposit is lower than most other banks.

CBC Passbook Savings Accounts could earn you a little more interest.

Active cheque account users could save money on charges because CBC does not charge collection fees on cheques deposited.

There are other things that CBC can offer, corporate and investment services; travel, and a range of other personal banking services.

Spend a few minutes in your nearest CBC branch and make your own comparisons. We'd like to think you get a little more out of the CBC.
