## A WELCOME NOTE

**Jack Seymour**  
**President**  
**Royal Agricultural**  
**Society of Victoria**

WELCOME to Six Worlds — One Great Show. That is the Royal Melbourne Show of 2003.

The show is Victoria's largest and longest-running annual public event, offering fantastic opportunities to experience the best Victoria has to offer in agriculture, education and entertainment, as well as a great range of commercial exhibits and displays.

This year we have introduced a new look and layout with a "themed precinct overlay".

This is aimed at enriching the show experience by making it easier to get around the showgrounds with better signs and colour coding.

The themed precincts translate into Six Worlds, which are Fun & Learning, Carnival, Rural Life, Entertainment, Taste & Style, and Animals.

Each will feature fabulous new attractions and entertainment, along with all the traditional elements that have been at the heart of the show for more than a century.

The show continues to be great family value.

And don't miss the chance to see some of the great things on offer: spectacular lunchtime entertainment in the Cadbury Arena; axemen competing in the Woodchop Arena; milking demonstrations in the Fun & Learning World.

There also will be the chance to sample some of Victoria's best produce in various pavilions.

At the heart of the show, as always, are the animals. Cattle judging will be under cover this year and horse events have been re-programmed to ensure action on the Cadbury Arena throughout the show.

The Grand Parade is a major highlight. And there are two new pavilions — *The Weekly Times* Victorian Agribusiness Showcase, featuring the Department of Primary Industries display and Victorian agribusiness technologies and innovation; and the Sustainable Living Pavilion, promoting environmental awareness and showing the best ways to care for it.

The show will wind up with a Family Pet Dog Show on the final Sunday.

Anyone can enter their dog to win great prizes.

And don't miss Jess the border collie, the loveable show mascot, who will be appearing every day.

It's going to be a truly great Show. We look forward to welcoming you from September 18-28.

**Carnival fun:** all the fun of the fair will leave your head spinning at the Show.

# The Show's world is waiting for you

**T**HE city meets the country at the Show when people from across the state get together for one of Victoria's most significant events.

These are exciting times for the showgrounds as the Royal Agricultural Society and the State Government work towards the redevelopment of the site.

The showgrounds project represents a significant government commitment of \$101 million to promote opportunities for agribusiness, create jobs, reinforce the link between city and country communities and drive sustainability.

The new showgrounds will become a versatile exhibition precinct.

As well as reviving the Show as Victoria's most popular event, the redevelopment will allow the showgrounds to host exciting events and exhibitions throughout the year.

It will provide infrastructure

**A message from Victorian Premier STEVE BRACKS**

and opportunities for Victorian agribusiness to be competitive on a domestic and global scale.

Some changes have already been made to the site — with new work carried out before the 2002 Show around Cadbury Arena, including landscaping works and the removal of several older buildings.

More work has been carried out this year, with the demolition of part of the Horses West area and the removal of the amusements area behind the Royal Block.

This year's Royal Melbourne Show will provide great entertainment, great education and great family value.

It will offer visitors unparalleled opportunities to experience the very best Victoria has to offer in agriculture, education, entertainment and commercial pursuits.

The theme for the Show this year is Six Worlds — One Great Show, which will showcase six precincts around the grounds.

Be sure to visit the themes of Fun & Learning, Carnival, Rural Life, Entertainment, Taste & Style and Animals.

And be sure to drop into the Victorian Government Expo to see the showgrounds redevelopment stand as well as the many other government departments and agencies on display.

On behalf of the Victorian Government, I wish you a memorable and fantastic experience at the 2003 Royal Melbourne Show.

## Lend a hand for good health

**A message from VicHealth**

**V**OLUNTEERING is a great way to meet new and different people and to feel more connected with your community.

Many volunteer every year for the Show. Their efforts are greatly valued by Show organisers, but the real reward is the smiles on the faces of children who have come for their special day out.

For many of us, memories of the family day out at the Show are

some of the lasting impressions of our childhood.

Parents and grandparents tell us how important the Show is to them in helping to build childhood memories for the youngsters in their lives.

Community bonds, social interaction, relationships that promote co-operation and the sense of having a valued role in the community tend to ease the stresses of everyday life and lower our health risks.

VicHealth in its current "To-

gether we do better" campaign is keen to promote volunteer work to get people involved.

It wants to spread the word that getting involved in community activities can make us feel good and is important to our health and wellbeing.

The more activities we're involved in, and the greater variety, the more healthy and happy we will be.

VicHealth thanks all Show volunteers.

## Follow the Yellow Brick Road

**F**OLLOW the Yellow Brick Road at the Show. It will lead you on a fun and nutritious journey through the new attractions of this year's event.

The Yellow Brick Road continues its tradition of being the best value-for-money showbag that is healthy for all the family.

The journey starts when you pay \$9 at any of the main entrances or at the new *The Weekly Times* Victorian Agribusiness Showcase (opposite the carpark entrance).

Present the token from Page 4 of this Show Guide to receive a \$1 discount.

Participants simply collect their calico bag and map then follow the Yellow Brick Road.

By presenting the carry bag at each of the listed pavilions along the Yellow Brick Road, participants collect an array of healthy snacks.

This year items include fresh fruit and vegetables, dairy treats and even L'Abbruzzese home-style pasta.

An important stop along the road is *The Weekly Times* Victorian Agribusiness Showcase where you can collect your free copy of *The Weekly Times* and take an interactive adventure through Australia's farming industry.

Look for the yellow flashing lights, pick up your calico bag and head off on an adventure at this year's Show.

## Kids can have a go at farming

**H**AVING fun while learning about farming will be the focus of a new agricultural centre at this year's Show.

Wool-classing, alpaca grooming, goat milking and even animal pregnancy testing are some of the lessons to be learned in the new Agricultural Learning Centre in the Fun & Learning Precinct.

From 10am until 6.30pm each day, the learning centre stage will feature a comprehensive program of entertainment and interactive demonstrations for two- to 15-year-olds.

Children will be able to take part in a range of activities, from working sheep dog demonstrations to shearing and milking.

As well as demonstrations, children can enjoy free entertainment from Cadbury characters, including the Yowies, the Creek Bush Party, the Cadbury Freddo Show and the Life on Ollie's Island Interactive Display.

The Agricultural Learning Centre also will house several interactive displays where visitors can learn first-hand about how agricultural products such as milk, grains and wool move from the paddock to the plate.

Or learn how to comb, spin and weave wool under the supervision of

# Cuddle up with furry friends

### Cadbury Animal Nursery

**When:** 10am-8pm daily  
**Where:** Fun & Learning World

**W**ANT to make some cute and cuddly, fat and furry, small and feathery friends?

Head for the Cadbury Animal Nursery, one of the most popular destinations for families at the Show.

Where else can you get up close and personal with so many baby farm animals under the one roof?

For 11 days the Cadbury Animal Nursery is home to lambs, piglets, ducklings, kids, calves, puppies, chicks and countless other animals.

Turkeys, geese and a variety of other water and native birds can also be found at the Duck Pond.

But the Cadbury Animal Nursery offers more than just a chance to meet these animals.

It also provides a great learning experience where children can milk cows, feed the animals and even see some lambs being born.

An incubated hatchery will feature baby chickens, and children also can learn about some of the differences between beef and dairy cattle at the new interactive milking display.

A new addition to this year's Cadbury Animal Nursery will be the Alternative Animals display, providing visitors with an opportunity to find out about less common farm animals such as alpacas, llamas and novelty horse and cattle breeds.

Australia's colonial heritage also will be brought to life with some intriguing animal exhibits, that reveal what farm life was like for animals in the 18th and early-

19th centuries, and how they lived and survived alongside the early settlers.

Children also can visit the Feed Preparation Area, where they can help prepare food for the various animals housed in the Cadbury Animal Nursery.

And some lucky children may be invited to assist the feeding of animals at various times throughout the day.

Remember, this year the Cad-

bury Animal Nursery has a new home. It can be found in the new Fun & Learning Precinct in the north-east corner of the showgrounds.

Here you also will find the Agricultural Learning Centre, Arnott's Biscuit Factory, the Bush Skills Lawn, the Winery Pony Tales Arena, the Disney Channel Show Pavilion and many more excellent educational activities and displays to make learning fun.

### FARMERS' FRIEND

## The machines are making a comeback

YOU asked for it, so it's back: the Agricultural Machinery Expo.

Massive headers, tractors, ploughs and other broad-acre, modern agricultural equipment will be displayed at the Show.

The lawn area of the Fun & Learning precinct will be home to the latest in farm machinery and tractor technology manufactured by world leaders Kubota Tractors Australia and CASE IH.

Kubota Corporation is 110 years old and last year celebrated 25 years of service to the Australian market.

In May 2003, its 20 millionth industrial engine rolled off the production line.

### Agricultural Machinery Display

**When:** September 18-28  
**Where:** Fun & Learning World

Kubota is the only manufacturer in Australia that can supply 50-horsepower tractors with hydrostatic transmissions.

And on display will be its latest range of L30 tractors featuring the exclusive "Intellipanel" that allows operators to monitor speed, fuel level, PTO Speed, trip meter, engine coolant temperature and service intervals at the touch of a button.

CASE IH is a leading brand whose signature red colour is recognised around the world.

It's the world's largest manufacturer of agricultural machinery. One of its display models will be a Magnum Tractor, the biggest conventional-type tractor made featuring eight massive tyres.

The displays by Kubota and CASE IH herald a welcome return of farm machinery to the Royal Melbourne Show.

Don't forget to bring your camera and have your photo taken next to the most impressive assembly of agricultural equipment at the Show in more than 20 years.

**Master horseman:** Gerald O'Brien will showcase many of the secrets that have revolutionised stockhorse training.

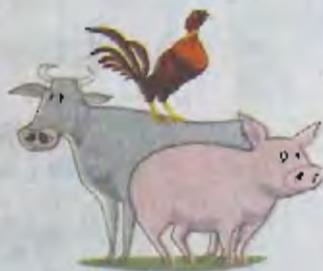

# Wild horses won't drag O'Brien away

**I**N AN Australian first, top stockhorse trainer Gerald O'Brien will share his secrets of how to work successfully with horses, when he breaks in two young stockhorses in the Winery Pony Tales Arena during this year's Show.

Over the past 20 years, O'Brien has revolutionised the way in which people approach horse training.

His successful technique is the simple belief that in order to coax the best performance out of a horse — whether in the dressage ring, on the polo field, on the race-track or even jumping without a rider — the animal must be an enthusiastic participant.

Patrons will be given an insight into O'Brien's philosophy as he talks audiences through the challenges of breaking in horses,

## Winery Pony Tales Arena

**When:** 10am-5pm daily  
**Where:** Fun & Learning World

accompanied by several practical demonstrations involving two geldings.

Over the course of the Show,

O'Brien will educate both horses with an aim of riding them in Cadbury Arena towards the end of the event.

His black stallion, Tim, with which he has entertained crowds around Australia, will be accompanying O'Brien in the Winery Pony Tales Arena at the Show.

Tim requires neither saddle nor bridle and responds solely to O'Brien's verbal commands.

The horse then does a variety of amazing activities from flat gallops to picking up his master's hat.

The Winery Pony Tales Arena also will be home to many other fascinating equestrian displays and demonstrations throughout the Show including trick riding, veterinary care, horse grooming and whip cracking.

You can even learn some of the

amazing secrets about how to prepare a horse for the Show — you will never look at boot polish the same way again.

Members of Australia's World Cup-winning polocrosse team will hold demonstration matches and talk about this exciting sport, invented in Australia and now being played around the world.

The Winery Pony Tales Arena also will feature exhibitions for disabled riders, with instructors answering questions about how people with a disability can maximise their riding experience.

This year the Winery Pony Tales Arena has been relocated to an outdoor area in the new Fun & Learning Precinct.

It features a larger arena, a raised stage and tiered seating for 100 people, as well as extra standing room.

## COUNTRY MARVELS AT SHOW

# Folklore of bushie skills

AUSTRALIA'S bush heritage, traditions and folklore will be celebrated on the unique Bush Skills Lawn in the heart of the showgrounds.

Where else in Melbourne can you witness a blacksmith at work alongside timber hut builders, chainsaw sculptors, a cooper and a wheelwright, whip-cracking demonstrations, post and rail fence cutting and many more activities?

### Bush Skills Lawn

**When:** 10am-6pm daily  
**Where:** Fun & Learning World

Marvel at the exhibition steam-driven machinery from the 19th and early 20th centuries.

Encourage your children to create their own memento of the Show under the

supervision of the qualified staff at the Mitre 10 Working with Wood exhibition.

Indulge yourself in the culinary delights provided by Victoria's Girl Guides, who will be conducting bush tucker demonstrations each day.

Or simply sit back and listen to storyteller John Bury maintain the traditions of yesteryear with tales from Australia's bush and colonial heritage.

The Bush Skills Lawn offers something for everyone and is another great attraction in the new Fun & Learning World.

**Great attraction:** blacksmithing is among many of the bush displays.

## Make Your Vision a Reality

Do you have a vision to expand, improve productivity, efficiency, sustainability and profitability? If so, you will need a lender who will understand your business and support you over the long term through the peaks and troughs of agriculture.

As Victoria's specialist rural lender, at Rural Finance we understand farming as well as finance. We provide personal service with on-farm visits by lenders with rural experience and knowledge, competitive and flexible loan packages designed to meet the needs of individual farmers and no ongoing fees.

"(We'd get) two each, the contents to be swapped and shared with Mum overseeing the exchange to ensure no tears.

"Somehow Mum would weave her way through the crowds, Cain and Troy loaded into a double pusher, our showbags an added obstacle swinging on the handles, as Danielle and I, feeling very brave, dragged Dad towards the Mighty Mouse.

# Yabby dabba do

**Pincher movement:** the miniature monster from the deep, an Australian yabby, will be on display.

**Yabby Tank**

**When:** 10am-8pm daily  
**Where:** Cadbury Animal Nursery

**I**F YOU think the only way your kids can get close to a yabby is "the old meat-on-a-string method", think again.

The Cadbury Animal Nursery has a Yabby Tank where kids can reach in, grab a yabby and find out more about these Australian crustaceans.

The yabby display will feature the full life-cycle of the creature, from spawning and hatching through to fully grown dam dweller.

It's all part of an aquaculture exhibit which includes spawning displays by oysters, molluscs, silver perch, trout and other fish.

Yabbies are a type of inland freshwater crayfish. Their colours range from green to yellow, brown to black and red or blue.

# Legacy of the Mikac girls

**T**HE Royal Agricultural Society is delighted to welcome The Alannah and Madeline Foundation as the official charity of this year's Show.

The Alannah and Madeline Foundation was formed in 1997 to honour Alannah and Madeline Mikac, who lost their lives at the Port Arthur shooting tragedy.

The foundation supports child victims of violent crime or sudden family loss. It also delivers a positive anti-bullying message to schools through its Better Buddies program.

The foundation provides crisis care for children who have experienced the murder or suicide of their parents or who are victims of physical, sexual or emotional abuse.

There are more than 760 child victims each week in Australia — more than 108 children every day.

The AMF stand is in the Agricultural Learning Centre at the Show.

The Better Buddies program, with Buddy Bear as its mascot, aims to change the youth culture within the Australian school system.

Statistics show that 60 per cent of childhood bullies become criminals.

The Alannah and Madeline Foundation does not receive government funding, relying on donations and money raised at events.

It is fitting that the Royal Melbourne Show — a children's wonderland — has chosen the Alannah and Madeline Foundation as its official charity.

Despite being aged just six, Alannah Mikac had developed a keen

sense of self as a little girl. A journal entry she had penned revealed: "I'm special because I care about others."

Her sister Madeline was just three. Hundreds of schools have been involved in the Better Buddies program.

It involves a young student teaming with an older student whose job it is to prevent bullying.

Foundation chairman John Bertrand says he wants to make it "cool for a big kid to look after a little kid".

For further information about AMF, telephone 9830 2577 or visit [www.amf.org.au](http://www.amf.org.au)

## Healthy option for your kids

### Diving, Racing Pig Show

**When:** First five days of the show

**Where:** Mitchell Well

"We use the large white variety of pig for racing. We've found them to be a very smart, responsive and quick-witted animal," Tom says.

The pigs are selected from various litters when they are about eight weeks old, and

then start an intensive four-week training course.

The star of the show is Miss Piggy, the Esther Williams of the pig diving pool.

She makes a grand and regal entrance to the stage and then scampers up to the diving platform to execute the perfect pork belly flop as she gracefully flies through the air.

Not to be outdone are the racing pigs.

When races are about to start, the pigs leave their enclosures without any coaxing other than the starter's call, head to the barriers and wait to be fitted with their racing colours.

On the starter's whistle, the pigs cover a 36m track with crackling speed in a little over five seconds.

If you've low on laughs lately, the Vandeleurs' amazing racing pigs may be the right "oinkment" for you.

# Utes, riders show their horse power

**Action:** there is something for everyone in the Cadbury Arena.

**T**HE Bush Games make their debut in the Cadbury Arena at this year's Show.

The games combine Australian folklore, bush skills and horse-riding prowess.

Teams will compete in events originating in Outback cattle stations and Victoria's High Country.

Cheer for your favourite team as they battle for a spot in the finals.

The arena's free lunchtime entertainment also will include the Holden V8 Stormriders and the Grand Parade.

**HOLDEN STORMRIDERS:** It's a high-octane curtain-raiser as the Stormriders set the pace with their precision driving.

The 2003 VY SS V8 Utes will perform ramp-to-ramp jumps, two-wheel driving and high-speed crossovers.

They also do formation driving forward and reverse, lightning-fast handbrake turns and reverse spins.

**BUSH GAMES:** Strength, teamwork, horsemanship and speed will be tested by events such as pick-up rides, bareback obstacle riding and cow hide drags.

Cattle hands and stockmen will show how adept they are in the stockman's relay.

The three teams in this medley event ride horses and two-wheeler ag bikes to clear obstacles, collect and pass hay

Cattle mustering and cutting-out skills will be a feature of the cattle trail competition.

In the whip crack, members ride around the arena trying to hit a series of targets with stockwhips.

The parade will include animals competing and being exhibited at the show and will feature prize-winning entries with their sashes and ribbons.

Cattle, horses, sheep, goats and alpacas will be paraded, as will many decorated carts, buggies and horse-driven vehicles.

The CUB cydesdales team will be on show with their historic carriage.

Horses and vehicles will parade in patterns in a display of agricultural pageantry.

Look out for marshals in red riding jackets as they keep an eye on proceedings and choose a winner for the daily ringmaster's prize of best presented animal or team in the parade.

## Look out be-heinz you, red

**S**QUISH, squash, smash. That will be the motto at the Great Tomato Fight when hordes of people in an enclosed marquee, knee-deep in blood-red, ripe tomatoes, battle it out.

Messy, sticky contestants will wage war to find the lucky tomato that contains a holiday for two.

Members of the Melbourne Tomato Committee have come up with a novel idea to promote the health benefits of eating fresh tomatoes as well as disposing of over-ripe produce that cannot be processed.

It also is their way of paying homage to the tomato, just as they do in the Spanish town of Bunol, 48km west of Valencia, where they hold the annual La Tomatina Festival.

In Bunol, they don't simply pay homage to the tomato but revere it in a week-long festival of fun, music and fireworks culminating in the world's biggest tomato fight in the town square.

**Red:** La Tomatina takes place each year in Bunol, Spain.

### Great Tomato Fight

**When:** Farm Sunday  
**Where:** Melbourne Tomato Marquee, Cadbury Arena.

The holiday for two is to Spain, where the winners can also take part in the La Tomatina Festival.

Hundreds of other prizes

will be on offer. To enter the Great Tomato Fight, visit the Melbourne Tomato Committee Marquee on Cadbury Arena.

You will be given an entry form and safety glasses. Shower and cleaning facilities will also be available.

The Squish! starts at 1pm.

Viewing areas will be a safe distance from the tomato fight with clear barriers so you don't miss any of the action.

**Thrills and spills:** the Holden Stormriders team will have showgoers on the edge of their seats as they power through the night.

**E**VERY night at the showgrounds, Cadbury Arena will roar into action with non-stop speed, thrills and death-defying spills.

"Pure Adrenaline" is the Show's new and exciting entertainment program that will see the Melbourne debut of the Holden V8 Ute Stormriders precision driving team, the Showtime Internationale Freestyle Motocross riders and the horsemen and women from the Bush Games competition.

Each night, the Holden Stormriders will perform stunts and manoeuvres including ramp-to-ramp jumps and formation driving.

High-speed crossovers with cars racing from the corners of the oval to an imaginary intersection in the middle and lightning fast handbrake turns and reverse spins are among the other routines.

They also will perform the two-wheel driving stunt.

Since 1969, the internationally acclaimed Holden Precision

Driving Team has entertained millions with more than 8000 appearances.

During this time only 25 drivers have passed the stringent qualifying process to gain entry to the team.

As the Holden Stormriders roar off Cadbury Arena, the daredevils of the Showtime Internationale Freestyle Motocross team will unleash their death-defying antics, taking rider and motorbike to the limit.

Defying the laws of gravity, these leaders of freestyle motocross twist, flip, loop and spin their bikes 360 degrees on the way up — and, just to show they can, on the way down.

After the fuel-injected frenzy, a cavalcade of riders from the Bush Games competition will descend on Cadbury Arena in a display of equine pageantry.

The riding skills of jackeroos and jillaroos from Victoria's High Country will be on display

Bareback obstacle racing, stock horse riding with target whip cracking and cow hide drags are just some of the events in store for showgoers.

The Stockman's Relay will see individual teams starting on horses and motorbikes having to negotiate obstacles and markers while retrieving hay bales to pass on to teammates. At the end of each leg, teams swap disciplines.

To add to the excitement of the Bush Games, all teams will be desperate to win their nightly heats as they fight for a spot in the finals of the Bush Games.

Each night a spectacular fireworks display will cap off the evening's entertainment. Explosive Entertainment will unleash their pyrotechnic wizardry.

# Doc babies his buns

## Art & Craft

**When:** September 18-28.

**Where:** The Angliss Gallery & PB Ronald Pavilion.

**G**YNAECOLOGIST Dr Peter Heath has a bun in the oven. Several in fact.

And when the Show comes around, it will be buns rather than babies that he will be delivering.

Heath is the reigning jam tart champion in the Biscuits, Pastries and Slices section of the Art & Craft competition.

And he is eagerly awaiting the arrival of this year's batch.

The secret of his success, he cautiously reveals, is that he picks his own fruit and makes his own jam for the filling of his acclaimed tarts.

Heath also admits to making "quite a good lemon butter".

In fact his lemon butter is formidable, winning first prize the past two years.

Heath is not the only male to upstage the women chefs in the Show cooking stakes.

**Winners:** the Wallace boys are the scone kings.

The Wallace Boys are also part of Art & Craft folklore.

Between them, the two teenage brothers, Craig and Gary, have been winning first and second prizes in the White, Savoury and Sultana Scone sections for the past five years.

It's all part of the the Art & Craft competition that is judged by the public on Cookery Saturday, September 20, and Preserves Sunday, September 21.

Art & Craft also is about oil and acrylic painting, weaving, pottery, cake decorating, calligraphy, leatherwork, bead craft, book binding, ceramics, embroidery, leadlight and metal craft, parchment craft, toy making, basketry, bark art, hat wear and patchwork quilting.

Some of Victoria's best water colours will be exhibited, and painter Reg Cox will be demonstrating his art on September 24

upstairs in the PB Ronald Pavilion.

Under parental supervision, children can experience craft fun in the Kids' Craft Area.

Each day, children will be shown how to knit, bead and weave. For \$3 they can paint their own ornament in the Plaster Fun House.

## Plenty of axes to grind

**W**OODCHOPPING war will be waged at this year's Show with the first State-of-Origin Challenge.

The all-new interstate competition will pit Victorian champions against their rivals from Tasmania, NSW and Queensland.

Cheer for your local hero in the heats on September 23 and 24 with the final on September 27.

But the gamesmanship doesn't end there.

Woodchop's version of the Bledisloe Cup will see New Zealand's young guns compete against Australia's finest in the Australia versus New Zealand International Under-21 Test Series, now in its eighth season.

The traditional rivalry with our trans-Tasman neighbours will erupt as Australia tries to hold on to the title it regained last year after four consecutive losses to formidable New Zealand line-ups.

Be part of the excitement as the Kiwis try to redeem themselves in the first heat of the best-of-three Test Series on Sunday, September 21, followed by the remaining two heats on September 23 and 27.

The woodchopping action runs for nine days of the Show and is one of the oldest and most popular events.

In fact, woodchopping as a sport outdates the Show.

Legend has it that the first woodchop for a cash prize occurred at Colac in the 19th century.

But the town of Sprent in Tasmania is recognised as the official birthplace of woodchopping as a sport in 1870.

This year, 133 years after that first swing of the axe, woodchopping is just as popular, just as competitive and just as entertaining.

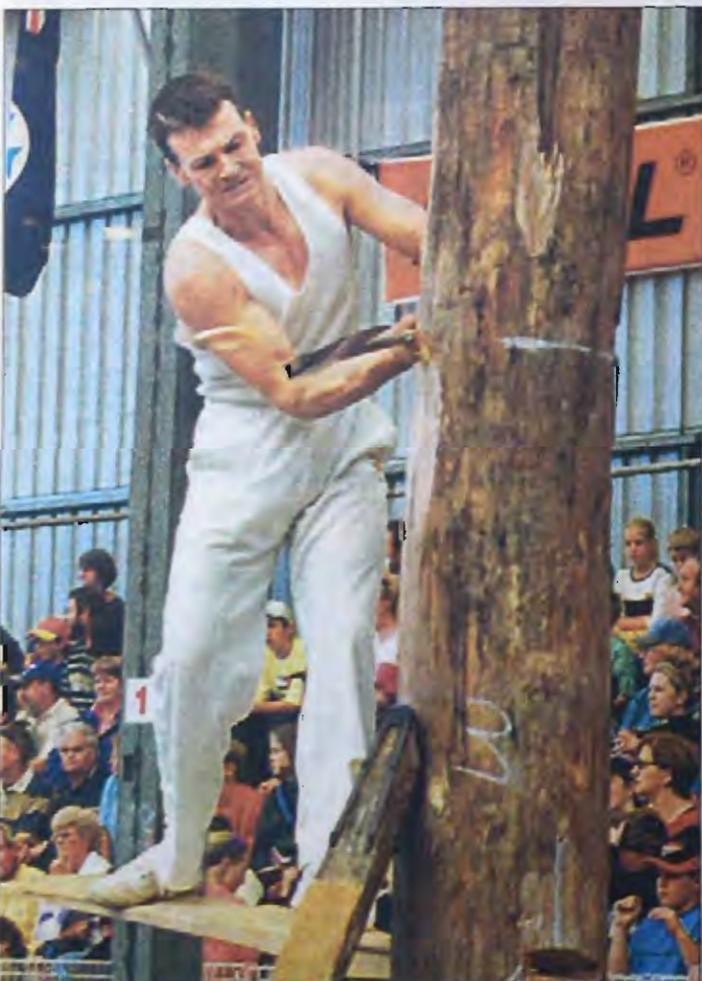

And it is possible to indulge in nine days of world-class woodchop competition from Friday, September 19 with heats in various categories followed by finals on all days.

Marvel at the physical demands of woodchopping and the longevity of some of its competitors in the Veterans' Standing Block Handicap for over-60s on September 25.

The Woodchop Pavilion also is the place you will see future champions in the Junior Competitions in categories 9-13 years and 13-16 years.

These youngsters are just as competitive as their more experienced counterparts and their finals are on September 21.

The famous names of woodchopping — Foster, O'Toole, Gurr and Staib — will battle it out in the Woodchop Pavilion in what is shaping up to be one of most fiercely contested competitions.

It's war: the action will be furious in the State-of-Origin woodchop challenge.

## Animal passions

**I**F YOU'VE always fancied more exotic pets, preferring a python rather than a goldfish, the Wonderful World of Pets Pavilion is definitely for you.

Guinea pigs, small reptiles and mini beasts, such as leaf stick insects, will be some of the pavilion's more unusual tenants.

They will be kept under the watchful eye of the Victoria University of Technology Science and Bio-Technology Department and will form part of their interactive display that also includes rabbits, cavy (guinea pigs) and rats.

VUT students, accompanied by course co-ordinator Greg Gordan, will answer all your questions regarding these animals, including how to care and acquire them.

They also will discuss career and study options for those interested in working with animals.

Traditional pet lovers will not be forgotten, with cats and dogs the headline acts in the Wonderful World of Pets.

Pedigree World is where puppy lovers will gush with delight at all the different breeds of puppies being spoilt in their own puppy creche.

If you're having trouble keeping the slippers out of Rex's mouth, the trained animal behaviourists will provide you with some free obedience tips.

They will be in the pavilion every day, as will Pedigree World's vet Dr Karminda Roe.

Time to pamper your hound? Well, show bags aren't just for people; they're for dogs too.

They come in various shapes and sizes, are the ultimate in canine indulgence and can be bought in Pedigree World.

Some visitors to the Wonderful World of Pets Pavilion may even walk out with a new canine addition to the family.

Greyhounds a little past their prime are in need of a home. If you can accommodate one of these poochies, sign up for the Greyhound Adoption Program.

It's a pet's world: everything from snakes to tabbies can be seen at the Wonderful World of Pets.

Children will be taught how to approach dogs safely and confidently with the help of the Department of Primary Industry's (DPI) Responsible Pet Ownership Program.

#### Molly Meldrum, rock guru

"Growing up in the country, the Royal Melbourne Show was always a highlight. The produce and animals probably meant more to us because it was part of our lives and we were very proud to see our area represented."

"The sideshows and rides weren't lost on us either. For country kids, it was like going to Disneyland."

# From water into wine

**A**WARD-WINNING wines and amazing aquaculture with freshwater fish tanks are just of the educational exhibits from Northern Melbourne Institute of TAFE at *The Weekly Times* Victorian Agribusiness Showcase.

Staff and students from NMIT's faculty of earth science will provide information about its range of study programs and demonstrating the different practical aspects of training that support its impressive teaching programs.

Hands on: picking the produce.

As the largest provider of primary industry training in Victoria, education at NMIT doesn't only focus on traditional textbook teaching.

To complement its classroom curriculum, it offers opportunities for hands-on learning with real work experience illustrated by some of the exhibits in the pavilion.

This provides students with a leading edge in employment and career prospects as courses are designed in consultation with primary industry to ensure students are skilled to the highest standard.

To meet the training needs of the growing fish-farming industry in Victoria, NMIT introduced studies in fish farming in 1997 and now boasts an Aquaculture Training and Applied Research Centre with 28 tanks and 16,000 fish — jade and silver perch.

Some of these freshwater tanks and the complex world of fish-farming will be a feature of NMIT's participation, along with the Australian College of Wine's (ACW) award-winning vintages which have won one silver and 18 bronze medals at prestigious wine shows around Australia.

The ACW was established in 1995 with an 8ha vineyard at Eden Park, which produces up to 30,000

bottles of red and white wine a year. Since then, the ACW has also developed a 30ha vineyard at Ararat and a 2ha vineyard at Yarra Glen.

NMIT offers a range of viticulture and winemaking study programs for both the novice and more experienced students.

Twelve months ago, a new Primary Industries Specialist Centre was set up at NMIT's Epping campus for educational research and to respond to the needs and perceived requirements of all primary industry sectors.

Some of its significant contributions to primary industry can be accessed in the pavilion.

There also will be computer-based turf and landscape design and surveying software demonstrations, where state-of-the-art technology allows students to see the design and planning process taking place. This has direct applications for land management and farm planning.

A working hydroponics display

Good picking: the Australian College of Wine's has won several awards.

will provide technical information for growers or prospective hydroponics growers.

NMIT also runs courses in herb and essential oils production.

The extraction of essential oils from herbs can be seen in an operating still, revealing the "plant-to-bottle" process.

One of the key features of NMIT's practical training programs is its 320ha property at Yan Yean where it

runs 550 head of cattle, 100 sheep, 50 boer goats and 150 deer as well as cereal and lucerne crops.

Highlights of its agricultural program will be presented in the pavilion throughout the Show.

NMIT also offers an extensive study program in equine studies and the pavilion will house two new electronically controlled horse simulators, which enhance the teaching of equestrian skills.

## ECO-FRIENDLY

### New brew

HAVING a coffee at the Show can help your garden grow.

Melbourne-based Eureka Coffee is expecting to recycle more than one tonne of organic coffee waste into mulch throughout the Show. Bring a bag along and fill it with coffee mulch for your compost heap or garden.

This is just one initiative in the Sustainable Living Pavilion, which reflects new ideas, concepts and innovations that promote environmental awareness and sustainability.

Solahart will display its solar and hot-water systems, and the savewater! site is hosting several water-saving initiatives incorporating the EPA, Rotary, Showersmart and water authorities.

Daily seminars and displays will focus on conservation, organics, the environment and water conservation.

The Alternative Technology Association (publishers of *Renew* magazine) will show its "Solar Shuttle", a portable solar energy unit that can power several appliances.

The pavilion will be home to SAM, an electric micro car that allows its driver to cover 100km for 20 cents. It has an aluminium chassis, plastic body panels, three wheels and can reach 100km/h.

And children can meet Wanyip the Wombat and admire the eco-friendly garden made by Victorian schoolkids.

# Ploughing the fields of excellence

**S**PEED the Plough has been the Royal Agricultural Society's symbol for more than 150 years.

It dates back to the RAS's original commitment to excellence in agriculture when ploughs were horse drawn.

In 2003, it refers to its commitment to excellence in an era of biotechnology, genetic testing and computerised mechanisation.

The RAS's undertaking to continue the promotion and understanding of the state's agricultural industry is reflected in the creation of *The Weekly Times* Victorian Agribusiness Showcase.

The Showcase will educate visitors in an industry sector that is rich in technology application and innovation, and is responsible for the production of 30 per cent of the state's export income and the employment of 10 per cent of Victorians.

Educating: The Weekly Times Victorian Agribusiness Showcase.

Through its "Naturally Victorian" initiative, the Department of Primary Industries will illustrate its focus on "clean and green" agricultural exports to the Asian market.

The pavilion also will be home to Rural Skills Australia who will provide information on rural apprenticeships and advice to

industry on training reforms and packages. Genetic Science Services and National Livestock Identification Systems will be displaying some of the latest in genetic and computer technologies and their application in agricultural sectors, livestock handling, animal research, studbook integrity and animal conservation.

The International Agricultural Exchange Association is a non-profit organisation that has been organising work exchanges for young Australians since 1968. Australia is one of the largest host countries averaging annual intakes of between 250 and 300 farmers from around the world.

Now known as "Agriventure", the association will have international participants of the scheme at its information display in the pavilion, providing opportunities for students, industry professionals and the public to compare notes and make our visitors feel welcome.

The Northern Melbourne Institute of TAFE is the largest provider of primary industry training in Victoria.

Their pavilion is considered one of the best of its kind with examples of leading aquaculture, agriculture, horticulture and equine-industry exhibits.

# Sparkling ideas flow to stop water waste

**W**ITH water restrictions in force, Show visitors will be heading to the savewater! display for water-saving tips.

Rotary International will demonstrate water-saving techniques at the Sustainable Living Pavilion.

Everyone who tests the different water-saving showerheads can vote on which one they favour. Entrants can win one of many water-saving

products including water tanks, showerheads, rain gauges and more.

The site will host several organisations including Nylex Gardena, ARI Plastanks, BHP Steel, EPA with home greywater systems, Interbath and Flexispray AAA showerheads, Yarra Valley Water, City West Water, South East Water and Showersmart.

Savewater! is a non-profit water conservation organisation established to promote water-saving devices and cut water-wastage in Victoria.

The annual savewater! awards are the most prestigious in Australia.

The savewater!.com.au website is the most popular water conservation site in Australia, offering more

than 1000 pages of information and hints for business, in the garden, at home and on the farm.

The website offers more than \$25,000 in water-saving plants and products as potential prizes for completing the online questionnaires about various water-related ideas and products.

These competitions are run parallel with quarterly water bills.

Carnival atmosphere: the show's many rides make sure there's plenty of fun for everyone.

# All the fun of the country fair

**T**HE SHOW transforms into a typical country fair on Farm Sunday.

With events such as sheaf tossing, tomato fighting and sheep shearing, the day brings the country to the city.

Cadbury Arena will be the setting for entertaining displays, exhibitions and competitions.

Farming and agricultural techniques of the early settlers such as hay baling, shearing, hand milking and blacksmith and farrier demonstrations through to modern farming methods will be a major part of the day's activities.

This year, it is Victoria's turn to host the Australian Sheaf Tossing Championships with local champion Sheridan Holland attempting to set a world record.

Sheaf tossing originated in Germany more than 300 years ago when bored hay carters decided to amuse themselves by tossing sheafs (simple bundles of straw tied together) over the haystacks they had just built.

It became popular in South Australia with the arrival of German immigrants in the 19th century.

The sport is now common throughout Australia and the world, and sheafs are now wrapped and bound in hessian bags weighing 3.6kg and must be tossed over a

On Farm Sunday, the country comes to the city giving urban dwellers the chance to satisfy their rural curiosities.

There will be shearing displays of sheep and the less common apacas, as well as an interactive wool-handling exhibit showing what happens to fleece after it's shorn and how finer and coarser wools are classed by wool classers.

Blacksmiths will impress you with their ability to transform shapeless pieces of red-hot metal into farmyard tools, and you will see how

horses get their shoes custom-made and fitted by expert farriers.

In the Farmyard Area, children of all ages will love the Petting Zoo and animal nursery, part of the Royal Agricultural Society's Education Unit.

Rare breeds of animal, miniature horses, ponies and dairy goats will also be found there.

The eastern end of Cadbury Arena will feature a huge tent city built by Scouts.

They will descend on Cadbury Arena tying knots to everything that isn't secured in their quest to win the Camp Construction and Bush Skills Competition.

It's the first time such an event has been held at the showgrounds.

Seven individual Scout groups will have to perform a complete camp set-up with the pitching of tents, preparation and clean-up of all meals and other camp tasks.

Camp judging will take place at the end of the day.

Whip-cracking experts will be on hand to provide lessons in one of the more sophisticated stock-handling skills.

The more adventurous will be able to enter The Great Tomato Fight and try to win a holiday for two to Spain.

The Melbourne Tomato Committee marquee will be at the western end of the arena, and the Great Tomato Fight will be hosted by Rhonda Burchmore who also will be performing on the day.

For more information and to enter, visit [www.melbournetomato.com.au](http://www.melbournetomato.com.au)

Victoria's smartest sheep dogs will be striving for fame in the Victorian Working Sheep Dog Trials.

Organically grown produce that uses environmentally friendly harvesting and processing techniques will be supplied by Farmers Market.

## Carnival World has ride attitude

**W**HIZ-BANG rides are a favourite for many, some visitors coming just for the thrills.

And this year the showgrounds transform into a new and improved adventure playground.

The Mad Mouse has found a new home after decades in the one place, and experts predict the flatter, broader surface will provide a nailbiting experience.

All the old favourites — the Zipper, Gravatron, Matterhorn, Dodgem Cars, Ghost Train and Pirate Ship — are being prepared for action.

The amusement precinct, dubbed Carnival World, comes to life in the evening when all the lights create a display of colour.

This year night owls can get into the showgrounds after 5pm for the discount price of \$15.

After dark is the time to be on the

Chairlift as it glides past the Cadbury Arena in time for the Pure Adrenalin fireworks display.

You also get a view of Melbourne's skyline.

Top spot on the ferris wheel at night is just as breathtaking.

This year, you can also enjoy The Roller Ghoster, a combination of rollercoaster and Ghost Train where cars move through four levels of hi-tech thrills.

### Children's Ride Precinct

For some, this area provides all the "thrills and spills" required.

Dumbo, the Wave Swinger, Kids Carousel and Kiddie Train can get the adrenalin pumping.

The beauty of this precinct is that all the rides and amusements are close together.

There also is a lawn area where you can sit and watch the children at play.

Wheel thrill: the view from the ferris wheel can be breathtaking.

#### Peter Hitchener, National Nine News

"The Royal Show takes me back to when I was a kid.

"I grew up in the bush and the Show was a major event on our calendar.

"I think many people have a soft spot for the Show because of the memories it holds. I know many families who never miss going year after year.

"The great thing about the Show is that as well as the events we now look forward

to, there is always something new which will entice a new generation of supporters.

"There is an amazing sense of community at the Show as it brings together elements of the country and the city.

"As well as being loads of fun, it's also a wonderful learning experience, particularly for the children as it's probably the closest many of them who live in the city will ever get to see real animals."

Goodies: for the young ones there are toys and souvenirs galore.

# Violet's owen great legacy

**I**MMACULATE dress, grooming and rigid rules have been prerequisites for success in the Garryowen equestrian event since its inception 69 years ago.

The event is named after champion horse Garryowen who died in a stable fire in Mentone in 1934.

In a tragic twist, the horse's owner, Violet Murrell, one of Victoria's foremost horsewomen, also died while trying to rescue her beloved and prized performer.

The event is considered the most prestigious and coveted title of its kind in Australia, if not the world.

Violet Murrell's legacy to equestriennes is the high standard of dress and presentation to which she adhered.

In a modern world, the Garryowen is unashamedly a traditional event.

It's open to women only, who must be more than 18 and their horses must be at least 14 hands high.

Once you turn your hands vertically and place them on top of one another 14 times, you realise how big it is.

A big horse is usually a strong horse, which means a rider must not appear to be straining or struggling to keep her horse in check when pacing or galloping around the arena, as all riders are heavily scrutinised by the riding judge.

Horse and rider must look

good and work well together, exuding a strong and confident manner, sense of intimacy and understanding.

Composure and decorum are vital for a good score, and with competition winners being decided by a fraction of a point, attention to detail is crucial.

Six different judges are in the Garryowen, all of them meticulous and precise, probably one of the few occasions where pedantry is a virtue.

Points can be deducted for improper placement of a rider's spur strap, it can be marginally too high or too low to the heel; jackets worn by riders must be hand-made with stitching scrutinised for neat and even spacing; breeches and black-top boots must be in pristine condition.

A love and passion for horses and riding is not enough to enter the Garryowen; you need a substantial amount of money as well.

In some cases, tens of thousands of dollars can be spent on the best costumes, saddles and preparation of horses, although competitors are reluctant to focus on cost.

Indeed, they quickly point out that money alone will not secure the Garryowen.

Three-time winner Caroline Wagner knows that success in this competition is dependent on several intricacies and nuances. She says that, among other things, there is no point having an

Winners are grinners: last year's Garryowen winner Rebecca Farrow.

expensive saddle if it is not properly secured.

"The appearance and presentation of the horse is just as important as the rider," she says.

"A saddle must be properly secured, simple things can't be forgotten, straps must not be too tight or too loose, it must be snug and the leather shiny and supple."

The rider's clothing, known as Hunting Attire,

must also be perfectly fitted, and it must allow a rider to sit and ride with comfort.

Balance and composition of horse and rider also is critical.

It's no good having a tall girl on a small horse and vice-versa, Wagner says.

It's as much about confidence, how well things go on the day and the form that appeals to judges.

This year sees the intro-

duction of a major rule change to the Garryowen.

The traditional bowler hat, perhaps the single most distinguishing feature of the competitor's costume, is to be replaced by a black safety helmet.

This rule change has caused much consternation among competitors.

In a traditional event which epitomises aesthetics, style and grace, the thought of

having to wear a safety helmet rather than a bowler hat is frowned on by many.

Judging for this popular competition starts at 9.30am on Tuesday September 23.

If you look closely you will notice all competitors wear a white gardenia on their lapels.

The flower is in honour of the late Violet Murrell and an indication of the sentiment and austerity that surrounds this event.

## Safety issues mean a change for the better

**H**ORSES and their owners have had a few changes to deal with in preparation for this year's Show.

And, as usual, the horse community has responded enthusiastically.

Many competitors will be housed in temporary stabling facilities similar to those used at Homebush during the 2000 Sydney Olympics.

This is to accommodate the redevelopment of the showgrounds which began this year with the demolition of the old Horses West area.

All riders must now wear safety helmets, meaning you won't see the traditional Akubra worn during Australian Stock Horse and Campdrafting events.

It also will replace the traditional bowler hat worn in the prestigious Garryowen.

It will not affect the Clydesdales, of course, because these gentle giants of the horse world are paraded in

Flying: some of Australia's finest showjumpers will compete.

two sections, one of which is a Full Harness Clydesdale section.

A World Cup Showjumping qualifying event will be held on the Cadbury Arena and will see competition between some of Australia's finest showjumpers.

The showjumping course

has been designed by leading South African course builder Brian Lavery.

There also will be several novelty events including musical chairs on horseback, with competitors riding around a group of chairs until the music stops and then jumping off their horses and racing to a free chair.

## THE HERD INSTINCT

## The beef with these cattle

AN air of excitement always surrounds the cattle judging at the Show.

With the aim of promoting excellence and innovation in the agricultural and rural sectors, the Show will, for the first time, host judging for composite cattle breeds.

Composite cattle are those bred of different male and female bloodlines, though not just any mix of breed is acceptable.

The lineage of composite cattle for judging must be traceable and documented.

They are the result of cross breeding of pure-bred cattle.

"The mix of breeds benefits the commercial beef cattle industry through the introduction of hybrid vigour," Royal Agricultural Society cattle committee chairman Noeline King says.

### Cattle Judging

**When:** Sept 18-28 (except Sept 24)

**Where:** The Stephens and Weekly Times Pavilions

Composite cattle judging is the subject of healthy debate in the cattle world. You can find out what all the fuss is about at a seminar on composite breeding on September 24.

Celebrations are also in order at this year's Show with Murray Grey

breeders enjoying their 40th year of judging.

They won't have to fight over the birthday cake either because, coincidentally, exactly 40 Murray Greys have been entered for judging.

The Murray Grey Beef Cattle Society will have a memorabilia display and will be hosting a function where admirers of Australia's very own beef breed are welcome to attend.

The exotic-sounding Maine-Anjou and the Poll Hereford are this year's cattle judging feature breeds.

Find out how well they do when they are judged on September 20 and 25.

### Our best milkshakes

Want to find the source of great-tasting milkshakes?

All will be revealed with the crowning of Australia's best at the Interbreed judging on September 19.

The same applies to beef cattle: their best will be announced at the Interbreed judging on September 20.

This year's judging will be held undercover in The Stephens and Weekly Times pavilions.

Some of the nation's best junior cattle handlers and judges will be competing for national honours on September 28, when finals are held in both these categories.

This is when the nation's youth get a chance to display their livestock and agricultural skills under the watchful eye of Australia's leading cattle experts.

**Lineage:** composite breeds cause debate.

# Doggies showing off

**W**HAT lasts 10 days, attracts international judges, two from Japan and one each from Italy and the United States, and has more than 4000 entries?

It's the Royal Melbourne Championship Dog Show presented by Pedigree.

It's a feast for dog lovers, and with more than 42 per cent of Victorian households owning a pet dog, our canine companions have no shortage of admirers.

Almost every breed of dog is judged at the Show. They range from toy dogs such as pomeranians, to working dogs including german shepherds and collies.

You'll find dachshunds, welsh corgis, schnauzers, old english sheepdogs, dalmatians, bernese mountain dogs, Jack Russell terriers, alaskan malamutes, afghan hounds, beagles — the list goes on.

If you've never been to a dog show you may think all it involves is owners bringing in their dogs, parading or benching them in front of the judges and hoping for the best.

Far from it. This type of judging, referred to as conformation judging, simply means a dog is judged on how close it conforms to the pedigree standard.

However, dog owners and breeders are a special bunch who form incredibly close bonds with animals that crave attention and are eager to please. At the Royal Melbourne Championship Dog Show that means lots of canine fun.

### Flyball competition

Flyball was introduced to Australia in 1996 and has been steadily growing in popularity.

**Adorable:** just about every breed of dog you could imagine will be on show.

It's basically a relay race for dogs, with teams of four.

They must run along a short course with hurdles, retrieve a tennis ball and run it back to the starting line where a team mate is ready to take off.

This year's Show boasts the second-biggest Flyball competition in Australia and one of the most exhilarating competitions to watch at the showgrounds Cadbury Arena on Sunday, September 21.

### Agility and jumping classes

This competition is open to all dogs, including crossbreeds.

These highly trained dogs accomplish some of the most demanding jumps and obstacle course tasks in a compelling and entertaining display of canine agility.

If a dog doesn't make a jump or skips an obstacle, and the dog's owner gets a little hot

under the collar, points may be deducted.

The dog's welfare is paramount in these events, and any display of aggression or punitive behaviour by owners is not tolerated by the judges.

Dogs can be entered in three classes: novice, open and master, and judging takes place on Friday, September 26.

### Obedience classes

You'll find these up the stairs at the back of the Woodfull Pavilion and into the Head Pavilion.

In one of the events, a dog must correctly identify an object touched by its owner from a series of items placed on the floor without the owner pointing to it.

Another event is even more demonstrative of the understanding between dog and owner. Both are placed in front of two obstacles, one to the left and one to the right.

### Pet Dog Show

**When:** September 28

**Where:** Woodfull Pavilion

Once again, without any verbal communication — only hand gestures — the dog must know which obstacle it is expected to negotiate.

### Family pet dog show

This is the big chance for the average family dog owner.

If you've known all along that your scruffy, crossbred pooch is star material, you can prove it by entering the inaugural Family Pet Dog Show supported by the RSPCA on September 28.

Categories will include Best Kept Dog, Best Mannered Dog — even Dog with the Waggiest Tail.

Guest judge will be RSPCA president Dr Hugh Wirth.

The day's highlight will be the culmination of judging, with an assortment of four-legged friends and their owners.

# Feeling sheepish

**W**E'VE all heard the phrase, Australia rides on the sheep's back.

In the past that may have been the case, but things in the agricultural sector have changed markedly over the years.

Take, for example, the alpaca, which is also raised for its fleece.

In the 1830s, Australia had its first intake of this introverted creature.

But alpacas didn't adapt to their new surroundings and soon died out.

It was not until the 1980s that alpacas were reintroduced, this time far more successfully.

Australia now has the largest alpaca population outside of its native Peru, and the Show is its biggest gathering.

There will be two types of alpaca at this year's Show.

The Huacaya, the kind most people are familiar with, will be judged on September 27.

The more exotic-looking Suri has long, twisted bands of hair, not unlike dreadlocks. It will be judged on September 28.

The same day breeders of Suris will hold their Suri Sunday, an opportunity for everyone interested in alpacas to come to the showgrounds and find out more about them.

Of course, sheep are still a major part of the agricultural world and the Show. It's why four days are devoted to them.

Poll dorsets will be judged on September 20, followed by interbreeds on September 21.

All other breeds will be judged on September 19.

At times it's easy to see why sheep are labelled as meek and timid.

But if you attend the ram sales on

**Fleecy lined:** most alpacas make good pets. The more handling they receive when young, the quieter they are as adults.

September 22, you'll see none of these traits on display.

Ram sales are not just about buying and selling stock. They also offer an insight into the characteristics of the agricultural community.

And if you can understand a word

the auctioneer says, then you're probably quite suited to country life.

Goats come in three varieties at the Show: angora, dairy and boer.

The first lot provide some of the most sought-after fleeces; the second produce milk that makes some of the

finest cheeses; the third produce what is now becoming an increasingly sought-after menu item in many fashionable restaurants.

Angoras will be judged on September 18, with Dairy judged on September 27.

## FOWL PLAY

### Contest hardly paltry

IT IS possible to trace the bloodlines of some of the poultry being judged at this year's Show back 120 years.

Unlike some other animals, however, there are no pedigree papers for fowl or poultry, but their lineage is indisputable.

"Owners will spend hours washing and cleaning their chickens," judging superintendent Neil Penny says. "They'll trim their nails and beaks, even pluck their eyebrows and use hair dryers to dry them."

Different poultry are judged on different attributes. Some are judged on colour, others weight or legs. For others it's overall shape.

The objective for poultry breeders is for birds that are in perfect concordance with the Australian Poultry Standard.

The Poultry Pavilion is home to a Patting Pen and incubated hatchery which, says Penny, can have people staying for hours waiting for a baby chick to break free from its eggshell.

This year's feature breed is the Rouen Waterfowl and, with a \$500 first prize, the competition is sure to attract strong entries.

The Rouen should be a rich golden, almost chestnut brown — its head a rich green — and overall it should have magnificently coloured plumage.

Poultry Judging is held on September 18, and during this time the pavilion is closed to the public. It reopens after 4pm.

Poultry are the only animals that are brought in and kept for the duration of the Show.

# Cats of many categories

**W**HISKAS' wonderful World of Cats will present an interesting and informative exhibition showcasing cats and kittens at this year's show.

The Whiskas Bungy Mouse will be doing meet-and-greets and everyone is welcome to come and meet this cheeky character.

Eight breeds of cat and a litter of playful kittens will be on display every day.

Visitors can get information on different breeds, their characteristics and nature.

A resident cat breeder can give visitors referrals to breeders to find the cat of their choice.

Information on the Whiskas Re-homing Program, which operates in association with the Lort Smith Animal Hospital, will also be available at the show.

Vet nurses will be on hand to answer questions on health care and nutrition.

Four Breed Parades each day will

provide in-depth knowledge of the breeds, their backgrounds and their characteristics.

Did you know that the burmese is known as the clown of the cat world, forever playful?

The long-haired persian is the glamour puss and the birman an easy-care, long-hair with an engaging personality.

Visitors will also learn some interesting cat knowledge, including the fact that cats sleep on average 18 hours a day.

Did you know that the cat door was invented by the Englishman Sir Isaac Newton, a pioneering mathematician and physicist who died nearly three centuries ago?

A Cat Trivia Quiz leading into the Breed Parades will test your knowledge and reward you with a prize from Whiskas if you know the answer.

**Feline fabulous:** even little cats are kings of the jungle every year at the Show.

## World of pets

**PURRFECTLY** groomed cats will put their best paws forward for judging at the Show.

More than 300 cats will accompany their owners to the Wonderful World of Pets for this year's cat competition.

On Friday, September 26, long-hair cats such as persians, exotics and birmans will be judged.

Siamese and non-pedigree cats face the judges the next day.

And on Sunday, September 28, it's time for all other short-hairs: abyssinian, burmese, scottish folds and bengals.

**SIX OF THE BEST**

**We'd like to Show and tell**

THIS is your new-look Show.

Up to 500,000 people are expected to flock to the Ascot Vale showgrounds for the 11-day extravaganza opening on September 18.

And with such enormous crowds, it is important to know your way around.

This year, for the first time, Show organisers have tried to group similar events and activities in specially dedicated areas.

Each area, or precinct, has been given a different name to help you identify where you need to go and how to get there.

There are six "worlds": Fun and Learning, Entertainment, Taste and Style, Rural Life, Animal and Carnival.

Each is colour-coded on the map to help you negotiate your way around the 26.3ha site.

In fact, this entire Show Guide is colour-coded to match, making your exploration task even easier.

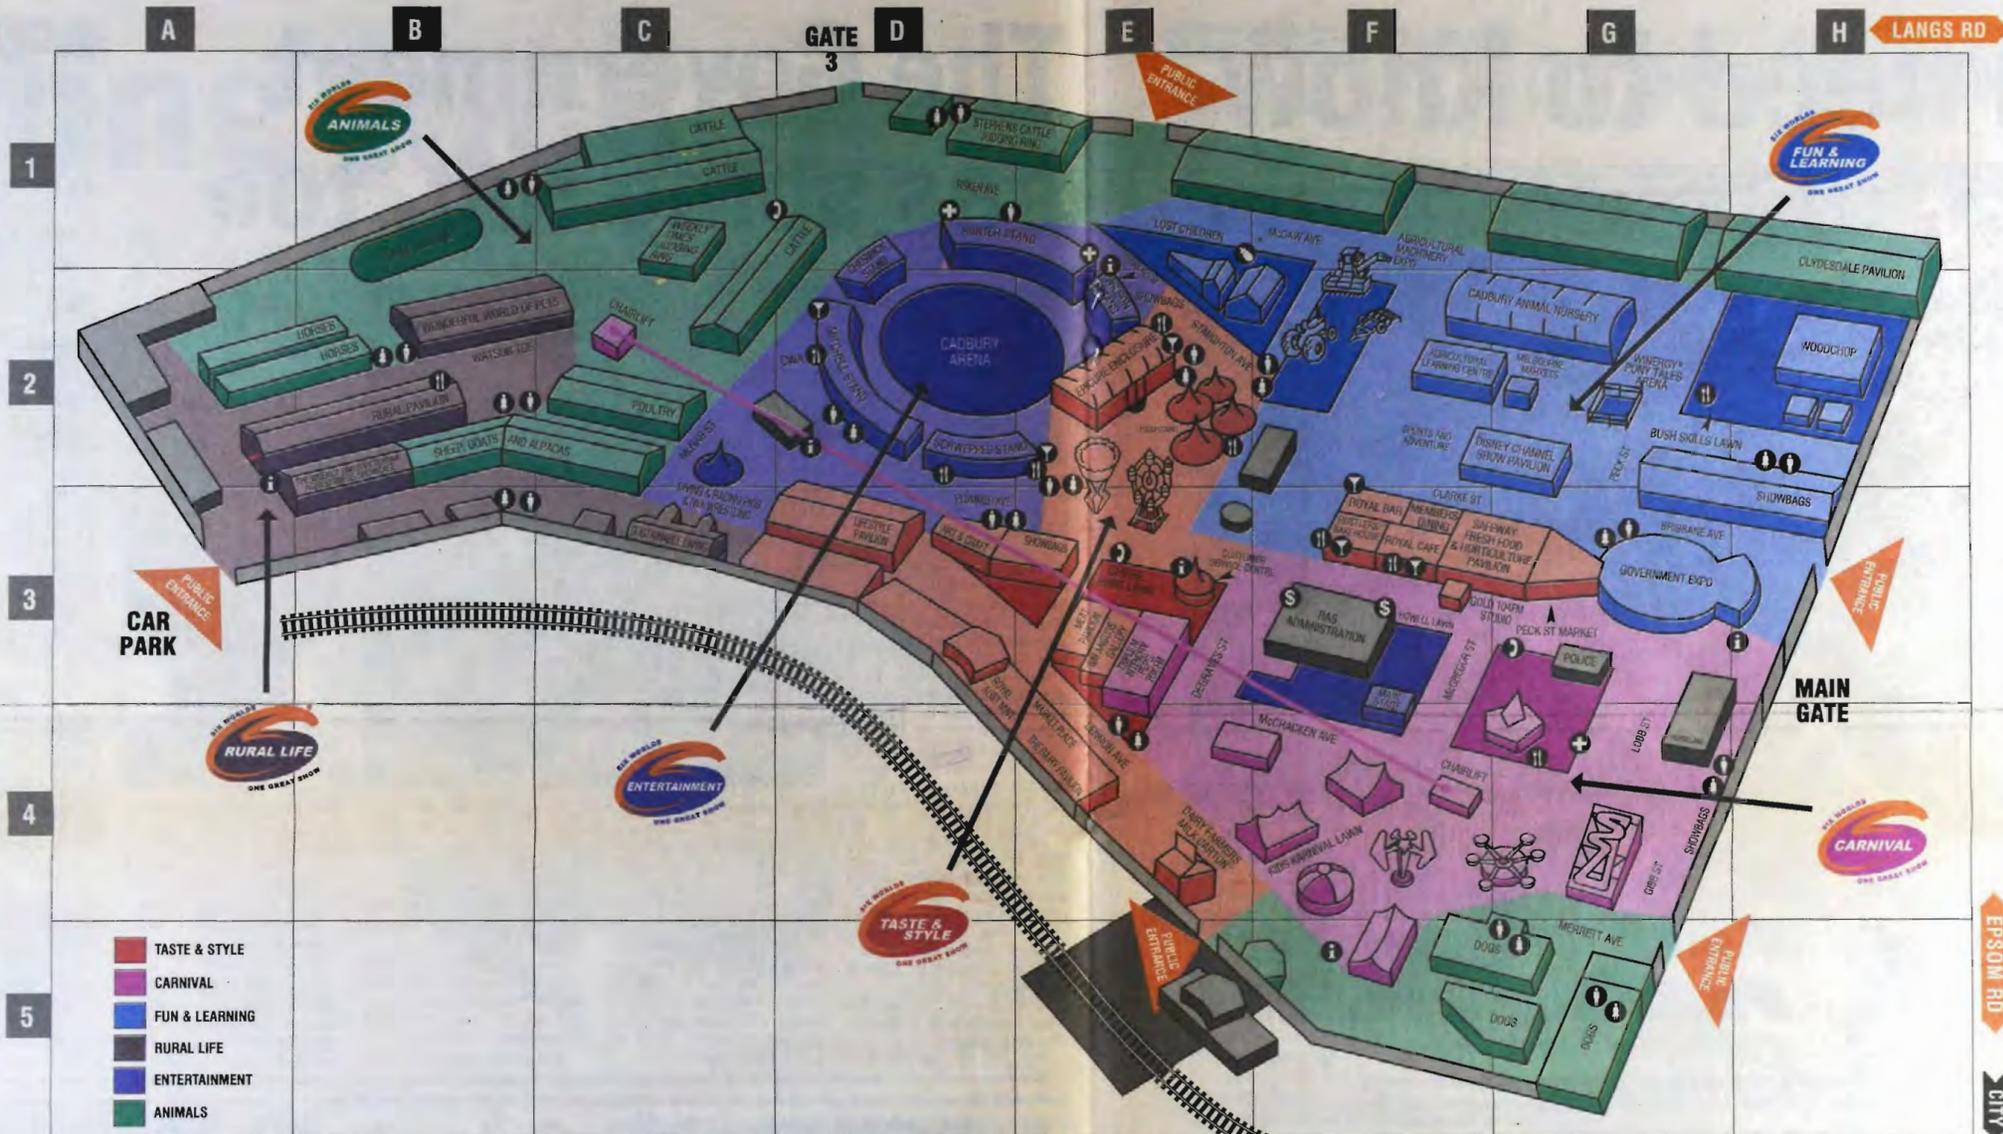

Show organisers plan to build on this concept each year as the \$101 million showgrounds redevelopment takes place.

This map is your ultimate reference guide. Use it to find your way to each precinct as well as public transport, toilets, entry gates and more.

And for up-to-date information about what's on each day of the event, log on to the Royal Agricultural Society's specially designed Show website at [www.royalshow.com.au](http://www.royalshow.com.au).

The website is also divided into the six worlds and will be updated daily with all you need to know about the Show.

Milky way: the whopper milk carton and (below) the giant pie.

**Watch out for the whoppers**

ALMOST as famous as the Flinders St Station clocks, Show icons have been meeting points for patrons for many years.

If you're a first-time visitor to the Show, just look up for the Gillies' Pie in the Sky as you enter through the public entrance opposite the tram-stop in Epsom Rd.

It's easy to see from most of the show's vantage points. The Dairy Farmers Giant Milk Carton might not be as high as the pie, but it's certainly big enough to rival the Sunshine Coast's Big Pineapple and Coffs Harbour's Big Banana.

Remember that the showgrounds are bigger than you might think — 26.3ha — so a little planning can make a big difference.

SPECIAL CASE

## Make a pig of yourself

VERY Special Kids improves the quality of life for families who have a child with a progressive life-threatening illness.

The Piggy Bank Appeal includes five weeks of events and activities to raise funds for, and awareness of, Very Special Kids.

The events this year at the Show for Very Special Kids are all designed to test how good your "Pig Skills" are.

**How it works:** You start with your score card and move through each of the five activities and write down your score after each activity.

After you have completed your five activities your card will be placed in a barrel with your name on it and it will go into the draw to win a prize.

All activities will be supervised by volunteers.

The activities involved:

**Sticky little pigs:** this is where you have to try to throw a ball at the nose of the pig (which has velcro attached).

**Ring Around the Pig:** where you try to throw a ring around the pig.

**Putt the Pig**

**Handball the Pig**

**Pig Basketball**

A small donation to Very Special Kids would be appreciated.

## Country Music Marathon

When: September 28  
Where: Cadbury Arena

ARRIVING TOO late to catch all the performers at the Emerald Country Music Festival, Billy Thorpe invited the whole show on stage for a jam.

During a typical Thorpe rendition of *I've got my Mojo Working* he heard a female voice "wailing high and soulfully" above the other musicians.

"There were a lot of people on stage and at first I couldn't tell where it was coming from," Thorpe says.

"Then I saw this cheeky grin. It was Melinda Schneider, and from that moment on I was a fan."

Thorpe, one of the biggest names in Australian rock, subsequently went on to collaborate with Schneider on her latest album.

Performing since the age of three, Schneider has a pedigree background, recording a duet with her mother at

Talent: Melinda Schneider will perform tracks from her album, *Happy Tears*, during the Country Music Marathon.

the age of eight on a platinum album, followed by another recording at age 11 on what was to become a gold album.

Since then she has won two Mo Awards, a Golden Guitar Award and has had a string of hits on the country charts.

She will be performing tracks from her current album, *Happy Tears*, during the Show's Country Music Marathon.

Joining her will be the latest country music sensations, Southbound.

Their debut album has had three hit singles, gaining nominations for Best Country Band at Tamworth and winning the Carlton & United Best Pub Band.

Other acts include Michael Carr, Jacqui Clupe, Brendan

Walmsley and Tania Kernaghan.

The Country Music Marathon will be part of the celebrations for Boots & Utes that take place on the final day of the Show.

## Pastie delivers

THE pastie is a traditional bakery product that has always been associated with the mining industry.

The inaugural Great Aussie Pastie competition was conducted in 2001 to celebrate the discovery of gold in Victoria 150 years earlier.

Bakers throughout Australia who are bidding for The EOJ Gold Nugget Perpetual Trophy will have ovens primed for the contest.

Think you know what makes a good pastie?

You can find out how good a judge you are: the winning pastie will be a centrepiece of the Victorian Baked Stall.

Under the auspices of the Baking Industry Association of Victoria, the results of The Official Great Aussie Pastie Competition will be announced at this year's Show, on September 19.

Thrilling: see the fireworks.

## Alight after dark

THE Show takes on another life after dark this year.

When the clock passes 5pm, grab the family and head for the showgrounds.

The evening excitement starts with Pure Adrenaline Showtime on Cadbury Arena.

After the thrill of the fireworks, the Main Stage will fire up on the Howell Lawn with a line-up of bands to rock you through to 9pm.

Of course, the rides and games will be going full tilt, but there's plenty of time to grab a showbag or two.

The animal pavilions are open until 7pm and other pavilions and halls stay open until 8pm.

Arrive after 5pm any day and pay the special after-dark rate, available only at the showground gates.

Prices: Adults \$15, children (5-14) \$8, concession \$12.

"I've been a fan of the Show since the showbags were called sample bags, with almost everyone of them containing a Phantom comic and a bar. I also remember when day-old baby chickens came in an elaborate choice of colours.

"Watching the Grand Parade on the Main Arena was always a treat and epitomised what bringing the country and the city together was all about.

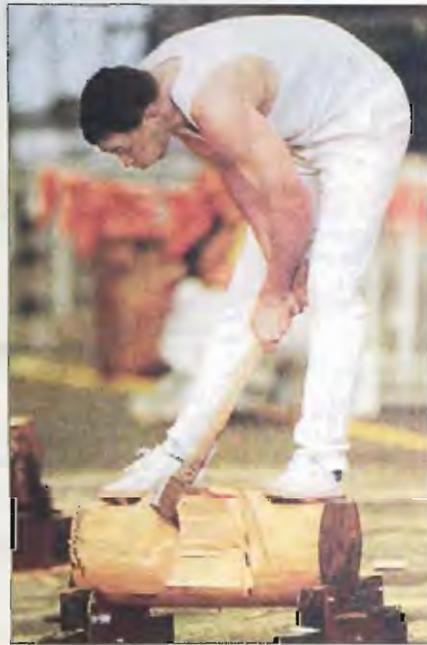

"The world-class Garryowen is still a delight to watch, along with the showjumping events.

"I must admit I was never a fan of the amusement rides as I didn't particularly enjoy throwing up in someone else's lap!"
