# WELCOME

**JACK SEYMOUR**

President of the Royal Agricultural Society of Victoria

**T**HE ROYAL Agricultural Society of Victoria will unveil a new-look Royal Melbourne Show on September 21.

We look forward to welcoming visitors to the redeveloped Showgrounds.

For this initiative, we are indebted to the Bracks Government for providing the funds for the redevelopment of our home.

We have retained many of our historic landmarks, which visitors will have the chance to explore.

Building on a legacy spanning more than 150 years, the Royal Melbourne Show this year enters a new era.

To celebrate the new-look event, our 11-day Show will feature the introduction of theme days, which will inject an everyday focus ranging from Tasting Sipping Dancing Tuesday to Fun Friday.

There will also be a greater emphasis on live music, with the Live at Night series of performances, and a focus on fashion.

The long-term favourite NAB Animal Nursery Discovery Farm returns, where children will be able to take part in farm activities including cow milking, mini-tractor driving, picking fruit and sorting eggs.

Many new attractions add to the offering at this year's Show, but the event will also feature much-loved favourites including woodchop, *The Weekly Times* Agritech Pavilion and the always impressive art, craft and cookery competitions.

Agriculture will be a special feature and a large number of farm animals will be available for viewing.

We look forward to you visiting us at Australia's best agricultural show.

# WELCOME

**STEVE BRACKS MP**  
Premier of Victoria

**T**HIS marks a new beginning for the Royal Melbourne Showgrounds.

This much-loved Victorian icon has undergone the biggest upgrade in its history.

A wonderful new Grand Pavilion under a big top has been added, together with a Town Square, a revitalised main entrance and boulevard and new exhibition and outdoor animal competition spaces.

Our Government is proud of our \$108 million investment towards this significant redevelopment, which has been completed in

partnership with the Royal Agricultural Society of Victoria.

We have not only provided a better home for Victoria's largest family event, we have built a world-class venue to promote and showcase our state's vibrant agriculture sector.

This historic project incorporates

environmentally sustainable designs to deliver a modern, versatile exhibition precinct capable of hosting events and functions throughout the year.

On behalf of our Government, I wish the Royal Melbourne Show every success — and I invite all Victorians to come and see what our new Showgrounds has in store.

# Best of the best

There's something for everyone at the 2006 Royal Melbourne Show

**S**HOWGOERS will be spoiled for choice at this year's event. It's not only the grounds that have had a facelift — the Show itself has had an extreme makeover. Theme days with special attrac-

tions and one-off experiences have been introduced to help you choose which day best suits you to visit. But the Show mainstays will remain. You will be able to pet animals, take to the skies in

adrenaline-pumping rides and get your favourite Showbags every single day. But look out for the signature days of the Show because each has something different to whet your appetite for a fun-filled day out.

# The best of shows

After 150 years of practice and a \$108 million renovation, this year's Melbourne Show should be magic

**V**ISITORS to this year's Royal Melbourne Show are in for some jaw-dropping surprises.

Thanks to the multi-million-dollar Showgrounds makeover, the Royal Melbourne Show has been given a new lease on life.

You have to see it to believe it.

Gone are the dilapidated old pavilions, tired-looking sheds and stands and ageing facilities.

In their place are magnificent new buildings and state-of-the-art pavilions and grandstands.

But the transformation is not just about bricks and mortar.

A team of creative minds has developed an entire new Show experience for visitors — introducing these days to the Show for the first time.

And the renovation doesn't end there.

As dusk falls each evening, some of Australia's top musicians will take to the stage, offering after-work crowds a real reason to party.

The Live at Night element is the first time the Show has offered a comprehensive evening entertainment program for 18 to 35-year-olds.

Royal Agricultural Society CEO Mack O'Sullivan says the Show will be a celebration of the best Victoria has to offer.

"The Show will offer a totally new experience to visitors with these days and special attractions

**First in:** (top) Darcy, Riley, Thomas and Eleanor get a sneak peek at the Show.

with something new on each of the 11 days," O'Sullivan says. "Families will want to come back two or three times to experience the full magic of the new Show."

So confident are organisers of the Show's impending success, they're sprinkling it as the Best of Shows.

Could it really be true? Could this year's Royal Melbourne Show really be the Best of Shows? It's a big call.

But consider the facts.

The Royal Melbourne Show is definitely the biggest Show in Victoria. No doubt about that. It is 40 big themed days of the best Victoria has to offer.

And the Show attracts a bigger crowd than almost any other major event in Melbourne. The attendance

figures of more than 500,000 visitors a year smash those of the Melbourne Cup Carnival, Australian Formula One Grand Prix and the Australian Open tennis tournament each year.

And it's certainly held on a huge stage — the Showgrounds cover more than 19ha of Ascot Vale.

This year's Show will be the most anticipated ever — when we all get to see the results of the spectacular \$108 million renovation.

O'Sullivan, who has been heading the RAS since February, says the transformation is simply stunning.

"There's no doubt the venue had been well worn," he says. "The Show has been on the current site for more than 100 years. It had become an expensive venue with a lot of

buildings that needed maintenance. Because we are a not-for-profit organisation we couldn't keep up with the maintenance and ongoing improvement, let alone capital replenishment.

"For the Show, as a much-loved community event, to thrive, it was imperative the venue be brought up to world-class standards."

The redevelopment is a joint project between the Victorian Government and the RAS. When the project is complete, they will jointly own the site.

The 4ha eastern corner of the 19ha site will be developed for commercial use, but this year it remains the site of the dog shows.

O'Sullivan says the goals of the

redevelopment were to ensure adequate, functional facilities and successfully bring the country to the city (that also means accommodating livestock appropriately and allowing Show-goers to see them at their best) on a site through which everyone could move easily.

"The number one measure of success when the redevelopment is finished is getting people through the gate," O'Sullivan says.

"We want all who visit the Show to have the best possible experience discovering new and exciting things and being engaged. We are committed to uniting Victoria by bringing the country to the city. To be the best of Shows."

So what's going to be on show?

All your favourite animals will be there, in new homes and refurbished heritage buildings.

There's a new Grand Boulevard and Grand Pavilion, Exhibition Hall, Carnival Grounds and a Town Square featuring an open, grassed area where you can enjoy the new sights and sounds.

There are also new public entrances and a new Coca-Cola Main Arena at this year's Show.

Here's some of what you'll see on show from September 21:

### GRAND PAVILION

IT'S new and it's magnificent. You have to see it to believe it.

It's tall, white and, at 8000sq m, so big the people standing across the other side of it look about 2cm tall.

It looks like an old-fashioned big top, but its cutting-edge design means it's far from old-fashioned.

It is naturally airconditioned. Cool air flows in to the pavilion from outside through a 1m gap between the walls and the roof.

As the air inside heats, it rises and escapes through vents in the four peaks of the big top.

The Grand Pavilion will be home to the best fresh produce. Dairy, meat, wine, beer, fruit and vegetables will be on show and this year's guest region, Gippsland, will bring a taste of all it produces.

You'll taste wine and food, learn about local business and innovation, and see and hear about the region's spectacular natural environments and other tourist drawcards.

### LIVESTOCK PAVILION

IT'S the first building you'll see if you enter the Show through the new main gate at Epsom and Union roads and walk along the striking, multicolour-paved Grand Boulevard, formerly known as Plummer Ave.

This 10,000sq m — yes, an entire hectare — pavilion will be home to cattle, sheep and goats.

There are about 4000 animals to accommodate, all of which were once housed in six separate pavilions.

You'll see heritage sheep breeds, the national poll dorset show, the sheep interbreed championships, dairy and beef cattle, and dairy goats.

### TOWN SQUARE

THIS big, open lawn will be a place to relax amid the hustle and bustle.

By day, there will be fun family acts on the main stage, including Dorothy the Dinosaur from the Wiggles, the Hooley Dooleys, Young Talent Team, kids' karaoke, the Grand Illusion Show, the amazing aerial straitjacket escape, the I Dream of Jeannie Show and the Bushwhackers.

At night, there will be children's games, dancing lessons, powerlifting, working-dog demonstrations, sports coaching and much, much more.

At night, the Town Square will go off, as acts including Pete Murray, Clare Bowditch and Dallas Crane rock Live at Night at the Show.

### COCA-COLA ARENA

IT'S SMALLER than the old version and so much better for seeing what's going on out in the middle.

The atmosphere promises to be fantastic, too, for evening fireworks,

**New beaut:** the Government Expo Pavilion and Royal Agricultural Society of Victoria office.

**Ace for space:** inside the Grand Pavilion.

**Animal house:** the 1ha Livestock Pavilion will house about 4000 animals.

**In charge:** redevelopment foreman Frank Martinuzzo at Town Square.

bush games, monster trucks, Moto X stunt bikes and the showjumping under the lights.

### HERITAGE PAVILIONS

THEY'RE the buildings we have known and loved for generations and now they've been restored, looking as good as new.

Look for your favourite old buildings looking new again when you're walking around the redeveloped Showgrounds.

Especially look out for the new-old grandstand overlooking the Town Square.

### NAB ANIMAL NURSERY

THE NAB Animal Nursery Discovery Farm includes all the old features of the animal nursery, and so much more. You can see and be a part of sheep shearing, milking cows and collecting eggs. It's like being a farmer for the day.

### EDUCATION

THE Show has always been an educational experience, but never more than this year. See, hear, touch, taste and smell the best of the country, right in the middle of the city.

**Better view:** it's now easier to see at the Coca-Cola Arena.

# All in a day's work

A farmer's life is a busy one. Here's how you can help

**E**VER fancied picking fruit, driving a tractor, shearing a sheep, patting a pig or milking a cow, but didn't know how? Make tracks for the NAB Animal Nursery Discovery Farm at this year's Show.

The farm is a completely new concept for the Show, the only one of its kind in Australia and almost twice the size of last year's much-loved animal nursery.

The indoor and outdoor farm has all the animals and experiences of the animal nursery, and much more.

In 12 theatrical, educational activity areas, children can see animals, watch farmers care for them and be involved in day-to-day farm tasks.

## HERE'S HOW

**GET** piggy with us. Experience the classic story of the *Three Little Pigs*. There's a straw house, a stick house and a brick house. You can also see a sow and her litter and learn a host of things about pigs.

**HANG** out in the shed. See what a farm shed, stables and equipment look like. Check out the pups, quail and rabbits and watch animal washing and some of the other daily tasks of a dairy farmer.

**PAT** your favourite animals in the patting paddock. Cuddle a chicken, pat a piglet, soothe a calf and lay your hands on a lamb. Holding baby animals in the animal nursery has been a favourite part of the Show for generations of children. This year's experience promises to be even more special.

**WHIZ** around on a tractor as if you own the place. Actually, they're pedal tractors and this activity is only for the under-eights, but it's bound to be a whole lot of fun. The tractor driving-school course includes plenty of challenges. Drive through farm gates, over bridges, rail crossings and cattle grids. We recommend making tractor sounds with your mouth until your lips go numb. It's all part of the fun.

**SHOW** you know your apples from your oranges. The trees in the fruit orchard are loaded. The fruit needs to be picked and we need your help to get the crop in. There are apples, oranges and peaches and you can pick them and pack them to your heart's content. It's a fruitful way to spend your day.

**WATCH** a horse whisperer at work. Or rather, a horse and mule whisperer. The animal-handling area is the place to see this great act. There's also a pack of amazing working dogs. Farmers always say that one good working dog is worth more than one person when you're handling livestock in the yards or out droving. You'll see what they mean.

**DO STOP** at the dairy. There's a live

Just kidding: you can cuddle animals in the nursery.

milking display, information on milk production and you can help out with the milking in a version of a modern dairy. Line up the teats, stick on the cups and milk away. It's easier than doing it the old-fashioned way.

**EGG** the hens on. The poultry farm includes a hatchery and laying area.

Collect the eggs, pack them in trays then see all the different poultry breeds, from chooks to turkeys.

**PULL** the wool over your eyes if you must. But everyone else in the shearing shed will be shearing the sheep, picking up and skirting the fleeces and selecting which bits to put into the wool bale for pressing

and weighing. You can try it yourself and also watch the real shearers make this tough job look so easy. Make sure you leave time to have a good look at the sheep, llamas and alpacas in pens. And back by popular demand are the ewes in the birthing pen giving birth while you watch. It's amazing.

**READ** the trees of knowledge. In nature, a single old eucalyptus trunk and its branches can be home to dozens — probably hundreds or thousands — of birds, lizards, mammals and insects. In the NAB Animal Nursery Discovery Farm, the trees of knowledge are home to plenty of native animals, and to a series of questions and answers about the farm displays. Test yourself on your farm smarts.

**SOAK** up the atmosphere of the world outside the city. Stand on the banks of the river, sit on a bale of hay, check for mail in a roadside box, look at all the tools and equipment you will see around a farm, walk up a cattle ramp, lean on a fence, spot a yabby and talk to a donkey. You'll have a ball.

## SHOW TIP

• Sneak a peek at the Chelsea Flower Show 2006 gold medal-winning garden at the Horticulture Showcase in the Grand Pavilion.

# Watch a dino-soar

**W**HO is big, bright green and covered in yellow spots? Dorothy the Dinosaur, of course.

She's the Wiggles' friend. She's five dinosaur years old (but very wise for her age), wears a floppy white hat and loves eating roses. And she has a heart of gold.

Lucky for us, she's coming to this year's Show. So she'll be on stage at the Town Square. And can you guess what she'll do?

We all know how much she loves dancing, so she's bound to want to dance the day away.

Her favourite styles of dancing are ballet, Irish, Scottish and even line dancing.

The thing is, she needs plenty of people to dance with so she would love everyone down on the grass of the Town Square to get up and dance too.

# Treasure hunt

**D**ISCOVER the best of this year's Show by following the Show Treasure Hunt trail. It's a great way for Showgoers of all ages to see the new-look Showgrounds, explore the pavilions and have some fun.

All you have to do is buy a ticket to the Treasure Hunt at Ticketek outlets at the gate or at Treasure Hunt booths inside the Showgrounds. You will receive a treasure map and a reusable hot-pink treasure bag.

Then it's off around the grounds to find your way to more than \$40 worth of great products, from fruit to honey and even a loaf of Wonderwhite bread. You'll soon see the signs around the Showgrounds.

For \$13 you'll get your Treasure Hunt bag and map. And the deal is even better for Herald Sun readers. Look for the coupon inside the Herald Sun every day of the Show to get \$1 off your Treasure Hunt ticket.

# Saluting the stars

**A** LOT is new about the Royal Melbourne Show in 2006. But, after a year's rest to make way for the redevelopment works last year, one of the great long-standing traditions is back.

Rural Finance Grand Parades are here again, taking the spotlight in the new Coca-Cola Arena.

The parades salute breeders and exhibitors, an integral part of the success of the Show these 11 huge days. It's a big job preparing the animals so they're in peak condition for the thousands of visitors to the Show. The parades are your chance to express your appreciation.

This year there will be three Rural Finance Grand Parades and one harness parade. In fact, this is the

first time for many years that the Show has included a dedicated harness parade. You'll see a variety of harness vehicles, from trade and delivery vehicles drawn by the magnificent heavy horses, to a selection of passenger vehicles.

Expect to see viceroys, phaetons and many other extraordinary vehicles that were used for personal transport through history. If you're really lucky, you may see an ornate horse-drawn hearse.

Book these Rural Finance Grand Parade times in your diary:

**6.30pm, Friday September 22:**

Including harness clydesdales, tradesman and delivery vehicles and light harness

**3.30pm Saturday, September 23:**

Including harness clydesdales, tradesman and delivery vehicles and light harness

**3.45pm Wednesday, September 27:**

Show hunter ponies and showjumpers

**3.30pm Saturday, September 30:**

Turnouts, riding, saddle hacks and galloways and showjumpers

# Give the Hooley Dooleys a hand

**D** AVID, Antoine, Russell and Tickle are travelling home when their car breaks down.

Oh no, how will the Hooley Dooleys manage? They'll need all the help of the people at the Show to get out of this trouble.

Luckily, while David and Antoine try to figure out what has happened to the car, Russell and Tickle discover a cute little farm.

It's a wonderful place with pigs and sheep and goats. They meet Captain Catastrophe and Penelope Perfect. Captain Catastrophe tries to fix the car himself but he doesn't have much luck.

As it gets late they decide to sleep over and have dinner and a big sing-along in the little farmhouse.

The next day after meeting lots of animals and singing and dancing, Penelope Perfect (of course) figures out the problem and they are on their

way home at last. It's the sort of adventure the Hooley Dooleys and their friends are always involved in.

There are plenty of other adventures with ABC characters at the Show. Watch out for Postman Pat, Fifi and Bumble, Fireman Sam and Spot on the Town Square Stage with George Spartels from *Playschool* on September 28-29.

**LISTEN** for 774 ABC Melbourne, which will broadcast live from the Show. Join Jon Faine on *Fun Friday* September 22 as he presents his program live, with interviews and special guests from 8.30am-noon.

Kathy Bedford brings the Regional Victoria Statewide Drive show to the ABC stage in the afternoon, broadcasting from 3pm-6pm.

Weekend favourites the Coodabeen Champions will entertain on Super Saturday September 23, on air live 11am-1pm, and on Sunday join Helen Razer and guests from 10-noon.

Fun: the Hooley Dooleys.

# Passport to fun

Get the most out of the Show by following the Young Explorers' Trail

**I**F YOU live in the city and have never visited a farm, the Show could seem like another world. But who'd have thought you could use a passport to make the most of your visit to the Show?

Sign up for the Young Explorers' Trail and you will receive your very own trail map, passport and bag. The aim of the game is to follow the trail map around the Showgrounds and stop to learn about the displays and have your passport stamped.

The trail is designed for primary school students to have fun while learning about agriculture, science and the environment as they explore the Show.

Parents and guardians can accompany the children as they follow the trail through all its main stops. There's something to learn about grains, plants and food, livestock, technology and the environment. Each stop aims to provide valuable, educational

experiences in a fun and interactive way. You will learn through information boards, demonstrations and interaction with experts. It's the ideal way for city children to experience country activities such as shearing a sheep and milking a cow.

There are prizes to collect when you successfully complete the trail. You can take your stamped passport home as a memento of the Show and you can complete the extra educational activities in your passport.

The trail should take less than two hours to complete. It is designed to maintain students' interest by keeping them busy as they move around.

A special Young Explorers' Trail deal is available on Fun Friday, September 22. Group booking rate of \$8 a child (5-14 years), adults \$18. One complimentary ticket available for a teacher or guardian for every 10 children booked.

# Come and see the new Showgrounds!

It's Show time - and that's the perfect opportunity to come and see the new Melbourne Showgrounds.

The best of the old has been restored, and there are brand new multi-purpose facilities like the stunning Grand Pavilion - one of the largest permanent tent structures in Australia.

The Victorian Government's \$108 million redevelopment has guaranteed that the much-loved Royal Melbourne Show will go on - and created an exciting new precinct for year-round events, conferences and exhibitions.

# New-fashioned fun

There's plenty to see and do on Super Saturday

**T**HIS year's Show is all about celebrating a new venue, new look and new experience.

And what better way to show off a new chapter in the Show's history than with cutting-edge fashion that uses traditional, natural fibres?

Over five days, Chadstone — The Fashion Capital presents Au Naturelle Fashion Shows.

The Au Naturelle fashion shows will feature leading Australian, Victorian-based designers presenting outfits primarily in natural fibres including leather, wool, silk and cotton.

It promises to be an exciting fashion experience, with state-of-the-art visual effects, a dramatic, all-white setting and a 16m catwalk.

This program certainly has an international, upmarket feel about it.

The shows include swimwear and beachwear, streetwear, citywear, spring racing wear and evening wear.

The shows are held next to the Port Phillip Room (map ref O6) at noon, 1.30pm, 3pm, 5.30pm and 7pm on Discovery Day, Thursday September 21; Super Saturday September 23; Showbiz Sunday Sep-

tember 24; Tasting, Sipping and Dancing Tuesday September 26; and Wild Wednesday September 27.

## MAKE IT HOMEMADE

**O**F COURSE you can still see all the traditional art and craft displays at the Show — there's nothing old hat about that.

In fact, with a general resurgence in interest in home crafts such as knitting, crochet and cooking, you'll probably find the art and craft displays as popular as the catwalk.

Robyn Johnson, chairman of the Show art and craft committee, believes this is a side of the Show that some may perceive as old-fashioned, but one that's certainly worth continuing.

"Art and craft is one of the most important sections of the Show," says Johnson, an exhibitor since the 1950s.

"There's something for everyone and just about every member of the public comes through to look at these displays, both men and women."

The popularity of particular disciplines goes in cycles, but cooking is definitely hot for 2006.

"Preserves are making a big comeback, especially unusual jams," she says.

"People are starting to make their own jellies and preserves but are not making as much potted fruit."

This year will see the return of live judging in some sections and several new categories of competition, including handmade carry bags.

Johnson first exhibited a welsh corgi dog her grandparents gave her in 1957.

Since then, Johnson and her son and daughter have shown eggs, floral arrangements, arabian horses and guernsey cattle.

"And I've tried just about every art and craft there is," which she says is the appeal of this pavilion.

"Everyone can come through here and find something to look at that they're interested in."

There's woodwork, knitting, crochet, lacemaking, leadlighting, millinery, canvaswork, papercraft, patchworking, toy making, photography, cooking, preserves, art, scrapbooking and much, much more all in the Art and Craft Pavilion (map ref H3).

Top dressing: fashion and farming sit comfortably together at the Show.

## PETE MURRAY

HE'S all tuned up from his *Opportunity* tour and a big gig at Splendour in the Grass 2006 in July. And now you can see Pete Murray live on stage at the Show as part of the Live at Night line-up.

It's hard to get a ticket to see Murray these days. His debut album *Feeler* was a huge success and *Better Days* from the triple-platinum *See the Sun* was APRA Song of the Year.

Even if you could make it to Byron Bay for Splendour, tickets were sold out long before the festival. But here's a chance close to home.

## DALLAS CRANE

IT HAS been described as having a blistering riff and an infectious chorus. What will you think of Melbourne four-piece Dallas Crane's brand-new single, *Curiosity*?

It's been out only a matter of weeks but already *Curiosity* is attracting plenty of attention.

The single is the first track from the band's fourth studio album, *Factory Girls*.

Rock up to the Town Square Stage at the Show and you'll be among the first to see it performed live.

Dallas Crane are big news but are certainly no overnight success. They're one of the hardest-working bands in the country, slogging it out in pubs since 1996, gathering a loyal following and earning the respect of the country's top music writers.

And there have been big gigs too. Homebake in 2003, Big Day Out in 2004 and as special guests of Midnight Oil in 2005. There was official industry recognition of Dallas Crane's place in Australian music with three ARIA nominations in 2004.

## GROUND COMPONENTS

ANOTHER special rock opportunity for Showgoers. Ground Components' debut album *An Eye for a Brow, a Tooth for a Pick* was released on August 22.

See it performed live — including the track *On Your Living Room Floor* — on the Town Square Stage at the Show.

Lead singer Joe McGuigan will be testing out those soaring vocals in front of his young Melbourne band. It's a voice that has tried everything including punk, reggae, soul and R&B. Not surprising then that Ground Components' music has been described as having reckless spontaneity.

McGuigan says the band's first demo was completely out of control. But with the benefit of experience and the guidance of accomplished producers, some of that recklessness has been moulded into a sound that has audiences talking.

# Showing off

Pete Murray is one of the headline acts at Live at Night at the Show

LIVE AT NIGHT

**Rarity:** it's hard to get tickets to see Pete Murray (above), but he'll be at Live at Night, where you can also see Dallas Crane (below) and Clare Bowditch.

And audiences in the US and the UK like Ground Components' sound as much as those hearing it live in Australia. The band are back from taking the stage at the SXSW music festival in Texas and gigs in LA, New York and London.

## CLARE BOWDITCH

THE critics loved *What Was Left* from Clare Bowditch and The Feeding Set. Not that anyone was expecting much less than hypnotically beautiful songs from Bowditch. Her debut album *Autumn Bone* has been described as having unassuming originality and an uncanny ability to tell stories.

Bowditch and The Feeding Set were also a big hit at Splendour in the Grass. The Live at Night audience at the Show is sure to be just as satisfied.

Every day of the Show is packed full of entertainment, but none more than Showbiz Sunday

**H**ERE'S a plan for the budding pop star: pull up a patch of grass at the Town Square on Showbiz Sunday. Get comfortable. Watch, listen, sing along and dance to top 40 hits with the Young Talent Team.

Then put up your hand to join Martin Cox on stage to sing your favourite hit from the show you've just seen. What a day!

Young Talent Team, part of the Richmond-based Johnny Young Talent School, is all set to perform on the Town Square Stage.

They'll sing and dance their way through all the latest hits.

turn to be in the spotlight. Martin's Live Karaoke Show for kids is unlike traditional karaoke.

There are no backing tapes, no bouncing ball. It's just you (with the help of words on a music stand) and Cox playing a keyboard.

You're in charge. Feel like repeating a chorus? You can.

Cox can change the key and tempo to suit your voice and style, even midway through a song.

With his hi-tech digital keyboard you'll feel as if you have a whole band behind you.

He also learns the latest pop songs as they come out.

His advice when you're practising before the show: steer clear of Delta Goodrem songs.

They're too low and too high for most voices. Delta's good!

Cox, a classically trained musician, has played in pop, rock, blues, jazz, folk and world music bands and orchestras.

He was playing in a piano bar in Spain when the karaoke craze hit

# A tapestry of culture

Travel the world in one day at the Show

**I**F VARIETY is the spice of life, prepare for a very spicy experience at this year's Show.

September 25 is Multicultural Monday, which means the day's entertainment comes from every corner of the world.

Town Square is the focus of the entertainment, where a program of multicultural acts will take place on the Town Square Stage from 10.30am-5.30pm.

You can learn about capoeira, a type of martial art from Brazil. You may have seen Halle Berry show off her capoeira skills as Catwoman, or the phenomenal capoeira sequences in *Ocean's Twelve*.

Developed by African slaves in Brazil in colonial times, capoeira is about deft, tricky moves, lots of acrobatics and is set to music.

There is also African, indigenous and Celtic dancing and music on stage.

Off stage, experience the fun of

multicultural dancing throughout the grounds.

It promises to be a great day of light-hearted culture and exercise. You can just turn up and join in.

Experience the Maori, Greek, Brazilian, Celtic, Middle Eastern and African entertainment.

If you still have the energy after all that dancing, be sure to see as much as you can around the Showgrounds.

Woodchop competitors will be battling it out from 10.30am. Competitors from as young as nine compete for more than \$70,000 in prizemoney. Other prizes include the Golden Axe.

In the Rural Life (map ref H7) you can research your family coat of arms.

And don't forget to drop into *The Weekly Times AgriTech Pavilion* (Map ref O6) for the latest in agricultural innovation and a copy of *The Weekly Times*.

**Let it all hang out:** check out the multicultural dancing throughout the grounds.

# Country is coming

Golden memory: rustic charm in the former Gippsland mining town of Walhalla.

There's more than a little bit of country at this year's Show.

In fact, there's a whole region. And that's Gippsland

**T**HE country is coming to the city for the Show and no region will be better represented than Gippsland.

So how do you bring a whole slab of the state to Melbourne? You pick the best representatives of a wine industry fast forging a great reputation; top dairy, meat, seafood and fruit and vegetable producers; then add tourism representatives and some top examples of innovation in agriculture.

And once you've assembled that formidable line-up, you invite them to the Show to talk to people, hold tastings, give out samples, sell their products, offer fantastic prizes, explain their inventions and tell everyone what a great place Gippsland is to visit.

### INNOVATION

WANDER around the Gippsland area of the Grand Pavilion and you'll learn about the dairy farmers responsible for inventing the robotic dairy, which is so efficient the farmers now sit in a glass-walled office and watch the cows wander in and out for milking. They invented the robotic dairy because they needed to find ways to make the physical part of their jobs easier as they grew older.

The upside of this invention is that the cows are so relaxed about it all they're producing more milk than ever. How's that for a win-win situation?

Taste buds: rural exhibits were among the biggest hits at last year's Show.

### WINE AND BEER

GIPPSLAND wines may not have had the profile of the Yarra Valley or the north-east in the past, but look out. There will be about 20 Gippsland wineries represented at the Show and you only have to look to the success of the inaugural Gippsland Wine Show in Warragul in March for an indication of the region's development, where more than 40 Gippsland wineries submitted 209 wines.

People who know their beer are also prominent in the Gippsland region's award-winning boutique breweries, including Grand Ridge at Mirboo North. Talk to the brewers at the Show and make sure they let you have a taste of their brews.

### ATTRACTIONS

HOW do you describe all there is to see and do in this huge, diverse, naturally spectacular region? How about rolling hills, rainforest, wilderness coastline, networks of lakes

and rivers, green farmland, mountains, heathland and towering eucalypt forests?

There is so much to do on a holiday in Gippsland you'll need all your holidays for many years to see just the best there is to see. For more information, ask the Gippsland representatives in the Grand Pavilion at the Show.

## CROAJINGOLONG NATIONAL PARK

CROAJINGOLONG'S landscapes and ecosystems are so valuable UNESCO has nominated it a World Biosphere Reserve.

The park encompasses 100km of coast and hinterland and features an extraordinary diversity of landscapes from pure white sandy beaches, rocky coastal headlands and granite peaks to rambling heathland, lush rainforests and towering eucalypts.

## WILSONS PROMONTORY NATIONAL PARK

THIS is the southernmost point of the Australian mainland and may be Victoria's most loved national park.

Its 130km coastline is framed by granite headlands, mountains, forests and fern gullies.

Tidal River, 30km inside the park boundary, is the focus for tourism and recreation.

The park contains the largest coastal wilderness area in Victoria.

## TARRA-BULGA NATIONAL PARK

THE more than 2000ha of mountain ash forest and cool temperate rainforest of Tarra-Bulga National Park provides food and nesting areas for possums, owls and bats.

If you are lucky you may catch a glimpse of a lyrebird. Tarra-Bulga is popular for picnics, walks, scenic drives and nature study.

## WALHALLA

WALHALLA was one of Australia's richest towns and home to more than 3500 people after the discovery of gold in the area in 1863.

Today the population is about 20.

During most of the 20th century Walhalla was virtually frozen in time; electricity was not connected until 1998.

### GIPPSLAND DISPLAY

**When:** every day

**Where:** The Grand Pavilion

**Map ref:** K5

After nearly becoming a ghost town, many of its buildings and services have now been restored.

Explore the old mines or try your skills at panning for gold. Enjoy a ride on the restored Walhalla Goldfields Railway, the Walhalla Transport Co horse and carriage, or the Copper Mine Adventure four-wheel-drive tour.

### GIPPSLAND LAKES

THE Gippsland Lakes system is Australia's biggest and perhaps its most beautiful expanse of inland waterways, with more than 400sq km of lakes, rivers, lagoons and islands to explore, separated from the ocean by a beautiful strip of coastal sand dunes known as Ninety Mile Beach.

### SAFEWAY SHOWCASE

THE new Grand Pavilion is so big there's room for more than just Gippsland's finest.

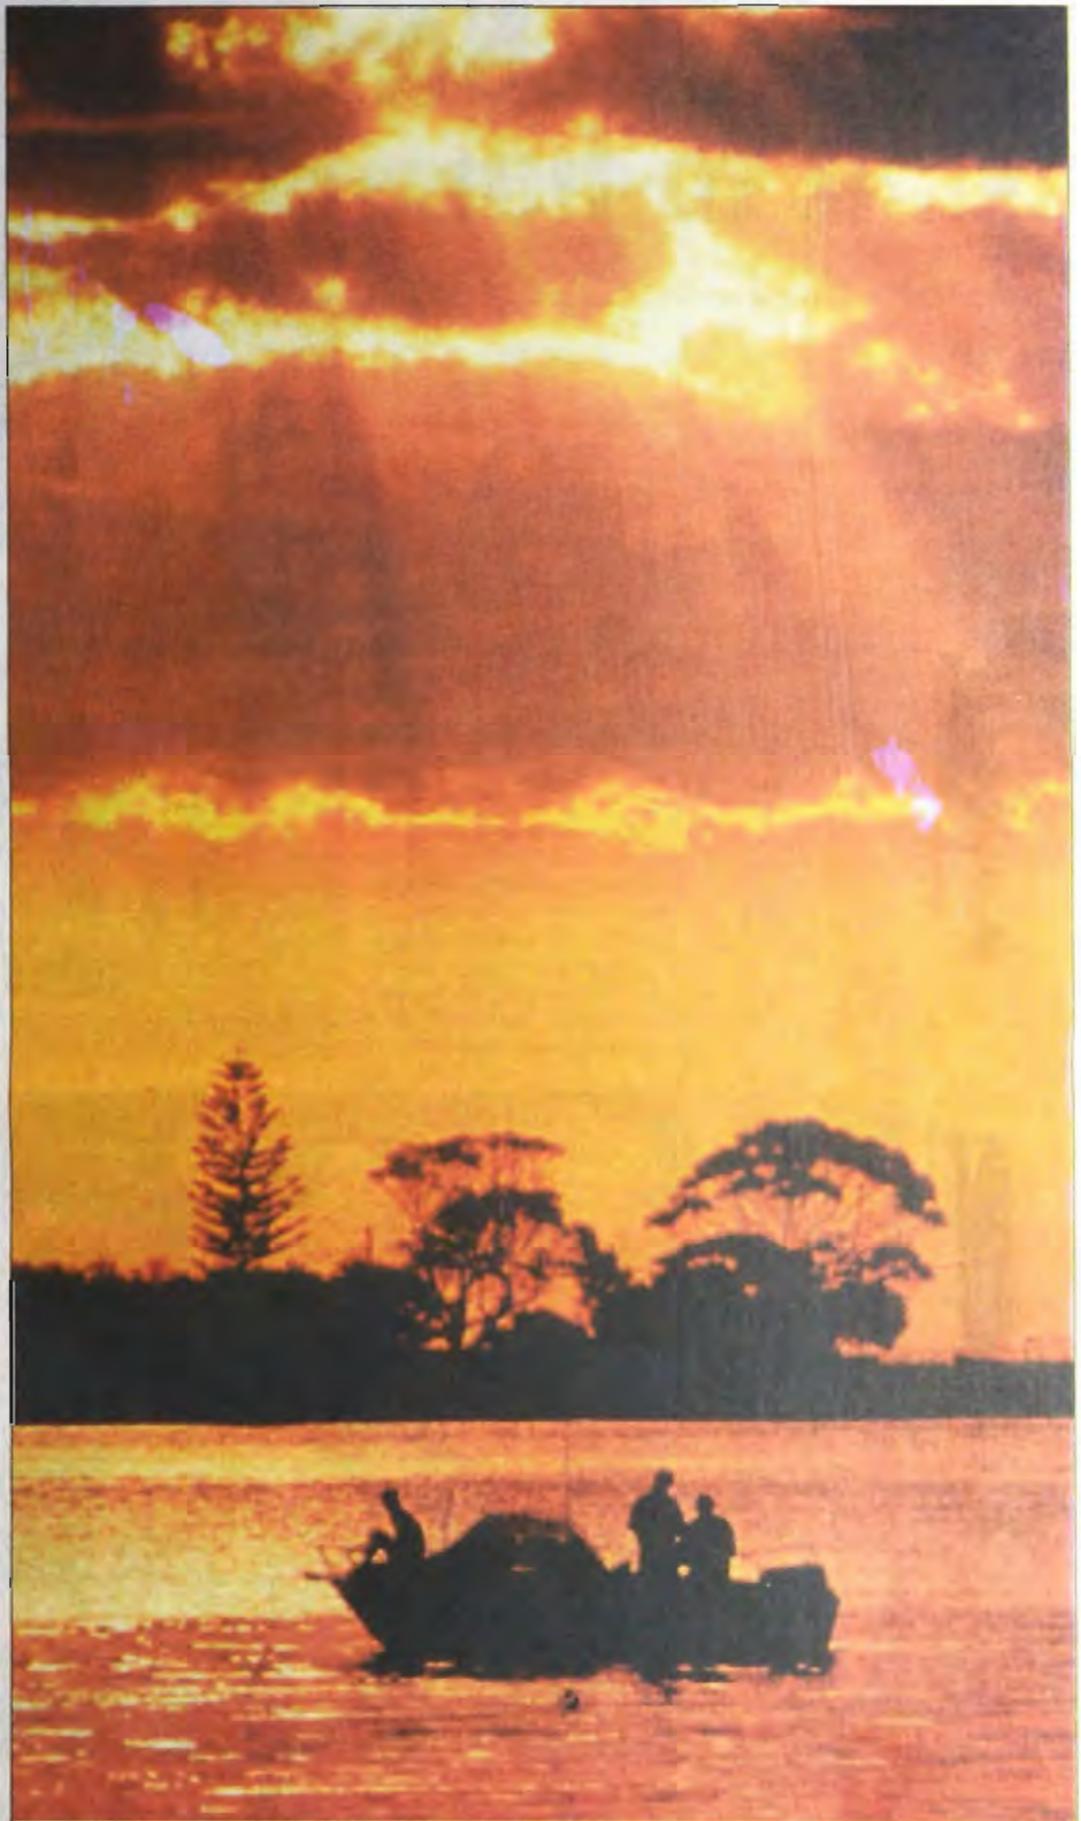

There are dozens of exhibitors in the Safeway Fresh Food Showcase.

You could spend a whole day chatting, sampling and buying chocolate sauces, fresh fruit and vegetables, dried fruit, free-range chicken, cheese, health-food bars, chilli beer, wine, tea and coffee. There's something for everyone.

And when you'd like a rest, settle in for a session at the Safeway Showcase Kitchen. It's all about fresh food: where it comes from and how best to prepare and eat it for maximum nutrition and taste.

There will be two 20-minute sessions each hour between 10am and 6pm in the 80-seat kitchen area.

Learn where Safeway apples come from, how they're produced and how best to prepare and eat them. There are also sessions on ladyfinger bananas, a King Island cheese appreciation session and much, much more.

As you lake it: the Gippsland Lakes system is Australia's biggest and one of the most beautiful inland waterways.

# The sky's No Limit to fun

We all know the Show is fun and educational. But did you have any idea it could be so wild and wicked?

**D**O YOU have the guts for a turn on the most extreme ride in the world?

No Limit, new to the Show and only in Australia since February, simulates the experience of an F1 fighter jet pilot in a roll.

No Limit owner Elwin Bell imported the ride from Europe and says it's the most extraordinary ride he's ever seen.

And he's seen a lot of rides.

"I've never seen people get off so happy and full of adrenalin," says Bell, who is also bringing dodgem cars, the Thunderbolt and children's rides (including a carousel) to the Show.

"People get off and they're jumping up and down they're so excited. It's gut wrenching but it's not a sickening ride. You can't compare it to anything you've ever been on before."

Thrill seeker: Elwin Bell.

No Limit costs \$15 for three minutes.

Watch out for Bell's other new ride, Space Roller, which is like an octopus. The body of the octopus tilts, the arms swing and the seat swings. Are you up for it?

## NO LIMIT

When: Every day  
Where: Carnival Grounds

## SHOW TIP

Organise a meeting point with friends and family — perhaps under the Pie in the Sky — so you can find each other at the end of the day. It can be a long day at the Show. Make sure you get plenty of rest beforehand and drink plenty of water and eat during the day.

## POWER LAUGHING

When: Wednesday September 27  
Where: Town Square Stage  
Map ref: H5

# You gotta laugh

**A**RE you a quiet, slightly serious and perhaps even occasionally snappish individual? Maybe even moody? No more.

Spend 15 minutes of your life learning how to laugh at this year's Show and your life as you know it will change.

Power laughing is a technique developed by Melbourne comedians and actors Tim Scally and Steve Sculley. They're not just funny men, they're passionate about laughter. Their technique is based on the idea that laughing is good for you. Just as

stress has a physical effect on your body — you release different chemicals from those you release when you're not stressed — so does happiness and laughter.

When you feel happy, your body releases chemicals, or hormones, called endorphins, as it does when you exercise.

Endorphins can make you feel good. Some people call them nature's antidepressants. And when you laugh, you exercise your heart and lungs, oxygenate your blood and relax your muscles. Sculley and Scally call

laughing internal jogging. Their power laughing workshops teach you how to laugh in situations in which you wouldn't have thought anything particularly funny.

Prepare for possible muscle soreness after the workshop. If you're not accustomed to laughing your head off, you may find you've used muscles you haven't used in a long time.

Children laugh about 400 times a day. Adults usually laugh only about 15-17 times. Who's happier? You guessed it: the kids.

# Gold-medal BBQ

Grand design: Dean Herald's creation won gold at Chelsea.

**T**RUST Australian gardeners to come up with something this wild. Among the hyacinths, tulips, irises and other delicate blooms at this year's Chelsea Flower Show was an Aussie barbie. And not just any Aussie barbie, but a fully functional outdoor kitchen, sunken lounge and dining area, planted with plenty of wild and wonderful Australian plants such as xanthorrhoea, commonly called grass trees.

The Chelsea judges thought it was so wild it won the gold medal. What will you think?

The Fleming's Nurseries Australian Garden — presented by Trailfinders — is making a special encore appearance in the Grand Pavilion at the Royal Melbourne Show. We can't promise the Queen will come to the barbie (as she did at Chelsea), but we can promise great garden ideas and plenty of opportunities to get your hands good and dirty learning about horticulture.

The horticultural industry team is recreating the extraordinary design that wowed the rest of the world at Chelsea in May. The design previously won a gold medal and the prestigious RHS Comedaw Award at the Melbourne International Flower and Garden Show 2005.

## THE VICTORIAN HORTICULTURE CHELSEA FLOWER SHOW GOLD-MEDAL GARDEN

**When:** every day

**Where:** Grand Pavilion

**Map ref:** K5

Designed by leading Sydney designer Dean Herald — who you may have seen on *The Block* — the award-winning creation includes a teppanyaki cooking plate, fridge, sink, benches and storage cupboards under a timber gazebo. An outdoor fireplace, with a stack of firewood as a wall feature, means the garden can be enjoyed all year round.

Herald's emphasis in design is always on function. He is aware that the majority of Australians aren't gardeners in the traditional sense, but just about everyone loves being outdoors. You'll notice that this design is very low maintenance and, once established, requires very little water. Some interesting grasses and flaxes are featured.

Check that dining table — it's actually a water feature. Water travels between sheets of glass and

cascades into the pond below. Subtly lit at night, this forms a beautiful space to sit around. The glass tabletop is inscribed with inspirational quotes.

A play area for children features a sandpit, blackboard and flowerbeds, included to encourage children to experiment with growing their own herbs, veggies and flowers.

Fleming's was the driving force behind the first-ever Australian show garden at Chelsea in 2004. The garden won a silver medal. In 2005 Fleming's returned to Chelsea and won gold. The creation was the first Australian show garden to ever win the very prestigious award.

Building this year's garden in Chelsea, and now at the Royal Melbourne Show, is no mean feat. Fleming's shipped 90 tonnes of construction material and equipment to London for the Chelsea display.

For 14 days, the team worked around the clock, battling the inclement English weather. Several of the plants — perfect for Australian conditions — needed plenty of TLC to keep them looking good for the bustling English crowds.

Melbourne-based Fleming's Nurseries is a leading Australian tree grower and wholesaler.

# Hectic bush games back

Horses, motorbikes and 12 bush daredevils bring mayhem to the arena every day

**W**HAT do you get when you put horses, motorbikes, quad bikes and 12 daredevil bush folk in the Coca-Cola Arena in front of a crowd?

A lot of action, a fair bit of running, riding, jumping and galloping, a little bit of falling off and getting back on and an arena-full of absolute mayhem. That's the Show bush games for you.

Unique to the Melbourne Show, they were a hit in 2003 and 2004. (They could not be run last year because of the Showgrounds redevelopment.)

Though they are based on everyday farm activities, no real farm

could run smoothly with this much chaos attached to every task.

The competitors, mostly from around Yackandandah in northeast Victoria, are cattlemen, fencers and bush mechanics.

They come to Melbourne for the duration of the Show, performing their special brand of hard work at 3pm daily.

There's a smaller version of the games about 7pm before the evening show starts.

The competitors form three teams, each of four members, using horses, quad bikes and motorbikes.

This year you'll see the return of a relay, a wagon race and a pick-up race, as well some new games.

All set: the popular bush games are returning to the Show after being held over last year.

The relay involves team members completing a circuit opening gates and getting around obstacles. A bale of hay is the baton. The last competitor in each team must shut the gate. The wagon race requires

two members of each team to be on foot, plus one on the flatbed wagon and one on horseback.

The race goes to the team which can load and pull the wagon around a circuit the fastest.

Get in to the Grand Final at the Show. It's a win-win situation

HOW do you think the doggies will go this year? Any good against the cats? And how about those beef cattle? Will they match it against the dairy cows?

Of course the real question is whether two days of sports madness at the Show coinciding with the AFL Grand Final is too much sport for even sports nuts to bear.

As well as the intense competition between the dogs, cattle, sheep, horses and poultry around the Showgrounds, there'll be dozens of sports to try, sports-themed entertainers on stages and wandering around, sports-themed music and much, much more. Here's how you can spend one of the year's biggest sporting weekends soaking up the atmosphere at the Show.

WATCH THE GAME

PULL up a patch of grass, let your head settle after that last whizzing ride, rip open a bag of fairy floss, bury your hands in a carton of popcorn and watch The Game on two 40sq m screens in the Town Square and another big screen in the Coca-Cola Arena. Who says the MCG is the only place to be on September 30? The atmosphere promises to be magical and you'll have hundreds of fans all around you to drown out your shouting.

HAVE A GO

SPORTS Spectacular days are not just about watching sport. They're about everyone getting involved in their favourite sport, or in something they've never tried.

Head to the Town Square on Friday for handball, volleyball, softball, soccer and fitness circuit classes. Each activity will be coached and led by two professional athletes. Anyone can wander along and join in.

There will be plenty of encourage-

# Kicking goals

ment, lots of healthy exercise and certainly no pressure to win or even show a natural aptitude for the sport you're trying!

It's all about having fun and getting involved.

On Saturday, before the Grand Final begins, there will be mass aerobics and taekwondo activities in the Town Square.

And on both Friday and Saturday, head to the Town Square for Frisbee clinics, Little Athletics, taekwondo and much more.

The sports and leisure pavilion will be packed with sporting opportunities for the duration of the Show.

Try your luck chipping and putting with golf champions, hit a

baseball as hard as you can and show off your footy marking skills.

SIT BACK AND LAUGH

IT'S just as well we're talking about the White Maggot Trio in a sporting context. There are few worse insults you can yell at an umpire, but these comedians and musicians have only themselves to blame for the name.

They'll be splitting their time between the stages at the Grand Boulevard, Amphitheatre and Grand Pavilion on Saturday, performing classics from the radio years.

Watch out for the miming Commonwealth Games Trio, dressed in blue, red and green. It sounds like a

stretch, but we're counting digging a hole as sport at this year's Show.

But maybe you'll agree we're not too far off the mark if you encounter the Pitt Family on Friday or Saturday at the Show. This madcap shovelling troupe approaches digging a hole like you've never seen before — or likely to see again.

Meet family members Cess Pitt, Sandy Pitt and Digger Pitt as they race the clock to dig and fill in a hole. It's like a wood-chopping competition with a shovel.

SHOW SPORTS

THERE is plenty of great competition to see in every corner of the

Showgrounds every day of the Show. Marvel at the accuracy, strength and speed of the woodchop stars as they fight it out for the Golden Axe. Watch the standing block, underhand, tree-felling and hard-hitting divisions and take in women's, junior and veteran competitions.

In the dog pavilions, more than 4000 dogs will compete for the title of Best in Show. Meet owners and their samoyeds, mastiffs, rottweilers, whippets, deerhounds, borzois, finnish lapphunds, pumis, nova scotia duck tolling retrievers, australian silky terriers and many, many more breeds. They compete for prizes in agility, jumping and obedience.

# Showtime

## LIVE AT NIGHT

### SARAH CARROLL

SHE'S redefining classic country and western swing and her debut solo album — with the uplifting title *Yippee* — is a cracker. That's a couple of reasons to rock up to Live at Night for the Sarah Carroll gig.

St Kilda-born Carroll made her name as part of the now-defunct Git. Her music has been described as country meets soul meets Latin and even a touch of rock steady. Phew ... that's a mouthful.

What's more important is that she has more fun performing than pretty much anyone that you have ever seen on stage.

### REBECCA BARNARD

LOCAL singer Rebecca Barnard has a new album and she has been warming it up for a big Show audience with gigs in Lorne, Geelong and Melbourne. It's called *Fortified* and has been eagerly awaited by fans of Barnard's successful 1990s band Rebecca's Empire, best known for their huge hit *Atomic Electric*, which made it into Triple J's first-ever Hottest 100.

### MICK THOMAS & SURE THING

BALLAD writer and folk singer Mick Thomas is best known for the huge successes of cult Australian band Weddings, Parties, Anything.

Though they broke up in 1998, Thomas has certainly been busy, touring and recording with Sure Thing in the UK, Europe, Beijing and the US. The much-awaited Weddings reunion shows last year were a hit.

Now he's working on some new stuff, bound to feature at Live at Night at the Show.

### WAGONS

HERE'S a concept: choose a music genre and give it a "kick in the ass". Wagons' lead singer Henry Wagons chose country music. These urban cowboys have been very hard at work injecting rock-and-roll chutzpah into country music ever since.

The Melbourne band's tunes, written by Henry, cover the old-fashioned country topics of love and heartbreak, as well as death, depravity, addiction and the loss of freedom. The band's latest album is aptly named *Draw Blood*.

That all makes sense when you learn that the five school friends formed Wagons as a result of common loves: the music of Johnny Cash, Neil Diamond, Scott Walker and Lee Hazelwood. Plenty of dark influences there, then.

Ready to party: Mick Thomas, formerly of the band Weddings, Parties, Anything, will be rocking up a storm at Live at Night during the Show.

Local talent: Rebecca Barnard will be a popular performer at Live at Night.

engage in good-natured banter until the cows come home.

### MARCEL BORRACK

MELBOURNE singer-songwriter Marcel Borrack has been called an urban troubadour and a suburban cowboy philosopher. He's not so keen on those labels, but with two albums of rootsy ballads to his name, he's not in a great position to argue.

Borrack's songs are heartfelt accounts of the stories of everyday life. It's rootsy pop but with a hand-made sound.

New album *I Was Only Dreaming* is perfect to perform at the Show.

Borrack tells us: "You are likely to hear lots of cows and birds in the background."

Their act has been described as eccentric, and if you've ever seen them on stage you'll know why. It's not just the music that's slightly left of centre. At last year's Queenscliff Music Festival, for instance, the audience was treated to an in-form Henry Wagons, who was more than happy to spout philosophy and

# Going out with a bang

Colour, movement, magic and fun are the order of Carnivale day

IT'S not every day you get to join a giant conga line, dance with a rollerblading Carmen Miranda-type who's doing the samba, fly down the biggest slide in the southern hemisphere and head home with an armful of showbags to help you remember your day.

But you can do all this and more on Carnivale day: the colourful, vibrant finale to the 2006 Royal Melbourne Show.

You won't have to look too hard to spot Tutti & Frutti around the Showgrounds, particularly around the Grand Boulevard, amphitheatre and Grand Pavilion.

They're a roving act on rollerblades, wielding giant maracas, singing, doing the samba and laden with enough fruit they'd blend in just fine among the fresh food displays in the Grand Pavilion.

Secure your spot on the grass in front of the Town Square stage for a children's music performance from the Ticklish Allsorts, an Afro-Cuban experience with the Rumberos and plenty of high-spirited percussion from Tumberumba.

The action and energy continue in the Coca-Cola Arena. You can see the Flying Lotahs perform their aerial swappole and trapeze, watch the MotoX stunt bikes and marvel at the monster truck with that big new engine.

In the morning, the Coca-Cola Arena is the place to be for the judging of the children's hacks and Galloways, followed by the saddle

hacks and Galloways and show-jumping after lunch.

In the livestock pavilion, see judging of the boer and angora goats as well as some top beef competitions.

Today is your last opportunity to

experience the extraordinary NAB Animal Nursery Discovery Farm, the Wonderful World of Pets and those madcap oinkers, the diving and racing pigs.

If you're game, there are dozens of fast, high, exhilarating, terrifying

rides to try. Finish your 2006 Show experience with a ride on the F1 Euro slide.

The 60m slide made its Australian debut last year. Luckily you can only do this stuff once a year: this slide really is not for the faint-hearted.

**Tutti & Frutti:** you'll see them singing and dancing and whizzing around on rollerblades.
